don't override Solano County & Vacaville for CORBY

The local community does not want CORBY. Why are you overriding local decisions? Section 1.8 of your Executive Summary notes SOME local concerns. The potential disaster of a runaway fire adjacent to I-80 would stop traffic on the only East-West highway in Northern California. Local fire departments have stated they are unable to manage, control, or fight such a hazardous fire. This is 1 exit from a huge major hospital and a city of over 100,000 people. Not to mention the damage to active productive agricultural land and wildlife. I commute to my daughter's Vacaville home past this spot 4-5 times weekly and I'm concerned for that familie's safety and my own, living just 15 miles away. In a fire, toxic fumes will certainly spread regionally. There are better battery options than this one. DO NOT SUPPORT CORBY! Thank you.
