Opposed to Corby BESS Project

I am opposed to the Corby BESS project that is being considered for Kilkenny/Byrnes area between Dixon and Vacaville. Many of these battery storages facilities have caught fire and created hazardous air quality and safety issues for those in the surrounding areas. It should be placed at a location that is further away from residential properties. It will decrease the property values of homes in the event of an incident and provides no financial incentive in regards to power generated going supporting Vacaville residents.
