Subject: Huntington Beach Energy Project (12-AFC-02C), Petition for Post-Certification Amendment: Sewer Interconnection Upgrades

Dear Mr. Douglas,

On behalf of AES Huntington Beach Energy, LLC (Project Owner), please find attached the *Petition for Post-Certification Amendment: Sewer Interconnection Upgrades* for the Huntington Beach Energy Project (HBEP, 12-AFC-02C). This petition for post-certification license amendment (Petition to Amend [PTA]) proposes to reroute process wastewater discharges currently flowing to the Pacific Ocean to the sanitary sewer via a new interconnection with the Orange County Sanitation District (OCSD). Project activities include the following, all of which will occur within the Huntington Beach Generating Station (HBGS) property:

- Construction of a new wastewater force main,
- Construction of a new wastewater pumping station,
- Reroute of an existing stormwater force main,
- Installation of a floating basin cover on an existing basin, and
- Modifications to onsite piping to prevent rainwater ingress into the wastewater system.

No other changes to the HBGS site or the HBEP equipment or operations are proposed.

As demonstrated in this PTA, the proposed project modification will not result in any significant environmental impacts and the project, as modified, will continue to comply with all applicable laws, ordinances, regulations, and standards.

If you have any questions regarding this submittal, please contact me at (562) 743-9905 or ben.morgan@aes.com.

Sincerely,

Ben Morgan
Environmental Manager
