

DOCKETED

Docket Number:	24-BSTD-03
Project Title:	2025 Energy Code Compliance Software, Manuals and Forms
TN #:	271749
Document Title:	Approval of Right-Energy Title 24 2025-2-1
Description:	N/A
Filer:	RJ Wichert
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	7/30/2026 2:30:37 PM
Docketed Date:	7/30/2026

**2025 Energy Code,
California Code of Regulations, Title 24,
Parts 1 and 6**

**Docket: 24-BSTD-03
Approval: 26-072726**

**APPROVAL BY THE EXECUTIVE DIRECTOR
UPDATED 2025 ENERGY CODE THIRD-PARTY COMPLIANCE SOFTWARE
RIGHT-ENERGY TITLE 24 2025.2.1**

The Warren-Alquist Act, Public Resources Code sections 25000 et seq., 25402.1(b), requires the California Energy Commission (CEC) to establish a process for certifying calculation methods for demonstrating compliance with the Energy Code, California Code of Regulations, Title 24, Parts 1 and 6.

As allowed by the 2025 Energy Code, California Code of Regulations (CCR), Title 24, Part 1, Chapter 10, Section 10-109(c)3, MiTek Wrightsoft submitted an application on April 22, 2026, requesting the CEC approve “Right-Energy Title 24 2025.2.1” as an Alternative Calculation Method (ACM) to demonstrate performance compliance with the single-family residential newly constructed building requirements of the 2025 Energy Code.

On January 21, 2026, the CEC approved “Right-Energy Title 24 2025.2.0” as an ACM for demonstrating performance compliance with the single-family residential newly constructed building requirements of the 2025 Energy Code.

Right-Energy Title 24 2025.2.1, an update to Right-Energy Title 24 2025.2.0, incorporates the compliance manager from the updated California Building Energy Code Compliance (CBECC) version 2025.2.1 public domain compliance software.

When Right-Energy Title 24 2025.2.0 was approved at the January 21, 2026, CEC Business Meeting, the CEC directed the Executive Director to take all actions reasonably necessary to “make the above-referenced software available and maintain the software in good form, including but not limited to reviewing and approving updates to third-party software consistent with bug fixes, correcting calculation and analytical errors, necessary ongoing software updates, user interface changes, and other minor updates.”

As specified by the 2025 Energy Code, Section 10-109(c)3, ACM applications must meet the requirements of Section 10-116(b) and provide documentation demonstrating that the candidate software meets the requirements, specifications, and criteria specified in Sections 10-109(c)1A, 10-109(c)1B, 10-109(c)1C, 10-109(c)1D and 10-109(c)1E, as appropriate.

CEC staff has reviewed the Right-Energy Title 24 2025.2.1 ACM application submitted by MiTek Wrightsoft, which is available in Docket [24-BSTD-03](#), and determined that it contains the documentation, building energy modeling functionality, and alignment with the current version of the 2025 ACM Reference Manuals that is required by the above sections of the 2025 Energy Code.

The Executive Director hereby approves Right-Energy Title 24 2025.2.1 as a third-party alternative calculation method compliance software for demonstrating performance compliance with the single-family residential newly constructed building requirements of the 2025 Energy Code.

Information for obtaining Right-Energy Title 24 2025.2.1 will be posted on the CEC's [2025 Energy Code Compliance Software webpage](https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2025-energy-code-compliance-software) for approved performance compliance programs at <https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2025-energy-code-compliance-software>.
