Oppose Seahawk Enerergy Storage project

09.18.26 The Seahawk Energy Storage System proposed project in Watsonville is a terrible idea. As we saw today in Moss Landing, fire accidents and flare ups can and do happen. The toxicity of a given event (to human, plant and wildlife) is not well enough studied and understood to protect local schools, residential areas and agricultural products. The Seahawk location is shortsighted and the application should be strenuously opposed
