No BESS facility in Watsonville

As a longtime resident of Santa Cruz County, I ask you to keep our farmland, creek, and Pinto Lake area clean and beautiful. A BESS facility on Minto Rd would destroy and endanger the soils, waters, and people living in and near surrounding areas. We need a network of small, modular systems for energy storage to provide for local energy storage and internet usage all over California---not huge dangerous monstrosities like what is proposed. These modular systems in shipping containers exist and need to be deployed. Thank you.
