Docket number 24-OIR-03 - Energy Data Collection - Phase 3

Commissioners re: Docket 24-OIR-03,

We do not need another tracking system to monitor. 1st of all who is going to do it?? Second, we presently have a very convoluted permit system. This will keep track of the equipment as we have to enter it in CHEERS. The problem is no two cities have the same permitting system. We need to have a State wide template, so all permitting agency's use the same forms, on line and counter forms and the same codes. Now you would get more contractors to participate. Curt Yaeger
