Subject:

Mr. Commins:

It has been brought to our attention that two programs have submitted applications to the CEC for approval to become Lighting Controls ATTCPs. We are looking forward to this much needed certification for workers to be able to provide the level of energy efficiency that is much needed in this State. We understand one program is objecting to an alternative program for numerous reasons outlined in the comment letters submitted on your website. We encourage you to consider the applications of both programs equally and to adopt standards of fairness and competition for each application.

Thank you for your consideration of this request.

Please contact me for additional information or with any questions you may have.
