Commissioners re: Docket 24-OIR-03,

Docket Number 24-OIR-03 Energy Data Collection, would be especially impactful to renters in California. I own and manager over 350 multi and single family rentals in Madera and Fresno California. We are working hard to keep our expenses low for our tenants as they are already financially strapped with the current state of the economy and inflation in the state. To enact this, would add expense to each rental by requiring even more red tape and regulation in order to repair or replace existing equipment in-house. The renter will ultimately be the one paying for this change. Phillip Pistoresi
