Subject: Equitable Building Decarbonization Tribal Direct Install Program Solicitation Released

On September 4, 2026, the California Energy Commission (CEC) released a grant funding opportunity for California Native American tribes to participate in the Equitable Building Decarbonization (EBD) Tribal Direct Install Program. The deadline to submit applications is February 19, 2027. The grant funding opportunity is available at: <https://www.energy.ca.gov/solicitations/2026-09/gfo-26-401-equitable-building-decarbonization-tribal-direct-install-program>

As noticed in the EBD Tribal Direct Install solicitation manual, the CEC will be holding a virtual Pre-Application Workshop on October 7, 2026, from 10 a.m. to 12 p.m. This workshop will provide an overview of the grant funding opportunity, application submission instructions, and responses to questions. Participation in this meeting is optional for applicants but highly encouraged.

Please see CEC Event Page for Zoom link and other information:
