Docket number 24-OIR-03 - Energy Data Collection - Phase 3

Commissioners re: Docket 24-OIR-03,

I am a CA-based contractor in [Fresno], and this would add burden and cost to an already heavily regulated and expensive industry to do business. Any added cost of distributors is reflected in pricing that we would have to pay making doing things the right way more expensive for the end user. Many regulations are intended to add value but push consumers to lower quality contractors that don't do things like buy quality equipment, parts and employ trained people. Randy Chambers
