No on Seahawk battery energy storage facility

Hello,

Iâ€™m writing to express strong pessimism to the proposed battery storage facility. Please thoroughly review all fault mitigation steps that are to be taken by the facility operator before it can be approved. I have have lost trust in these corporations after seeing multiple fires at the moss landing battery storage facility.

This could drastically affect our health and well being and destroy the local economy and quality of life. If enhanced safety mechanisms are not put in place.
