## No BESS in Watsonville!

Please stop the BESS development at Minto Road. I have many concerns about this project: safety, noise pollution, escape routes, ecological impact and the injustice of placing this project in an area where affluent people are absent (in other words, targeting a community not as well equipped to fight back!). It is also concerning that the developer has already failed to comply with regulatory guidelines. Would you like to live right next door to one of these facilities? You know the answer.
