Corby Project Opposition Inquiry Letter

Additional submitted attachment is included below.

Energy Commission California

We have a business boarding horses and have had for 24 years. We normally have 32 to 40 horses on site. We have grave concerns regarding contamination of water and soils and how it will affect our business. If there is damage, how will we be compensated? How will our boarders be compensated? How will those living on site be compensated? We also lease acreage to a grower, if the soil and water are polluted how will we be compensated? We are retired and have health issues and do not need this stress.

Respectfully,

Harold and Gail Strange
