Type (Rate or Program)	CPA customers are participating in the Expanded Pilot, otherwise known as the customer-facing name of “Expanded SCE Flexible Pricing Rate Pilot”.
Customer Class	The Expanded Pilot is open to all customer classes. Customers must be on a time-of-use rate to participate.
Brief description, including, but not limited to signal type, participating end uses, and incentive structure	The Expanded SCE Flexible Pricing Rate Pilot is a pilot rate program where a customer remains on their otherwise-applicable tariff (“OAT”) during the customer’s participation in the Expanded Pilot. Participants continue to receive customer bills according to their OAT while also receiving a “shadow” bill that tracks what their bills would have been billed if applying the Expanded Pilot rate. If the shadow bill indicates that the participants bill would have been lower if applying the Expanded Pilot rate instead of the OAT, a bill credit is issued to the participant at the end of each 12-month period. Under the Expanded Pilot, each participant is assigned a “subscription” usage level which is based on their historic usage patterns and billed according to their OAT. The hourly dynamic rate is then applied to any deviation from the subscription, where the participants are charged for any usage above and credited for any usage below the subscription amount. The signal type is hourly electricity prices that change daily. Prices are calculated on a day ahead basis and are available to customers by 6 PM the evening before via the Expanded Pilot webpage and through API. This allows customers or their automated service providers to plan usage. Prices are intended to reflect system conditions and grid needs, encouraging load shifting to lower-cost hours. The participating end uses are focused on flexible controllable load, including but not limited to: • Electric vehicle charging • HVAC systems • Heat pumps

	• Other smart of automated devices capable of scheduled operation

c) Discuss material deviation relative to the approved compliance plan, if any:

i) Summary of the deviation

In CPA's CEC-approved Revised Plan, CPA declared its plan to participate in the Expanded Pilot.⁵ Due to the factor explained in Section (1)(c)(ii) of this report, unbundled customers' participation in the Expanded Pilot began in March of 2026 rather than the estimated date of November 2025, which was stated in CPA's Revised Plan.

Additionally, CPA stated in its Revised Plan that CPA will cap enrollment of CPA customers in the Expanded Pilot at 15% of SCE's Expanded Pilot enrollment target of 50 MW, which is 7.5 MW, proportional to CPA's load share ratio within SCE territory.⁶ CPA then expanded its enrollment cap of SCE's Expanded Pilot to 45 MW as explained in Section (1)(c)(ii).

ii) Reason for the deviation

Unbundled customers' participation in the Expanded Pilot began in March of 2026 rather than the estimated date of November 2025, which was stated in CPA's Revised Plan.⁷ The factor that delayed unbundled customers' enrollment were solely related to SCE's onboarding of a new pilot program administrator and subsequent system upgrades needed to enroll unbundled and bundled customers. These changes to the program caused a deviation from the timeline in CPA's Revised Plan, where customer enrollment would begin in November 2025.⁸ As acknowledged in CPA's Advice Letter 0037-E to the CPUC, SCE's contracting process with a new dynamic pricing and shadow billing provider

was longer than anticipated.⁹ This implementation delay impacted the enrollment of CCA customers in the Expanded Pilot because the previous system was not equipped to handle both bundled and unbundled customers. Since July 2025, CPA and SCE have worked collaboratively to enroll CCA customers into the Expanded Pilot.

Additionally, CPA customers in the Expanded Pilot were capped at 15% of SCE's Expanded Pilot enrollment target of 50 MW, which is 7.5 MW, proportional to CPA's load share ratio within SCE territory.¹⁰ CPA then expanded its enrollment cap of SCE's Expanded Pilot to 45 MW. Given the expectation that a small number of large-load customers would quickly use up the 7.5 MW and CPA's desire to provide access to the Pilot to a diverse customer base, CPA has expanded its enrollment cap to 45 MW, the greatest capacity CPA can accommodate given the financial risk to CPA.

ii) Projected impact of such deviation on compliance of the LMS regulations

CPA customers began enrollment in March 2026 for the Expanded Pilot rather than the planned date of November 2025 in its Revised Plan which is a deviation from CPA's Revised Compliance Plan. However, CPA does not anticipate material impacts other than the delay as described in Section (1)(c)(ii)-(iii).

CPA is aware that SCE has formally requested an extension in its Application of Southern California Edison Company (U 338-E) for Approval of Large Power Dynamic Pricing Rate A.24-06-014 (Consolidated with A. 24-12-008) to extend the Expanded Pilot until 2030, including a proposal to expand CCA incentives.¹¹ In the case that the extension and expanded CCA incentives are approved, CPA may request approval from its Board to extend CPA and its customers' participation in the Expanded Pilot until 2030.

⁹ Advice Letter CPA 0037-E, "The modified implementation plan explained that SCE's contracting process with a new dynamic pricing and shadow billing provider was longer than anticipated. SCE also explained that significant incremental costs and administrative efforts were required for its existing vendor to continue to provide dynamic pricing and shadow billing during the gap between the end of the contract of its existing vendor and when the new vendor would be operational for the Expanded Pilot." p.3

CPA expanded its original enrollment cap in the Expanded Pilot so that more of its customers can participate in the Expanded Pilot. This expansion will provide CPA with additional data across more customer classes to evaluate the cost-effectiveness, equity, technological feasibility, benefits to the grid, and benefits to customers of marginal cost-based rates for each customer class, as required by the California Code of Regulations, Title 20, Section 1623.1(a)(1)(A).¹²

2) Time-varying rate submission to MIDAS Confirm that time-varying rates are being uploaded to the Market Informed Demand Automation Server (MIDAS) per approved compliance plan.

a) Provide a list of Rate Identification numbers (RINs) and the following key details:

i) Applicable tariffs and rate modifiers

All CPA time-varying rates are being uploaded to MIDAS. CPA rate schedules do not include any applicable rate modifiers. See Attachment A for CPA's list of RINs.

ii) Customer class

CPA's time-varying rates for all customer classes are being uploaded to MIDAS. See Attachment A for CPA's list of RINs.

b) Rate Modifier Exclusion: if your approved compliance plan includes a plan to exclude certain non-time-dependent modifiers, provide information to demonstrate that:

Not applicable.

i) Each modifier excluded represents less than 0.5% of the total number of customers served by the utility AND less than 0.5% of total annual load as sales, or

¹² LMS Regulations Section 1623.1(a)(1)(A), the plan must evaluate cost-effectiveness, equity, technological feasibility, benefits to the grid, and benefits to customers of marginal cost-based rates for each customer class

Not applicable.

ii) Each modifier excluded is less than 0.01 \$/kWh for additive modifiers OR 2% for ratio modifiers.

Not applicable.

3) RIN(s) on customer billing statements

CPA confirms that both SCE and CPA RINs are available and placed on customer billing statements for unbundled customers. CPA contracts with a third-party provider, Calpine Solutions, for data management and billing services and coordinates with SCE to comply with LMS requirements for RINs. CPA has limited input on the design and placement of RINs on the customer billing statements since those are controlled and printed by SCE. See Attachment B for a sample bill.

4) Address compliance with any conditions in the order approving the regulated entity's compliance plan.

CPA is in compliance with California Code of Regulations, Title 20, Section 1623.1(a)(3)(C) through its submission of this report. As stated in CPA's Revised Plan, CPA proposes to meet the requirements of the LMS Regulations by participating in SCE's Expanded Pilot until December 31, 2027.¹³ If SCE's proposal for extension for the Expanded Pilot in A.24-06-014 is approved by the CPUC, CPA will explore extending its participation in the Expanded Pilot, with the final decision subject to its Board's approval.

Past due bills

When is my bill past due? It is past due 20 days after the preparation date, which was 06/22/26.

- Unable to pay: If payment arrangements were not extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission.
- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit www.sce.com/safety or call SCE at 1-800-655-4555.

What is the Late Payment Charge (LPC)?

0.8% will be applied to the total unpaid balance if payment is not received by the due date on this bill (except for CARE and state agency accounts).

What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit www.sce.com/rotating outage.

What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

To avoid having service turned off while waiting for the outcome of a complaint to the CPUC regarding the accuracy of your bill, contact CAB for assistance. If your case meets the eligibility criteria, CAB will instruct you on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is reviewed to keep your service turned on.

Correction for Over Collected Franchise Fees

Customers who were impacted by the over collection of franchise fees from 2022, pursuant to California Public Utilities Commission Decision 26-01-003, are receiving a one-time refund.

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

Stay in Control

If you're behind on payments, enrolled in a payment plan, or facing disconnection, we offer options and energy management solutions to help you stay in control of your bill and costs. Learn more at www.sce.com/billsupport.
