Vacaville Ordinance on Battery Storage

I am not opposed to battery storage projects being located in and near our community, but Vacaville has spent a lot of time and resources researching this topic and developing an ordinance that will keep our residents and businesses safe. It is important that the state authorities recognize the local ordinances we have in place. This project should either upgrade its technology to be compliant with the Vacaville ordinance or change its location to be in an area that can accommodate the technology it intends to use. Please ensure the Vacaville ordinance is respected in this process. Thank you!
