Subject: **Memo to Suspend the Replacement Pool Pump Motor Pre-Rulemaking Proceeding**

The California Energy Commission is suspending pre-rulemaking activities on the replacement pool pump motor topic to enter into negotiations with the pool pump motor industry and energy advocates. The goal of the negotiations is to provide the U.S. Department of Energy (DOE) with a recommendation for a national test procedure and efficiency standard for pool pump motors that will complement the recently completed DOE dedicated purpose pool pump rule.

The Energy Commission may resume the replacement pool pump motor proceeding if the negotiation does not result in a DOE pool pump motor standard.

The record developed in 15-AAER-02 will be available for the Energy Commission's and parties' reference in potential future proceedings.
