

DOCKETED

Docket Number:	15-AAER-01
Project Title:	Appliance Efficiency Rulemaking for Toilets, Urinals, Faucets, HVAC Air Filters, Fluorescent Dimming Ballasts, and Heat Pump Water Chilling Packages
TN #:	203746
Document Title:	2015 Notice of Intent to Adopt Negative Declaration & Environmental Document Transmittal
Description:	Proposed Negative Declaration
Filer:	Harinder Singh
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	2/27/2015 11:39:28 AM
Docketed Date:	2/27/2015

Form A**Notice of Intent to Adopt a Negative Declaration & Environmental Document Transmittal**

State Clearinghouse, PO Box 3044, Sacramento, CA 95812-3044 916/445-0613

Project Title: Toilets, urinals, faucets, HVAC air filters, florescent deep dimming ballast, and heat pump water chilling packages.

Lead Agency: California Energy Commission, 1516 Ninth Street, Sacramento, California 95814

Commission Contact:

Ken Rider, CEQA Project Contact,

Project Location: Statewide

Document Type: Initial Study/Proposed Negative Declaration

Local Action Type: The Energy Commission's mandate is to promote energy efficiency through a variety of means, including efficiency standards for appliances based on the provisions in Public Resources Code Section 25402.

In the rulemaking proceedings, the Commission is proposing to adopt new and revised efficiency standards for toilets, urinals, faucets, HVAC air filters, fluorescent deep dimming ballast, and heat pump water chilling packages. The Commission is proposing changes to the appliance efficiency standards as an action to support its mandate.

The California Environmental Quality Act (CEQA), Public Resources Code Sections 21000 et seq.) requires public agencies to identify and consider the potential environmental effects of their "projects," as that term is defined, and when feasible to mitigate any related adverse environmental consequences. The proposed adoption of regulations is a considered project under CEQA, as it is a discretionary action which has a potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment. Therefore, the Commission prepared an Initial Study to assess the potential significant effects of the proposed regulations on the environment and determined that there is no substantial evidence that the project may cause a significant adverse impact on the environment.

Development Type: The proposed standards require toilets, urinals, faucets, HVAC air filters, florescent deep dimming ballast, and heat pump water chilling packages to reduce water, natural gas, and electricity demand throughout the state.

Funding: N/A

Project Issues Discussed in Document: Air Quality, Water, and Energy, Cumulative Effects and Mandatory Findings of Significance

Present Land Use/Zoning/General Plan Designation: The Commission's mandate includes (Public Resources Code section 25402) promoting energy efficiency through cost effective, feasible standards in product design. The standards include provisions intended to reduce statewide water and energy use. Content of the standards includes mandatory minimum efficiency levels, certification, labeling, as well as general provisions on the scope of the regulations and definitions.

Project Description: The project encompasses amendments to state appliance efficiency regulations that establish levels of efficiency and operating requirements for newly manufactured toilets, urinals, faucets, HVAC air filters, fluorescent deep dimming ballast, and heat pump water chilling packages sold in the state. This project is available at the Commission's website at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=15-AAER-01>.

Schedule: Comments should be submitted by March 30, 2015, by 4:00 p.m.

Public Review Period:

Starting Date: February 27, 2015

Ending Date: March 30, 2015

Documents:

All relevant documents are available at:

<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=15-AAER-01>.

Public Meetings and Adoption:

A Hearing to discuss the content of the standard amendments and the finding of the initial study will occur on:

March 17, 2015, 10:00 a.m.
California Energy Commission
1516 9th Street
Sacramento, CA 95814

An adoption hearing by the full Commission will be held on:

May 13, 2015, 10:00 a.m.
California Energy Commission
1516 9th Street
Sacramento, CA 95814
(916) 654-5006

Ken Rider
