BESS corby

I have lived in Vacaville for 50 years, that means We choose Vacaville to raise our family. Why does the CEC think they can change our vote on the BESS site after the community VOTED! We are well aware of the dangers of these sites ,we had many to look at that already had toxic fires such as Moss landing.j We had our city board behind our vote, we had our first responders behind our vote, They should know if it was safe for the proposed site!!! How dare you think you can redo this vote in favor of the big business behind this proposal. What happened to the VOTE of the PEOPLE, The tax payers, remember us. Some us helped vote these boards. Please just answer the one question what gives you the right to ignore our vote? We. have the richest ag land considered 4 season soil in Solano County.To valuable to put in harms way, You have sold us out it looks like to me.
