Not for Solano Donâ€™t put in solano

This facility is not for and should not be placed in Solano county. The state should use our tax dollars to make things that are environmentally sound. This is not. It is a danger to the health and safety of my community and the use of my tax dollars to violate the land use protocols that are established is ridiculous. There is fire risk in a place with fire danger. There is environmental impact and you will never be able to safely decommission lithium batteries. The threat to the environment is greater than fossil fuels. The state of California needs to stop and protect the taxpayers rights to decide what and how our money is spent especially in our own communities!!! PLEASE DO NOT PLACE THIS FACILITY ON OUR FARMLAND!!!
