Commissioners re: Docket 24-OIR-03,

Hello I am a Contractor in San Diego, CA. This sounds like it is going to be a giant mess and is an excuse to harvest more personal information from individuals. The HARDI system sounds like it can use aggregated data that won't violate our confidential business information we keep for our customers. A better Idea might be to simplify the entire permitting process to begin with and shorten the timelines for approvals. Eli Crumpton
