AGAINST BEST

I am a resident of Vacaville, California, and I have witnessed many fires within the past couple months this year alone. Wildlife is surrounding this town and also lives within it. The pollution this plant will cause will destroy so many things that this town is relying on. The last thing we need is a battery plant to cause another wildfire, one we won't be able to contain, and burn the whole town down. I want it to be very clear that I am against this operation.
