Stop BESS in Minto Rd Watsonville,Ca

I live in the area where the lithium batteries are planned to be built, in the neighborhood of Mesa Verde, just a few miles from Minto Rd. My concern is earthquakes and the damage that can occur. Did you know there was a 3.0 earthquake â€œthat hit directly adjacent to Minto Road on July 17, 2026 at 12:52 AM local time?â€□ It wasâ€□3 miles east-southeast of Interlaken right along the shores of College Lake near 90 Minto Road.â€□ Becky Steinbruner has reported this to you and I am also concerned of the damage an earthquake can provoke if this facility will be allowed to be built. Also at my daughterâ€™s house we noticed cracks on her side walk that lead into her house recently. It was alarming, we live on unstable land. Stop BESS!!!
