- There is broad support for standards for replacement pool pump motors among stakeholders involved in the DOE-led negotiation for pool pumps
- Standards for replacement pool pump motors offer large potential energy and economic savings
- Standards for replacement pool pump motors will help protect the very large savings from the DOE standards for pool pumps
- Aligning standards for replacement motors with the DOE standards for pool pumps makes good sense
- CEC standards for replacement pool pump motors could provide a model for other states and for potential national standards
