Opposition to Corby BESS

Dear Commission,

I am writing, once again, to express our family's opposition to the development of a BESS Storage system within such close proximity to Vacaville (hospital, agriculture, residential neighborhoods, and a major interstate freeway).

Frequent fires in these BESS facilities are widely documented, and the long-term environmental and health effects are still being investigated with rising concerns for toxicity to humans via air and soil pollution.

I can't even imagine the problems created if the complete I-80 highway was shut down for multiple days!

Please be brave and tell the Corby BESS people this is not a good project for their proposed east Vacaville location! It offers a huge risk to people who live within the area, their property values, transportation arteries, the environment, nearby hospitals, and local residents' quality of life

Sincerely,

Mary Reed
