Concern with Proposed Battery Storage Facility

As a new resident of Vacaville, I am very concerned with the proposed development that would be very close to a major Kaiser hospital and residential homes in Vacaville. If this is built and a fire were to occur at a battery facility, residents would need to be evacuated as well as the hospital patients. It is a major undertaking to transfer patients from a hospital. I am a former hospital worker on an inpatient unit and know the immense effort involved. I do not believe this is a safe location for this facility to be built. From what I am reading, this will not even benefit Vacaville (San Francisco instead). The residents of San Francisco should bear the risks, not Vacaville residents. Thank you for your time.
