Not wanted in Vacaville

See attached.

Additional submitted attachment is included below.

Hello,

Vacaville is a wonderful city and it does not deserve to have safety hazards within the limits. The Moss Landing incident was a warning to the world. If that was to occur in Vacaville it could destroy in a radius of The Outlets, Browns Valley Plaza, hospitals, and communities in between. The worst of all is killing people and animals.

Our city is not only important to its residents, but think of the many people who come to Vacaville to shop and enjoy time with their families. We have one of the best movie theaters. You see cities like Fairfield and Sacramento completely rebuilding their cities for more community engagement. Vacaville has been a desired destination for new families and there are several new home developments. There should be an obligation to protect that and not risk destroying the dreams and lives of so many. If this proposal was too past, I would immediately sell my home and move to a different city.

Vacaville also serves as home to the military due to Travis Airforce Base. A disaster could potentially disrupt that revenue stream as well. There are major corporations in Vacaville. I am sure they don't want potential disasters disrupting their business and operations.

Thanks
