NO to BESS

As a long time resident of the city of Vacaville, I emphatically do not want the BESS project to proceed in our community. There are several issues which have lead me to this decision:

Noise pollution

Safety risks such as fire hazards and toxic gas emissions

Property devaluation due to visual presence, noise impact, and potential buyer perception

Loss of farmland in our agricultural county

Long term effect on local ecosystems and agricultural productivity.

For all of these reasons, and more, I believe this will be a negative addition to our community. Please do not allow this project to move forward.

Thank you,

Amy McElwain
