Docket number 24-OIR-03 - Energy Data Collection - Phase 3

Commissioners re: Docket 24-OIR-03,

I am a California based, small business owner in the town of Belmont. We install custom HVAC systems in custom homes around the San Francisco Bay area for small general contractors and homeowners. This proposal will create an added burden as it will require additional resources. Over the years there have been many new requirements that have driven the cost of typical installations up thousands of dollars. This is another example of a cost California consumers will need to consume as small and large HVAC companies try to stay compliant. Matt McMichael
