Please! No Battery Storage Facility in Watsonville

We have just finished experiencing the traffic, smoke, and noxious burn fumes of another battery storage fire at Moss Landing, which happened a few days ago. Please reconsider allowing yet another storage facility to go in on Minto Rd in Watsonville. Watsonville has, and is continuously growing in population- as is ALL of our small county, and a fire or other accident in such an area will affect many people adversely. We are already a high- impact area due to population, and putting a battery storage facility there is not safe for public health. Even in Santa Cruz we could smell the smoke from the Moss Landing fire. It affected thousands of people around it that day. Thank you.
