Neighboring county

I live in N Monterey Co & lived the effects of the Vistra fire. Multiple times now. I can see the proposed site in Watsonville from my property. With the prevailing winds usually blowing in from the bay we would also be affected by this development. It is a logistical issue for multiple counties. Not to mention the immediate impact on the folks who live and work in the surrounding areas.

Totally unfit for this area. Unsafe, unpredictable, unwanted. Our local fire departments would be overwhelmed.
