**Correction to the Schedule Change for the Prairie Song
Reliability Project (25-OPT-02)**

Dear Garrett Lehman:

On August 18, 2026, the Prairie Song Reliability Project, LLC (applicant) filed a schedule extension request (TN 272028). On August 28, 2026, California Energy Commission (CEC) staff accepted the schedule extension request (TN 272239).

CEC staff's acceptance letter includes a date in the revised timeline that does not provide CEC's typical spacing between release of the staff assessment and the final CEC vote. The correct deadline for the CEC to vote on whether to certify the environmental impact report or issue a certificate for the Prairie Song Reliability Project is February 24, 2027. All other aspects of the schedule extension acceptance letter remain unchanged.

If you have any questions about this correction, please contact Eric Knight, Siting and Environmental Branch Manager, at eric.knight@energy.ca.gov.

Garrett Lehman
