Corby Bess Lithium Battery in Vacaville, CA

Please do not allow this battery storage in Vacaville.

My 2 brother-in-laws worked on the construction of the Moss Landing Power Plant years ago. People such as them should have been consulted before adding the lithium battery storage or plant next to it. Did this company consult with such people before adding this battery storage next to Moss Landing? Or this Vacaville location? Did anyone offer precautions to the risks as noted at Moss Landing?

Is this battery storage in any way associated with the CA Forever City? Maybe they can do this project on their hundreds of acres.
