SUMMARY OF POST CERTIFICATION PETITION PETITION FOR POST CERTIFICATION CHANGE HUNTINGTON BEACH ENERGY PROJECT (12-AFC-02C)

On July 22, 2026, the AES Huntington Beach Energy, LLC filed a Post-Certification Petition for Changes in Project Design, Operation or Performance and Amendments to the Commission Decision (Petition) ([TN#271586](#)) with the California Energy Commission (CEC) for the Huntington Beach Energy Project (HBEP) pursuant to California Code of Regulations, title 20, section 1769.

The HBEP, a 640-megawatt (MW) combined-cycle, natural gas facility was certified by the CEC in May 2017 and began commercial operation in June 2020. The facility is located at 21730 Newland Street, Huntington Beach, in Orange County.

SUMMARY OF PROPOSED CHANGES

The project owner seeks approval to reroute the existing process wastewater discharges that currently flow into the Pacific Ocean and redirect them to the sanitary sewer through a new interconnection with the Orange County Sanitation District (OCSD). Project activities include the following, all of which will occur within the Huntington Beach Generating Station (HBGS) property:

- Construction of a new wastewater force main and wastewater pumping station,
- Reroute of an existing stormwater main,
- Installation of a floating basin cover on an existing basin, and
- Modifications to onsite piping to prevent rainwater ingress into the wastewater system.

For additional information, please visit the [CEC's project webpage](#). Accessible on the webpage is a link to the petition labeled "Compliance Proceeding"; select the "[Docket Log \(12-AFC-02C\)](#)" option to view.

REVIEW PROCESS

This petition is reviewed pursuant to California Code of Regulations, title 20, section 1769. The review process includes an evaluation of the effect the change could have on the environment; the project's compliance with applicable laws, ordinances, regulations, or standards; and whether a change to, or deletion of

any condition of certification adopted by the CEC in the final decision or subsequent amendments is required.

After staff completes an independent review and analysis of this petition, the assessment will be published for public review and comment. Included in the staff analysis will be written notice of staff's intent to either process the proposed changes as a staff-approved project change or schedule it for consideration by the CEC at a regularly scheduled business meeting.

PUBLIC PARTICIPATION

This summary of the post certification petition is being mailed to the following persons on the CEC's mailing list for the project: interested agencies, members of the public, property owners who requested placement on the mailing list, and property owners within 500 feet of linear features (for example, pipeline) and within 1,000 feet of the facility. The notice is also being sent electronically using the HBEP electronic subscription service. The electronic subscription service is an automated CEC system by which information about this facility is emailed to parties who have subscribed. To subscribe, go to the [CEC's project webpage](#), cited above, scroll down the right side of the project webpage to the box labeled "Subscribe," and provide the requested contact information.

Any person may comment on the petition or the staff analysis when publicly available. The CEC encourages use of its electronic commenting system. To use the CEC's electronic commenting feature, go to the [CEC's project webpage](#), cited above, click on the "[Submit e-Comment](#)" link, and follow the instructions in the online form. Be sure to include the facility name in your comments.

Written comments, attachments, and associated contact information (for example, address, phone number, email address) become part of the viewable public record. This information may also become available via any internet search engine.

Written comments may also be mailed to:
