Subject: **Phase I Environmental Site Assessment**
Brokaw
326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road
San Jose, California 95131
Partner Project No. 25-511822.2

Dear Brett Richer,

Partner Engineering and Science, Inc. (Partner) is pleased to provide this Phase I Environmental Site Assessment (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and Client Agreement.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate your trust in Partner and the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (818) 337-1203.

Sincerely,

Misty Ponce
Principal

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Practice E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and as set forth by the Master Services Agreement between Prologis and Partner dated April 18, 2013, for the property located at 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, Santa Clara County, California (the "subject property"). The Phase I Environmental Site Assessment is designed to provide Prologis with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

Property Description

The subject property is located on the northeast side of Zanker Road between Charcot Avenue to the north and East Brokaw Road to the south within a commercial and industrial area of Santa Clara County, California. Please refer to the table below for a further description of the subject property:

SUBJECT PROPERTY DATA

Address(es):	326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road, San Jose, California
Additional Current Address(es):	None Identified
Historical Address(es):	None Identified
Property Use:	Industrial
Land Acreage (Ac):	25.449 Ac (combined)
Number of Buildings:	Eight
Number of Floors:	One with mezzanine storage areas
Gross Building Area (SF):	Not provided
Net Rentable Area (SF):	Not provided
Date of Construction:	1976-1977
Parcel Number:	237-29-029-01; 237-29-030-01; and 237-29-031-11
Type of Construction:	Concrete tilt-up/concrete slab
Current Tenants:	There are approximately 34 tenant units (a rent roll was not provided to confirm tenants or number of rental spaces). Based on site observations, the following tenants were observed, which may not include all possible tenants: Good Friend Supply Kitchen & Bath (309 East Brokaw), ITronix (321 East Brokaw), Pro Stainless (333 East Brokaw), Home Expo & Design (345 East Brokaw), Access (387-391 East Brokaw and 2030-2054 Zanker), Porcelanosa (391A East Brokaw and 2110 Zanker), Gooder (391B East Brokaw), Lockheed Martin (326 Charcot), Electrical Products Control (346 Charcot),

	UniFirst (2016 Zanker), Optimas (2070 Zanker), One up Sales & Marketing (2076 and 2078 Zanker), Big D Flooring (2082 Zanker), Future Motion (2086 Zanker), Bisco (2118 Zanker), Shop N Save Diamond Tools (2120 Zanker), Craters and Freighters (2122 and 2124 Zanker), Baker Distributing (2138 Zanker), TKE (2140 Zanker), Shindy Products (2144 Zanker), OKI Graphics (2148 Zanker), EM Solutions (2152 Zanker), Macnica (2156 Zanker)
Site Assessment Performed By:	Christopher M Olsen of Partner
Site Assessment Conducted On:	August 20, 2025
Regulatory Radius Report Date:	August 11, 2025
Lien Search Date:	N/A
Report Date:	September 8, 2025
FOIAs Date:	August 2025
Groundwater Flow Direction (Inferred):	Northwest
Estimated Depth to Groundwater (Feet bgs):	6 to 11

The subject property is currently occupied by approximately 34 tenant units within eight buildings (a rent roll was not provided to confirm tenants or number of rental spaces). Onsite operations consist of general office and warehouse, distribution, cabinet making, contractors, printed circuit board assembly, print shop, workshops and routine facility maintenance activities. In addition to the current structures, the subject property is improved with asphalt-paved parking areas and driveways, concrete-paved loading docks, associated landscaping, drainage features, perimeter fencing, and dumpster and equipment enclosures.

The buildings have been occupied by various small businesses including manufacturing activities dating back to 1976 that involved the use/storage of various hazardous substances. This assessment did not identify evidence of prior hazardous substance spill/release incidents, underground storage tanks (USTs) or other subsurface equipment in the buildings such as clarifiers or wastewater collection sumps. In addition, the available regulatory agency records did not identify any records of USTs, prior spill/release incidents or significant violations associated with hazardous material storage and waste generation. Based on this information, the current and former onsite operations appear to present a low risk for subsurface contamination.

According to available historical sources, the subject property was formerly unimproved land and/or agricultural land with a roadway and one structure from at least 1889 to 1899; agricultural land with agricultural-related dwellings, sheds and barns from circa 1939 to 1974; and developed with the existing multi-tenant industrial buildings in 1976-1977 to the present. Tenants on the subject property have included multiple small businesses dating back to 1976-77 including various contractors, distributors, manufacturers, print shops, cabinet shop, and other light industrial tenants. Refer to Section 4.1 and 4.2.2 for regulatory discussion of past and/or present tenants.

The adjoining properties are tabulated below:

ADJOINING PROPERTIES

Direction	Land Use/Occupant
Northeast:	Railroad line, followed by Jumbo Banners (401 Charcot Avenue), Hill Brothers Chemical (410 Charcot Avenue), multi-tenant office buildings (2051 and 2055 Junction Avenue), Critchfield Mechanical (1901 Junction Avenue) and Brokaw Self-Storage (445 East Brokaw Road)
Southeast:	East Brokaw Road, followed by Universal Semiconductor (1925 Zanker Road), multi-tenant office building (1980 Zanker Road), Cal Steam (400 East Brokaw Road), GC Fasteners (434 East Brokaw Road) and Advanced Cabinets & Flooring (460 East Brokaw Road)
Southwest:	Zanker Road, followed by a multi-tenant commercial building (271-291 East Brokaw Road), A-Laser (2047 Zanker Road), multi-tenant commercial building (2075 and 2085 Zanker Road), Innovion and Guavus (2121 and 2125 Zanker Road) and multi-tenant commercial building (2191-2199 Zanker Road)
Northwest:	Charcot Avenue, followed by a multi-tenant commercial building (235 and 245 Charcot Avenue), multi-tenant industrial warehouse buildings (2200, 2250 and 2300 Zanker Road) and Jumbo Banners (401 Charcot Avenue)

Findings and Opinions

Recognized Environmental Condition

A recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- Partner did not identify RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A controlled recognized environmental condition (CREC) refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify HRECs during the course of this assessment.

Business Environmental Risk

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice.

- Partner did not identify BERs during the course of this assessment.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, Santa Clara County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of RECs, CRECs, HRECs, or BERs in connection with the subject property. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Practice E1527-21 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and as set forth by the Master Services Agreement between Prologis and Partner dated April 18, 2013, for the property located at 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, Santa Clara County, California (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-21) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the User to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "landowner liability protections," or "LLPs"). ASTM Standard E1527-21 constitutes "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with and to the extent necessary to achieve the goal of the requirements set forth in the ASTM Standard E1527-21. This assessment included: 1) a property and adjoining site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments to obtain readily ascertainable information to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched readily available information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-21, AULs include both legal (that is, institutional) and physical (that is, engineering) controls that may include legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, or surface water on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be

exposed to hazardous substances and petroleum products in the soil, soil vapor, groundwater, and/or surface water on a property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the compliance and safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

Prologis, engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope, and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Prologis, L.P., and its subsidiaries, affiliates, related parties (specifically including any 1031 exchange entities), successors and assigns (“Prologis”). Either verbally or in writing, third parties may come into possession of this report or all or part of the in-formation generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys’ fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

This report has been completed under specific Terms and Conditions relating to scope, relying parties, limitations of liability, indemnification, dispute resolution, and other factors relevant to any reliance on this report. Any parties relying on this report do so having accepted the Terms and Conditions for which this report was completed.

1.5 Limiting Conditions

The findings and conclusions contain all the limitations inherent in these methodologies that are referred to in ASTM Practice E1527-21.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources, this data gap is not expected to alter the findings of this assessment.
- Partner was unable to determine the property use at 5-year intervals. Partner reviewed all standard historical sources and conducted appropriate interviews. This data gap is not expected to alter the findings of this assessment.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property at 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, California is located on the northeast side of Zanker Road between Charcot Avenue to the north and East Brokaw Road to the south. According to the Santa Clara County Assessor, the subject property is legally described as Assessor Parcel Numbers 237-29-029, 237-29-030 and 237-29-031. According to reviewed information, ownership is currently vested in AMB Property LP since 1997.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property is currently occupied by approximately 34 tenant units (a rent roll was not provided to confirm tenants or number of rental spaces). Based on site observations, the following tenants were observed, which may not include all possible tenants: Good Friend Supply Kitchen & Bath (309 East Brokaw), ITronix (321 East Brokaw), Pro Stainless (333 East Brokaw), Home Expo & Design (345 East Brokaw), Access (387-391 East Brokaw and 2030-2054 Zanker), Porcelanosa (391A East Brokaw and 2110 Zanker), Gooder (391B East Brokaw), Lockheed Martin (326 Charcot), Electrical Products Control (346 Charcot), UniFirst (2016 Zanker), Optimas (2070 Zanker), One up Sales & Marketing (2076 and 2078 Zanker), Big D Flooring (2082 Zanker), Future Motion (2086 Zanker), Bisco (2118 Zanker), Shop N Save Diamond Tools (2120 Zanker), Craters and Freighters (2122 and 2124 Zanker), Baker Distributing (2138 Zanker), TKE (2140 Zanker), Shindy Products (2144 Zanker), OKI Graphics (2148 Zanker), EM Solutions (2152 Zanker), Macnica (2156 Zanker). Onsite operations consist of general office and warehouse, distribution, cabinet making, contractors, printed circuit board assembly, print shop, workshops and routine facility maintenance activities.

The subject property consists of eight, single-story, multi-tenant light industrial buildings with mezzanine storage areas with a total of approximately 34 tenant units located centrally on the property. In addition to the current structures, the subject property is improved with asphalt-paved parking areas and driveways, concrete-paved loading docks, associated landscaping, drainage features, perimeter fencing, and dumpster and equipment enclosures.

The subject property is designated LI(PD) for Light Industrial Planned Development and A(PD) for Agricultural Planned Development by the City of San Jose.

2.3 Current Use of Adjoining Properties

The subject property is located within a commercial and industrial area of Santa Clara County, California. During the vicinity reconnaissance, Partner observed the land uses on adjoining properties as defined in ASTM Practice E1527-21 as any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them. The adjoining properties are tabulated below:

ADJOINING PROPERTIES

Direction	Land Use/Occupant

ADJOINING PROPERTIES

Northeast:	Railroad line, followed by Jumbo Banners (401 Charcot Avenue), Hill Brothers Chemical (410 Charcot Avenue), multi-tenant office buildings (2051 and 2055 Junction Avenue), Critchfield Mechanical (1901 Junction Avenue) and Brokaw Self-Storage (445 East Brokaw Road)
Southeast:	East Brokaw Road, followed by Universal Semiconductor (1925 Zanker Road), multi-tenant office building (1980 Zanker Road), Cal Steam (400 East Brokaw Road), GC Fasteners (434 East Brokaw Road) and Advanced Cabinets & Flooring (460 East Brokaw Road)
Southwest:	Zanker Road, followed by a multi-tenant commercial building (271-291 East Brokaw Road), A-Laser (2047 Zanker Road), multi-tenant commercial building (2075 and 2085 Zanker Road), Innovion and Guavus (2121 and 2125 Zanker Road) and multi-tenant commercial building (2191-2199 Zanker Road)
Northwest:	Charcot Avenue, followed by a multi-tenant commercial building (235 and 245 Charcot Avenue), multi-tenant industrial warehouse buildings (2200, 2250 and 2300 Zanker Road) and Jumbo Banners (401 Charcot Avenue)

2.4 Physical Setting Sources

2.4.1 Topography

TOPOGRAPHIC DATA SUMMARY

Quadrangle Year:	2021
Quadrangle Name:	Milpitas, California
Source:	USGS 7.5 Minute Topographic Map
Elevation (Feet):	40
Slope Direction:	Northwest
Slope Degree:	Gentle

A copy of the most recent topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

While under natural and undisturbed conditions shallow groundwater flow most frequently follows the topography of the land surface, natural or man-made features can affect flow direction, and the presumed flow may not match the actual flow directions at the subject property and vicinity.

HYDROLOGY DATA SUMMARY

Groundwater Flow Direction:	Northwest
Groundwater Flow Source:	A previous subsurface investigation conducted on a nearby property and topographic map interpretation
Estimated Depth to Groundwater (Feet bgs):	6 to 11

HYDROLOGY DATA SUMMARY

Estimated Depth Source:	A previous subsurface investigation conducted on a nearby property
Closest Body of Surface Water Name:	Coyote Creek
Closest Body of Surface Water Distance (Miles):	0.36 mile
Closest Body of Surface Water Direction:	Northeast at its nearest point
Water System Operator:	San Jose Water Company
Shallow Groundwater Use:	Beneficial Uses: Agricultural Supply, Industrial Process Supply, Industrial Service Supply, Municipal and Domestic Supply
Source of Drinking Water:	Blend of Hetch Hetchy water (located in the Sierra Nevada Mountains) and treated water from the San Francisco Public Utilities Commission (SFPUC)

2.4.3 Geology/Soils

GEOLOGY AND SOIL DATA SUMMARY

Physiographic Province:	San Jose lies within the Coast Ranges Physiographic Province of California. The subject property is further situated within the Santa Clara Valley, which is an intermontane basin in the coastal region of California.
Geologic Unit Description:	The rocks that underlie the basins and form the surrounding mountains are primarily marine sediments and metamorphic and igneous rocks, all of which are Mesozoic age but locally include rocks of the Cenozoic age. The Property is located at approximately 40 feet above mean sea level. The estimated depth to bedrock at the Property is approximately 1,200 to 1,300 feet below the ground surface.
Geologic Data Source:	United States Department of Agriculture (USDA) Natural Resources Conservation Service Web Soil Survey
Soil Series Name:	Urban Land-Campbell complex and Urban Land-Elder complex
Soil Series Description:	The Campbell component is on alluvial fans, alluvial plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to

	a root restrictive layer is greater than 60 inches. The natural drainage class is moderately well drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is high. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 3 percent. Non-irrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The soil has a very slightly saline horizon within 30 inches of the soil surface. Slopes are 0 to 2 percent. The Elder component is on streams, alluvial plains. The parent material consists of alluvium derived from metamorphic and sedimentary rock and/or alluvium derived from metavolcanics. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 75 percent. Below this thin organic horizon the organic matter content is about 2 percent. Non-irrigated land capability classification is 3s. Irrigated land capability classification is 1 This soil does not meet hydric criteria. Slopes are 0 to 2 percent.

2.4.4 Flood Zone Information

FLOOD ZONE DATA SUMMARY

Source:	Federal Emergency Management Agency
Community Panel No.	06085C0068J
FIRM Date:	February 19, 2014
Zone Designation:	Zone X (unshaded) defined as an area of minimal flood hazard, and Zone X (shaded) defined as 0.2 percent annual chance flood hazard.

A copy of the reviewed flood map is included in Appendix B of this report.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

HISTORICAL USE INFORMATION

Years	Resource	Description/Use
1889 to 1899	Topographic Maps	Unimproved land
1939 to 1974	Aerial Photographs, Topographic Maps	Agricultural land, residential and agricultural-type buildings
1976-1977 to Present	Aerial Photographs, Agency Records, City Directories, Online Research, Onsite Observations, Topographic Maps	Existing multi-tenant light industrial buildings

Tenants on the subject property have included multiple small businesses dating back to 1976-77 including various contractors, distributors, manufacturers, print shops, cabinet shop, and other light industrial tenants. Refer to Section 4.1 and 4.2.2 for regulatory discussion of past and/or present tenants.

The buildings have been occupied by various small business tenants as well as light industrial and manufacturing tenants dating back to 1976. Current and former industrial operations have included printed circuit board assembly, machine shops, cabinet manufacturing, various workshops, equipment maintenance facilities and print shops that use/handle various hazardous substances. Partner's onsite reconnaissance did not identify evidence of prior hazardous substance spill/release incidents, USTs or other subsurface equipment such as a clarifier or sump in the buildings. In addition, the available regulatory agency records did not identify any records of USTs, prior spill/release incidents or significant violations associated with hazardous material storage and waste generation. Further, the individual tenant spaces are relatively small in scale, which generally limits the potential for significant chemical storage or handling. Based on this information, the current and former onsite operations appear to present a low risk for subsurface contamination.

3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Risk Information Services (ERIS) on August 12, 2025. The inferred uses of the subject property and adjoining properties as interpreted from the aerial photographs in Appendix B are tabulated below:

Date: **1939**	Scale: **1"=500'**
Subject Property:	Appears to be agricultural land including some orchard with dirt access roads present across the property
Northeast:	Appears to be agricultural land with a farmstead present in this area
Southeast:	Appears to be agricultural land with roads, residential and agricultural-type buildings
Southwest:	Appears to be agricultural land

Northwest:	Appears to be agricultural land

Date:	**1948, 1956**	Scale:	**1"=500'**
Subject Property:	Appears to be agricultural land (no orchard) with several small structures that appear to be dwellings, sheds and barns associated with the agricultural uses. The structures are situated on the southern end of the property		
Northeast:	Appears to be agricultural land with a farmstead		
Southeast:	No significant changes visible		
Southwest:	No significant changes visible		
Northwest:	No significant changes visible		

Date:	**1960**	Scale:	**1"=500'**
Subject Property:	No significant changes visible		
Northeast:	No significant changes visible		
Southeast:	Appears to be a roadway followed by vacant land, agricultural land and commercial/industrial-type buildings		
Southwest:	No significant changes visible		
Northwest:	No significant changes visible		

Date:	**1968**	Scale:	**1"=500'**
Subject Property:	No significant changes visible		
Northeast:	Appears to be a railroad line followed by vacant land, residential, commercial and industrial-type buildings		
Southeast:	Appears to be a roadway followed by vacant land, agricultural land and several commercial/industrial-type buildings		
Southwest:	Appears to be a roadway followed by agricultural land and a drive-in movie theater		
Northwest:	No significant changes visible		

Date:	**1974**	Scale:	**1"=500'**
Subject Property:	No significant changes visible		
Northeast:	Appears to be a railroad line followed by vacant land, commercial and industrial-type buildings		
Southeast:	No significant changes visible		
Southwest:	No significant changes visible		

Northwest:	Appears to be a roadway followed by industrial warehouse-type buildings and vacant land

Date:	**1982**	Scale:	**1"=500'**
Subject Property:	Appears to be developed with the existing industrial office/warehouse buildings and parking/drive areas		
Northeast:	Appears to be a railroad line followed by vacant land, commercial and industrial-type buildings		
Southeast:	Appears to be a roadway followed by a vacant lot, storage yard and several commercial/industrial-type buildings		
Southwest:	Appears to be a roadway followed by commercial and industrial-type buildings		
Northwest:	Appears to be a roadway followed by industrial warehouse-type buildings and a vacant lot		

Date:	**1985**	Scale:	**1"=500'**
Subject Property:	No significant changes visible		
Northeast:	Appears to be a railroad line followed by commercial and industrial-type buildings and storage yards		
Southeast:	Appears to be a roadway followed by several commercial/industrial-type buildings		
Southwest:	No significant changes visible		
Northwest:	No significant changes visible		

Date:	**1993, 2003, 2006, 2009, 2010, 2012, 2014, 2016, 2018, 2020, 2022, 2023**	Scale:	**1"=500'**
Subject Property:	No significant changes visible		
Northeast:	No significant changes visible		
Southeast:	No significant changes visible		
Southwest:	No significant changes visible		
Northwest:	No significant changes visible		

Copies of reviewed aerial photographs are included in Appendix B of this report.

3.2 Fire Insurance Maps

Partner reviewed the collection of fire insurance maps (FIMs) from ERIS on August 11, 2025. FIM coverage was not available for the subject property.

A copy of the no coverage letter is included in Appendix B of this report.

3.3 City Directories

Partner reviewed historical city directories obtained from ERIS on August 18, 2025 for past names and businesses that were listed for the subject property and adjoining properties. The findings are tabulated below:

*XXXX = A phone number is present but is not registered to a tenant or is disconnected.

According to the city directory review, the adjoining properties have been occupied by various commercial and industrial tenants. Please refer to Section 4.2.3 for regulatory discussion.

Copies of reviewed city directories are included in Appendix B of this report.

3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from ERIS on August 11, 2025. The following inferred uses of the subject property and adjoining properties interpreted from topographic maps in Appendix B and are tabulated below:

Date:	**1889, 1897, 1899**
Subject Property:	Depicted as unimproved land with a driveway and one small structure (dwelling) on or adjoining the property

Northeast:	Depicted as unimproved land with a few small structures (dwellings)
Southeast:	Depicted as unimproved land and/or agricultural land
Southwest:	Depicted as unimproved land and/or agricultural land with a roadway and one structure
Northwest:	Depicted as unimproved land and/or agricultural land

Date: **1943**	
Subject Property:	Depicted as unimproved land with two small structures depicted on the south end of the property
Northeast:	No significant changes depicted
Southeast:	Depicted as a roadway followed by unimproved land and/or agricultural land and one or more structures
Southwest:	Depicted as unimproved land and/or agricultural land with a roadway
Northwest:	No significant changes depicted

Date: **1953**	
Subject Property:	Depicted as unimproved land with an unpaved driveway
Northeast:	No significant changes depicted
Southeast:	Depicted as a roadway followed by unimproved land and/or agricultural land and multiple structures
Southwest:	No significant changes depicted
Northwest:	No significant changes depicted

Date: **1961**	
Subject Property:	Depicted as unimproved land with an unpaved roadway and small structures and well on the southeastern side of the property
Northeast:	No significant changes depicted
Southeast:	Depicted as a roadway followed by multiple structures
Southwest:	Depicted as a roadway followed by unimproved land and/or agricultural land
Northwest:	No significant changes depicted

Date: **1968**	
Subject Property:	Depicted as unimproved land with an unpaved driveway and several small structures on the south end of the property including a water well
Northeast:	Vacant land, scattered structures and an industrial-type building
Southeast:	No significant changes depicted

Southwest:	Depicted as a roadway followed by vacant land and a drive-in movie theater
Northwest:	No significant changes depicted

Date: **1973**	
Subject Property:	No significant changes depicted
Northeast:	No significant changes depicted
Southeast:	No significant changes depicted
Southwest:	No significant changes depicted
Northwest:	Depicted as a roadway followed by commercial/industrial-type buildings

Date: **1980**	
Subject Property:	Developed with the existing structures
Northeast:	Commercial/industrial-type buildings
Southeast:	No significant changes depicted
Southwest:	Depicted as a roadway followed by vacant land and multiple commercial/industrial-type buildings
Northwest:	No significant changes depicted

Date: **2015, 2018, 2021**	
Subject Property:	Shaded to depict urban development
Northeast:	Shaded to depict urban development
Southeast:	Shaded to depict urban development
Southwest:	Shaded to depict urban development
Northwest:	Shaded to depict urban development

Copies of reviewed topographic maps are included in Appendix B of this report.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

State Department

REGULATORY AGENCY DATA

Name of Agency:	California Environmental Protection Agency (CalEPA)
Point of Contact:	https://siteportal.calepa.ca.gov/nsite/map/help
Agency Address:	1001 I Street, Sacramento, California 95812,
Agency Phone Number:	(916) 323-2514
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

Partner reviewed the CalEPA Regulated Site Portal and the California Environmental Reporting System (CERS) database for chemical reporting information, compliance and other regulatory information for the subject property. The subject property is identified in the CERS database under the following profiles, which are inspected by the Santa Clara County Environmental Health (CUPA):

Itronix Systems, Inc. (321 East Brokaw Road) is a registered hazardous waste generator as of July 10, 2013. No additional information is included in the regulated site portal.

Blazer Sign (2012 Zanker Road) is a registered USEPA Air Emission Inventory System facility. No additional information was included in the regulated site portal.

Deliverex (2030 Zanker Road) is a registered USEPA Air Emission Inventory System facility. No additional information was included in the regulated site portal.

Source Corp Deliverex (2054 Zanker Road) is a registered chemical storage facility as of July 10, 2013. The regulated site portal identified minor violations during the September 2015 inspection, which were corrected. No open violations are reported at this time. The chemical inventory included diesel fuel only.

Baker Distributing Company (2138 Zanker Road) is a registered chemical storage facility as of July 10, 2013. Various chemicals are reported as inventory as of March 2025 including various refrigerants and compressed gases. The regulated site portal identified minor violations during the December 2014 inspection, which have likely been corrected by this time.

Thyssenkrupp Elevator Company (2140 Zanker Road) is a registered chemical storage and hazardous waste generator facility as of March 17, 2016. The chemical inventory included used oil, petroleum waste, oxygen, hydraulic oil and acetylene. One open violation associated with the failure to obtain a hazardous waste generator permit was identified during the March 2016 inspection, which has likely been corrected by this time.

OKI Graphics, Inc. (2148 Zanker Road) is a registered hazardous waste generator as of July 10, 2013. The 2024 inspection noted violations associated with unmarked ink containers, storage of hazardous wastes beyond 180 days, lack of CERS submittal and lack of documentation. The facility subsequently returned to compliance with regard to the violations. No open violations are

reported at this time. A chemical inventory is not reported.

T-Mobile West LLC (326 Charcot Avenue) is a registered chemical storage facility as of December 27, 2016. The chemical inventory included electrolyte/sulfuric acid. Compliance information is not reported at this time. This business appears to be associated with a cellular tower site.

Health Department

REGULATORY AGENCY DATA

Name of Agency:	Santa Clara County Environmental Health Department (SCCEHD)
Point of Contact:	NextRequest/Tanaya Farahani
Agency Address:	1555 Berger Drive, Building 2, Suite 300, San Jose, California 95112, San Jose, California
Agency Phone Number:	(408) 918-3428
Date of Contact:	August 2025
Method of Communication:	Email and Online Request Form

Summary of Communication:

Santa Clara County Environmental Health Department included the following files for the subject property:

Nexlogic Technologies, Inc. (345 East Brokaw Road): This site is listed as closed as of February 2006. Prior inspections of this tenant space in 2004 indicated that the facility stored and used solder dross and waste paste that were above the allowable accumulation limits. The violation was subsequently corrected. The file included hazardous waste manifest records for hazardous solid waste and lead removal. An inspection in August 2002 identified violations for unmarked accumulation start dates on drums of solder dross and waste flex thinner, and lack of documentation. Inspections in 2003 did not identify any significant violations. Nexlogic Technologies was a PCB assembly facility that generated waste flux and solder dross, and submitted a hazardous waste generator permit application in August 2002.

OKI Graphics (2148 Zanker Road): This site submitted a hazardous waste generator permit application in April 2004. This print shop generated waste ink cans and solvent ink wastes. Inspections of this facility dating back to 2004 identified minor violations for failure to label containers, accumulation time being too long, improper management of contaminated rags, and lack of documentation. The chemical inventory included drums of waste ink and waste ink debris. The file included a Hazardous Material Business Plan (HMBP), dated 2010, which indicated that OKI Graphics was a registered hazardous material storage and hazardous waste generator with no registered ASTs or USTs. The chemical inventory included ink, auto wash 600, MRC, lubricating oil, aqueous coating, MRC-F cleaner solvent and waste ink. OKI Graphics had an HMBP certification as of April 2012. The most recent inspection of OKI Graphics was in June 2024, which identified violations for not submitting an HMBP via CERS, missing information on the HMBP, lack of property owner notification, lack of emergency response training documentation, insufficiently marked drums of ink and waste ink, accumulation of waste too long and lack of manifest records. The violations were reportedly corrected.

Stencil Master, Inc. (345 East Brokaw Road): The file indicated that Stencil Master, Inc. generated

used oil only as of April 2011. Inspections of the facility dating back to 2008 identified a used oil drum and containers of used absorbent. The facility reportedly did not use an electropolishing machine, but did generate waste oil from a compressor. Violations were noted during the 2008 inspection for lack of a hazardous waste generator permit and paper towels contaminated with electropolishing solution (phosphoric and sulfuric acid) located in a trash can. The violations were subsequently corrected, which included the proper disposal of the paper towels as hazardous waste. The file included manifest records for this business. Stencil Master completed a hazardous wase generator permit application on October 29, 2008. The business is listed as a PCB stencil manufacturing firm that generated EPS 2500 electropolish and paper towels for wiping electropolish. An HMBP Business Owner/Operator Identification form indicated that the waste generated contained phosphoric acid and sulfuric acid on paper towels that were being disposed to a 55-gallon drum.

SourceHOV/Source Corp Deliverex (2054 Zanker Road): The file included a September 2015 CERS Lead User Authorization Form, and a September 2003 Business Owner/Operator Identification form. The HMBP indicated that the facility stored hazardous materials, but did not generate hazardous wastes or contain ASTs or USTs. The chemical inventory included diesel fuel in a 350-gallon AST. An additional HMBP for this facility, dated 2011, identified diesel fuel in a 200-gallon AST. A 2011 inspection of Sourcecorp Deliverex identified a 350-gallon diesel AST. The September 2015 inspection of Sourcecorp Deliverex identified violations for lack of submittal of CERS documentation, missing site map and lack of training documentation.

Itronix Systems, Inc. (321 East Brokaw Road): The file contained an August 29, 2012 inspection, which indicated that the facility had leaded and lead free solder waste and IPA cotton swabs. The facility will complete a hazardous waste generator application.

Baker Distributing Company (2138 Zanker Road): The file included a December 11, 2014 inspection, which identified missing HMBP documentation.

Thyssenkrupp Elevator Company (2140 Zanker Road): The file included a March 4, 2016 inspection, which indicated that a dumpster was stained with apparent used oil. A pile of saturated absorbent below the dumpster spigot was observed and there were fresh pads adjacent to the spill. The facility was ordered to cease dumping of saturated rags of used oil in the dumpster. Thyssenkrupp responded to SCCEHD on May 2, 2016 that they will cease the disposal activities. The most recent inspection was completed on May 5, 2025, which indicated that the facility had a violations for lack of HMBP documentation. The facility is a commercial shop for elevator mechanicals, and the facility had seven 55-gallon drums of used hydraulic oil, forty 5-gallon buckets of new hydraulic oil, acetylene cylinder and one propane cylinder. Violations were noted for unmarked waste containers, open containers, lack of manifests, lack of training documentation and improper management of contaminated containers and universal waste.

Fire Department

REGULATORY AGENCY DATA

Name of Agency:	San Jose Fire Department (SJFD)
Point of Contact:	https://sjpermits.org/permits/online-permits.html
Agency Address:	1661 Senter Road, San Jose, California 95112,
Agency Phone Number:	(408) 535-7694

Date of Contact:	August 8, 2025
Method of Communication:	Online Research

Summary of Communication:

San Jose Fire Department records included fire alarm/fire sprinkler system permits and high pile storage rack installation permits. No records associated with underground storage tanks or prior hazardous substance spill/release incidents were included in the files.

Building Department

REGULATORY AGENCY DATA

Name of Agency:	San Jose Building Department (SJBD)
Point of Contact:	https://sjpermits.org/permits/online-permits.html
Agency Address:	200 East Santa Clara Street, San Jose, California 95113,
Agency Phone Number:	(408) 535-3555
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

San Jose Building Department records included multiple building construction permits, interior tenant improvement permits for office/warehouse tenants, re-roofing permits, various mechanical equipment permits, sign permits, exterior remodeling permits, addition/alteration permits and voluntary seismic upgrade records. The file included several Certificates of Occupancy for office/warehouse properties dating back to 1977. The file included a March 13, 1987 letter from Deliverex to City of San Jose, which indicated that the business will not store hazardous materials in the 361 East Brokaw unit. No environmentally significant information was included in the files.

Planning Department

REGULATORY AGENCY DATA

Name of Agency:	San Jose Planning Department (SJPD)
Point of Contact:	https://zoningpoint.com/california/santa-clara-county/san-jose/
Agency Address:	200 East Santa Clara Street, San Jose, California 95113
Agency Phone Number:	(408) 535-3555
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

According to reviewed online documents, the subject property is zoned LI(PD) for Light Industrial Planned Development and A(PD) for Agricultural Planned Development by the City of San Jose.

Oil & Gas Exploration

REGULATORY AGENCY DATA

Name of Agency:	California Geologic Energy Management Division (CalGEM)
Point of Contact:	https://maps.conservation.ca.gov/doggr/wellfinder/
Agency Address:	801 K Street, MS 20-22, Sacramento, California 95814
Agency Phone Number:	(916) 322-1110
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

According to CalGEM, no oil or gas wells are located on the subject property or properties in the vicinity, and the subject property is not mapped within the boundary of an oil field.

Assessor's Office

REGULATORY AGENCY DATA

Name of Agency:	Santa Clara Assessor (SCA)
Point of Contact:	https://www.sccassessor.org/
Agency Address:	70 West Hedding Street, San Jose, California,
Agency Phone Number:	(408) 299-5500
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

According to records reviewed, the subject property is identified as Assessor Parcel Numbers (APN) 237-29-029, 237-29-030 and 237-29-031, which contains a total of 25.449 acres. No additional pertinent information is readily available through the County Assessor website.

Air Pollution Control Agency

REGULATORY AGENCY DATA

Name of Agency:	Bay Area Air Quality Management District (BAAQMD) and California Air Resources Control Board (CARB)
Point of Contact:	Rochele Henderson
Agency Address:	939 Ellis Street, San Francisco, California 94109,
Agency Phone Number:	(415) 771-6000
Date of Contact:	August 8, 2025
Method of Communication:	Telephone, Online Research, and Online Request Form

Summary of Communication:

Multiple current and former tenants are listed as permitted air emissions facilities with BAAQMD. Refer to Sections 4.1.1 and 4.2.2 for a discussion of the emissions listings.

Regional Water Quality Agency

REGULATORY AGENCY DATA

Name of Agency:	State Water Resources Control Board- GeoTracker website
Point of Contact:	https://geotracker.waterboards.ca.gov/
Agency Address:	1515 Clay Street, Suite 1400, Oakland, California 94612,
Agency Phone Number:	(510) 622-2300
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

GeoTracker is the Water Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. GeoTracker contains records for sites that require cleanup, such as Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, and Cleanup Program Sites. GeoTracker also contains records for various unregulated projects as well as permitted facilities including Irrigated Lands, Oil and Gas production, operating Permitted USTs, and Land Disposal Sites. GeoTracker portals retrieve records and view integrated data sets from multiple State Water Board programs and other agencies. No information is reported for the subject property addresses. An adjoining release case is identified, which is discussed in Section 4.2.3.

Department of Toxic Substances Control

REGULATORY AGENCY DATA

Name of Agency:	California Department of Toxic Substances Control (DTSC)
Point of Contact:	https://www.envirostor.dtsc.ca.gov/public/ and hwts.dtsc.ca.gov
Agency Address:	1001 I Street, Sacramento, California 95814,
Agency Phone Number:	(916) 255-3687
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

The EnviroStor database is the DTSC's data management system for tracking cleanup, permitting, enforcement, and investigation efforts at hazardous waste facilities and sites with known contamination or sites where there may be reason to investigate further. No records were identified for the subject property address on the EnviroStor database.

The DTSC Hazardous Waste Tracking System (HWTS) was researched for hazardous waste manifest data submitted to the California DTSC. HWTS included the following records for the subject property:

A&B Western Properties Fund 1 (2078 Zanker Road) is an inactive hazardous waste transporter as of October 25, 2000. Manifest records identified the removal and offsite disposal of approximately 13.38-tons of waste oil and mixed oil and unspecified oil-containing wastes in 1994.

J&B Electronics (2030 Zanker Road) is an inactive hazardous waste transporter as of January 1, 1995. No manifest records were included in HWTS.

J&J Electronics (2030 Zanker Road) is an inactive hazardous waste transporter as of December 19, 2000. No manifest records were included in HWTS.

Jason Duval (2086 Zanker Road) is an inactive hazardous waste transporter as of July 30, 2009. Manifest records identified the removal and offsite disposal of approximately 0.15-tons of oxygenated solvents, waste oil and mixed oil and polymeric resin waste in 2009.

Precision Rotary Forms (2016 Zanker Road) is an inactive hazardous waste transporter as of June 30, 2001. Manifest records identified the removal and offsite disposal of 0.13-tons, 0.13-tons, 0.13-tons and 0.17-tons of photo chemical/photo processing wastes in 1995, 1996, 1998 and 2000, respectively.

AMD Property Corp (2122 Zanker Road) is an inactive hazardous waste transporter as of July 17, 2006. Manifest records identified the removal and offsite disposal of approximately 10.33-tons of unspecified organic liquid mixture waste and other organic solids in 2005.

RREEF Fund III (2124 Zanker Road) is an inactive hazardous waste transporter as of October 25, 2000. No manifest records were included in HWTS.

The Packaging & Shipping Company – DBA Craters & Freighters (2124 Zanker Road) is an inactive hazardous waste transporter as of March 19, 2020. No manifest records were included in HWTS.

Znano LLC (2076 Zanker Road) is an inactive hazardous waste transporter as of June 30, 2022. Manifest records identified the removal and offsite disposal of unspecified aqueous solution wastes, other inorganic solid wastes, off-specification, aged or surplus organic wastes, organic liquids with metals, unspecified organic liquid mixture waste, other organic solids and laboratory waste chemicals between 2018 and 2021.

Blazer Exhibits and Graphics (2012 Zanker Road) is an inactive hazardous waste transporter as of June 30, 2008. No manifest records were included in HWTS.

AMB/SJ/CIF LP (2054 Zanker Road) is an inactive hazardous waste transporter as of October 25, 2000. Manifest records identified the removal and offsite disposal of approximately 0.125-tons of other organic solids in 1997.

Source Corp Deliverex, Inc. (2054 Zanker Road) is an inactive hazardous waste transporter as of February 1, 2007. No manifest records were included in HWTS.

OKI Graphics (2148 Zanker Road) is an active hazardous waste transporter as of May 23, 2001. Manifest records identified the removal and offsite disposal of alkaline solution wastes without metals, aqueous solution wastes with organic residues, unspecified solvent mixture waste, off-specification, aged or surplus organic wastes, other organic solids and photo chemical/photo processing wastes between 2002 and 2024.

TK Elevator Corp (2140 Zanker Road) is an active hazardous waste transporter as of February 27, 2008. Manifest records identified the removal and offsite disposal of oxygenated solvents, waste oil & mixed oil, unspecified oil-containing wastes, off-specification, aged or surplus organic wastes and other organic solids between 2008 and 2025.

B&B Custom Circuit Supplies (2156 Zanker Road) is an inactive hazardous waste transporter as of December 21, 2000. Manifest records identified the removal and offsite disposal of approximately 0.69-tons of acidic liquids with metals in 1994.

Rosenberg Real Estate Equity Fund 3 (2144 Zanker Road) is an inactive hazardous waste transporter as of October 25, 2000. No manifest records were included in HWTS.

Stencil Master, Inc. (345 East Brokaw Road) is an inactive hazardous waste transporter as of July 10, 2012. Manifest records identified the removal and offsite disposal of unspecified aqueous solution wastes and off-specification, aged or surplus inorganic wastes between 2007 and 2011.

TA Technology (321 East Brokaw Road) is an inactive hazardous waste transporter as of June 30, 2003. Manifest records identified the removal and offsite disposal of unspecified aqueous solution wastes, other inorganic solid wastes and unspecified organic liquid mixture wastes between 1997 and 2002.

IBM Corp (391 East Brokaw Road) is an inactive hazardous waste transporter as of June 30, 1998. No manifest records were included in HWTS.

Encore Industries, Inc. (330 Charcot Avenue) is an inactive hazardous waste transporter as of August 19, 2003. Manifest records identified the removal and offsite disposal of other inorganic solid wastes and off-specification, aged or surplus organic wastes in 2002.

GDT Builders, Inc. (350 Charcot Avenue) is an inactive hazardous waste transporter as of March 31, 2008. No manifest records were included in HWTS.

Other Agency

REGULATORY AGENCY DATA

Name of Agency:	Santa Clara Valley Water District (SCVWD)
Point of Contact:	https://gis.valleywater.org/wellinfo/
Agency Address:	5750 Almaden Expressway, San Jose, California 95118
Agency Phone Number:	(408) 265-2600
Date of Contact:	August 2025
Method of Communication:	Online Research

Summary of Communication:

SCVWD's Well Map indicated that one domestic water production well and one agricultural water production well were in the location at the northwestern portion of the existing 326-346 Charcot Avenue building. Wells 06S01W25H001 and 06S01W25H002 were likely associated with the historic agricultural and residential uses of the subject property and vicinity. The wells are listed as abandoned. SCVWD files identified active groundwater monitoring wells adjoining to the southeast, southwest and northwest of the subject property, which are associated with offsite cases, as further discussed in Section 4.2.3.

Copies of pertinent documents are included in Appendix B of this report.

4.2 Mapped Database Records Search

The regulatory database report provided by ERIS documents the listing of sites identified on federal, state, county, city, and tribal (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM Practice E1527-21. The data from these sources are updated as these data are released and integrated into one database. The information contained in this report was compiled from publicly available sources.

The environmental database information is used to identify environmental concerns in connection with the subject property. The listings also serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the subject property and the potential for contaminants to migrate onto the subject property from off-site sources in groundwater or soil in the form of liquids or vapor.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

The following table lists the sites as categorized by the regulatory database within the prescribed AMSD. The locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

DATABASE REPORT DATA

Database	AMSD Radius (mile)	Listings Identified		
		Subject Property	Adjoining Properties	Surrounding Area Sites of Concern
Federal NPL	1.00	N	N	N
Delisted NPL Site	0.50	N	N	N
Federal SEMS Site	0.50	N	N	N
Federal SEMS-ARCHIVE	0.50	N	N	N
Federal RCRA CORRACTS Facility	1.00	N	N	N
Federal RCRA TSDF Facility	0.50	N	N	N
Federal RCRA Generators Site (LQG, SQG, VSQG, CESQG)	Subject and Adjoining	N	**Y**	N
Federal IC/EC Registries	Subject Property	N	N	N
Federal ERNS Site	Subject Property	N	N	N
Federal PFAS Facility	0.50	N	N	N
State/Tribal Equivalent NPL	1.00	N	N	N
State/Tribal Equivalent CERCLIS	1.00	N	**Y**	N
State/Tribal Landfill/Solid Waste	0.50	N	N	N

Disposal Site				
State/Tribal Leaking Storage Tank Site (LUST/LPST)	0.50	N	N	N
State/Tribal Registered Storage Tank Sites (UST/AST)	Subject and Adjoining	N	N	N
State/Tribal IC/EC Registries	Subject and Adjoining	N	N	N
State/Tribal Voluntary Cleanup Sites (VCP)	0.50	N	N	N
State/Tribal Spills	0.25	N	N	N
Federal Brownfield Sites	0.50	N	N	N
State Brownfield Sites	0.50	N	N	N
State PFAS Facility	0.50	N	**Y**	N
CHMIRS, HMIRS, HIST CHMIRS	Subject and Adjoining	**Y**	**Y**	N
Emissions	0.25	**Y**	**Y**	N
FINDS/FRS	Subject and Adjoining	**Y**	**Y**	N
CUPA and CERS Databases	0.25	**Y**	**Y**	N
HAZ San Jose	0.25	**Y**	**Y**	N
RCRA Non Gen	Subject and Adjoining	**Y**	**Y**	N
ICIS	Subject and Adjoining	**Y**	N	N
Other Databases	Varies	**Y**	**Y**	N
Cleanup Sites	0.50	N	N	**Y**

4.2.2 Subject Property Listings

The subject property was identified as a CHMIRS, HMIRS, HIST CHMIRS, Emissions, FINDS/FRS, CUPA and CERS Databases, HAZ San Jose, RCRA Non Gen and ICIS site in the regulatory database report. The HAZNET, HIST Manifest and HAZ Gen listings were previously discussed in Section 4.1.6. The remaining listings are discussed below:

SUBJECT PROPERTY DATABASE LISTING

Database:	CHMIRS
Site Name:	Erley & Kalinowski Consulting Firm
Address:	2078 Zanker Road
Date of Release:	July 1994
Substance Released:	Diesel fuel
Media Impacted:	Parking lot
Date of Closure:	N/A
Responsible Party:	Not provided
Substance Involved:	Diesel fuel
Years of Operation:	N/A
Status:	Not provided
Discussion:	The CHMIRS database indicated that a spill of diesel fuel was discovered in the parking lot in July 1994. The spill had reportedly entered a storm drain but was cleaned up. Based on the relatively minor nature of the incident, time elapsed since the incident occurred and current regulatory status, this incident is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	Emissions, FINDS/FRS, CUPA Santa Clara, HAZ San Jose, CERS HAZ
Site Name:	Deliverex
Address:	2030 and 2054 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The Emissions database indicated that this site was a permitted air emissions facility with BAAQMD from 2003 to 2021. The FINDS/FRS database indicated that this site is an air emissions and State Master facility. The listing appears to be associated with the former operation of a diesel fuel-powered emergency generator that was reportedly located in the 2054 Zanker unit. Partner's onsite assessment indicated that the 2030 Zanker unit is occupied by Access for office and warehouse purposes. The CUPA Santa Clara database indicated that this site is a permitted HMBP facility. The HAZ San Jose database indicated that this stie is categorized as an auto wrecking/miscellaneous simple facility. The CERS database indicated that this site is a registered chemical storage facility with reported violations. Based on the lack of reported releases or underground

	storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	HAZ San Jose
Site Name:	Home Expo and Design
Address:	345 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The HAZ San Jose database indicated that this stie is categorized as a metal plating and fabrication facility. However, Partner's onsite reconnaissance indicated that this site is a kitchen and bath showroom with no manufacturing operations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara
Site Name:	Nexlogic Technologies
Address:	345 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that this site is a hazardous waste generator. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara
Site Name:	Stencil Master, Inc.

Address:	345 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that this site is a waste oil generator and hazardous waste generator. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	HAZ San Jose
Site Name:	Unifirst Corporation
Address:	2016 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The HAZ San Jose database indicated that this stie is categorized as an auto wrecking/miscellaneous simple facility. However, Partner's onsite reconnaissance indicated that this site is an office/warehouse facility with no manufacturing operations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	RCRA Non Gen, FINDS/FRS
Site Name:	AMD Property Corp
Address:	2122 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. The FINDS/FRS database indicated that this site is an unspecified universe facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence

	of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	RCRA Non Gen, FINDS/FRS
Site Name:	The Packaging & Shipping Company (DBA Craters & Freighters)
Address:	2124 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. The FINDS/FRS database indicated that this site is an unspecified universe facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara, RCRA Non Gen, FINDS/FRS
Site Name:	Znano LLC
Address:	2076 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that this site is a hazardous waste generator. The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. The FINDS/FRS database indicated that this site is an "other hazardous waste activities" facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	Emissions, FINDS/FRS
Site Name:	Blazer Sign
Address:	2012 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The Emissions database indicated that this site was a permitted air emissions facility with BAAQMD from 1998 to 2008. The FINDS/FRS database indicated that this site is an air emissions facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	FINDS/FRS, ICIS
Site Name:	Karya Brothers Network, Inc.
Address:	385 East Brokaw Street
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The FINDS/FRS database indicated that this site is an enforcement compliance activity and formal enforcement facility. The ICIS listing is associated with a formal enforcement activity at this site. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara, FINDS/FRS, HAZ San Jose, CERS HAZ, RCRA Non Gen
Site Name:	OKI Graphics, Inc.
Address:	2148 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided

Status:	N/A
Discussion:	The CUPA database indicated that this site is a hazardous waste generator and HMBP facility. The FINDS/FRS database indicated that this site is a State Master and other hazardous waste activities facility. The HAZ San Jose database indicated that this stie is categorized as an auto wrecking/miscellaneous simple facility. The CERS database indicated that this site is a registered chemical storage and hazardous waste generator facility with reported violations. The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara, CERS HAZ, RCRA Non Gen, FINDS/FRS
Site Name:	Thyssenkrupp Elevator Company
Address:	2140 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that this site is an HMBP and hazardous waste generator facility. The CERS database indicated that this site is a registered chemical storage and hazardous waste generator facility with reported violations. The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. The FINDS/FRS database indicated that this site is an other hazardous waste activities facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	FINDS/FRS, CERS HAZ, CUPA Santa Clara
Site Name:	iTronix Systems, Inc.
Address:	321 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided

Status:	N/A
Discussion:	The FINDS/FRS database indicated that this site is a State Master facility. The CERS database indicated that this site is a registered hazardous waste generator facility with no reported violations. The CUPA database indicated that this site is a registered hazardous waste generator. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	HMIRS
Site Name:	No Site Name
Address:	335 Brokaw Road
Date of Release:	April 1999
Substance Released:	Hair care products
Media Impacted:	Ground surface
Date of Closure:	N/A
Responsible Party:	Not provided
Substance Involved:	Hair care products
Years of Operation:	N/A
Status:	N/A
Discussion:	The HMIRS database indicated that a minor spill of hair care products occurred in April 1999. Based on the relatively minor nature of the incident, time elapsed since the incident occurred and current regulatory status, this incident is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	FINDS/FRS
Site Name:	Porcelanosa San Francisco, Inc.
Address:	391 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion	The FINDS/FRS database indicated that this site is an OSHA facility. Based on

:	the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	CUPA Santa Clara, FINDS/FRS, HAZ San Jose, CERS HAZ
Site Name:	Baker Distributing Company
Address:	2138 Zanker Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion :	The CUPA database indicated that this site is a registered HMBP facility. The FINDS/FRS database indicated that this site is a State Master facility. The HAZ San Jose database indicated that this stie is categorized as an auto wrecking/miscellaneous simple facility. The CERS database indicated that this site is a registered chemical storage facility with reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	HIST CHMIRS
Site Name:	No Site Name
Address:	309 East Brokaw Road
Date of Release:	October 1993
Substance Released:	Lithium
Media Impacted:	Ground surface
Date of Closure:	N/A
Responsible Party:	Not provided
Substance Involved:	Lithium
Years of Operation:	N/A
Status:	N/A
Discussion	The HIST CHMIRS database indicated that a minor spill of lithium occurred in

:	October 1993. Based on the relatively minor nature of the incident, time elapsed since the incident occurred and current regulatory status, this incident is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	Emissions, FINDS/FRS
Site Name:	Fox Electronics
Address:	309 East Brokaw Road
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion :	The Emissions database indicated that this site was a permitted air emissions facility with BAAQMD in 1996. The FINDS/FRS database indicated that this site is an air emissions facility. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

SUBJECT PROPERTY DATABASE LISTING

Database:	HAZ San Jose, CERS HAZ
Site Name:	T-Mobile
Address:	326 Charcot Avenue
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion :	The HAZ San Jose database indicated that this site is categorized as a miscellaneous complex firm and lab facility. The CERS database indicated that this site is a registered chemical storage facility with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

4.2.3 Adjoining Property Listings

One or more adjoining properties were identified as a Federal RCRA Generators Site (LQG, SQG, VSQG, CESQG), State/Tribal Equivalent CERCLIS, State PFAS Facility, CHMIRS, HMIRS, HIST CHMIRS, Emissions, FINDS/FRS, CUPA and CERS Databases, HAZ San Jose, RCRA Non Gen and Other Databases in the regulatory database report, as discussed below:

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Hill Brothers Chemical Company
Address:	410 Charcot Avenue
Direction:	Northeast
Hydrological Gradient:	Cross-Gradient
Database Listing:	PFAS Industry Sectors, RCRA-SQG, CUPA Santa Clara, HAZ San Jose, CERS HAZ, Emissions, TSCA, HIST Tank
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A

Discussion:

The RCRA database indicated that this site is a registered small quantity hazardous waste generator with no reported violations. The CUPA listing is associated with a CalARP, HMBP and hazardous waste generator facility. The HAZ San Jose listing indicated that this site is categorized as a miscellaneous complex firm and lab facility.

Hill Brothers Chemical Company is listed in the CERS database for chemical storage, hazardous chemical management, hazardous waste generator, and industrial facility storm water permitting under the regulatory oversight of the SCCEH. Thirty-four (34) chemicals are reported within its inventory as of February 2025. The facility has several open violations for required submittals as of December 2024. The Emissions listings is associated with permitted air emissions with BAAQMD. The TSCA listing referenced storage of various hazardous substances at this site. The HIST Tank listing referenced one tank at this site.

Hill Brothers Chemical is identified on the PFAS Industry Sectors database. The PFAS database indicated that this site is a chemical manufacturing facility with reported violations within the Clean Water Act (CWA) for industrial stormwater. Details about the type of violations are not reported in the database. Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile but are unconfirmed by the EPA.

	Based on the lack of reported releases or USTs, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern at this time.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	UPRR
Address:	Brokaw Road and Rodgers Road in San Jose Yard
Direction:	Southeast
Hydrological Gradient:	Cross-Gradient
Database Listing:	CHMIRS
Date of Release:	August 24, 1999
Substance Released:	50 gallons of diesel fuel
Media Impacted:	Ground surface
Date of Closure:	N/A
Responsible Party:	UPRR
Substance Involved:	50 gallons of diesel fuel
Years of Operation:	N/A
Status:	N/A
Discussion:	The CHMIRS database indicated that a release of approximately 50 gallons of diesel fuel from a fuel tank occurred at the train yard on August 24, 1999. The spill was reportedly cleaned up. Based on the relatively minor nature of the incident, time elapsed since the incident occurred and current regulatory status, this incident is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Enviro Systems, Michael Filice
Address:	445 East Brokaw Road
Direction:	Northeast
Hydrological Gradient:	Up-Gradient
Database Listing:	HAZ Gen
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A

Discussion:	The HAZ Gen listings are associated with the removal and offsite disposal of hazardous substances under manifest. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Nexlogic, Nexlogic DBA Naprotek, LLC, Eveready Industry Corporation, Atasi, Noah Medical
Address:	2075 and 2085 Zanker Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	PFAS IND, RCRA-SQG, CUPA Santa Clara, HAZ San Jose, CERS HAZ, Emissions, RCRA Non Gen
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The PFAS databases indicated that this site is an active facility in the electronics industry with no reported violations. The RCRA database indicated that tenants of this site are registered small quantity hazardous waste generators and/or non-generators of hazardous waste with no reported violations. The CUPA Santa Clara database indicated that this site is a registered HMBP and hazardous waste generator facility. The HAZ San Jose database indicated that this site is categorized as an electronic firm. The CERS listing is associated with a hazardous waste generator and chemical storage registration with reported violations. The Emissions listing is associated with permitted air emissions with BAAQMD. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	No Site Name
Address:	Zanker Road near Brokaw
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	HMIRS

Date of Release:	June 1996
Substance Released:	Potassium hydroxide
Media Impacted:	Soil
Date of Closure:	N/A
Responsible Party:	Not provided
Substance Involved:	Potassium hydroxide
Years of Operation:	N/A
Status:	N/A
Discussion:	The HMIRS database indicated that a spill of potassium hydroxide to soil occurred in June 1996. Based on the relatively minor nature of the incident, time elapsed since the incident occurred and current regulatory status, this incident is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Innovion Corporation, Ven Tel, Inc.
Address:	2121 Zanker Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	PFAS IND, RCRA-SQG, CUPA Santa Clara, HAZ San Jose, Emissions, CERS HAZ
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The PFAS databases indicated that this site is an active facility in the electronics industry with no reported violations. The RCRA database indicated that this site is a registered small quantity generator of hazardous waste with no reported violations. The CUPA and CERS listings are associated with hazardous waste generation and chemical storage registrations with reported violations. The HAZ San Jose database indicated that this site is categorized as a electronics facility. The Emissions listing is associated with permitted air emissions with BAAQMD. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Maxtor Corporation, Chargepoint, UL LLC
Address:	2191 Zanker Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	RCRA Non Gen, HAZ San Jose, Alt Fuels
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The RCRA database indicated that tenants of this site are registered non-generators of hazardous waste with no reported violations. The HAZ San Jose database indicated that this site is categorized as a miscellaneous complex firm and lab facility. The Alt Fuels listings are associated with electric vehicle charging stations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Cal Steam San Jose, Place & Gera, Inc.
Address:	400 East Brokaw Road
Direction:	Southeast
Hydrological Gradient:	Cross-Gradient
Database Listing:	CUPA Santa Clara, HAZ San Jose, CERS HAZ, RCRA Non Gen
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that tenants of this site are registered HMBP and hazardous waste generator facilities. The HAZ San Jose database indicated that this site is categorized as an auto wrecking/miscellaneous simple facility. The CERS database indicated that this site is a registered chemical storage facility with reported violations. The RCRA listing is associated with a non-generator of hazardous waste registration for Cal Steam with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to

	represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Rock Shox, Solar Junction, Out of Business (Solar Junction), Novera Optics
Address:	401 Charcot Avenue
Direction:	North
Hydrological Gradient:	Down-Gradient
Database Listing:	PFAS IND, RCRA-SQG, RCRA-LQG, CUPA Santa Clara, HAZ San Jose, HAZ TSD
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
	Solar Junction appears to be a prior tenant at this location. Solar Junction is identified on the PFAS Industry Sectors database for being classified within the Electronics Industry. Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile, but are unconfirmed by the EPA.
Discussion:	The RCRA database indicated that tenants of this site are registered small and large quantity generators of hazardous waste with no reported violations. The CUPA database indicated that this site is a registered hazardous waste generator and HMBP facility. The HAZ San Jose database indicated that this site is categorized as a miscellaneous complex firm and lab facility. The HAZ TSD listing is associated with the removal and offsite disposal of hazardous substances under manifest. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Pacific Circuit Assembly, Adeptron Technologies USA, Inc.
Address:	2043 Zanker Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	Emissions, CUPA Santa Clara, PFAS IND

Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The Emissions listing is associated with permitted air emissions with BAAQMD. The CUPA Santa Clara listing is associated with a hazardous waste generator and HMBP registration. The PFAS database indicated that this site is in the electronics industry with an unknown status. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Orchard Printing
Address:	279 East Brokaw Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	RCRA-SQG
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The RCRA database indicated that this site is a registered small quantity hazardous waste generator with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Universal Semiconductor, Inc., Magnesys
Address:	1925 Zanker Road
Direction:	Southwest
Hydrological Gradient:	Down-Gradient
Database Listing:	CUPA Santa Clara, HAZ San Jose, CERS HAZ, Emissions, EnviroStor, RCRA-SQG
Substance Involved:	Not provided

Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA Santa Clara listing is associated with an HMBP, Conditionally Authorized and hazardous waste generator registration. The HAZ San Jose listing indicated that this site is categorized as an electronics firm. The CERS listing is associated with a hazardous waste generator and chemical storage registration with reported violations. The Emissions listing is associated with permitted air emissions with BAAQMD. The EnviroStor listing indicated that this site is a tiered permit facility that needs evaluation. The RCRA database indicated that this site is a registered small quantity hazardous waste generator with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

Database Listing:	HAZ San Jose, CUPA Santa Clara, RCRA Non Gen, CERS HAZ
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The HAZ San Jose database indicated that this site is categorized as an auto wrecking/miscellaneous simple facility. The CUPA database indicated that this site is a waste oil generator facility. The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. The CERS database indicated that this site is a registered chemical storage facility with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Champion Packaging, Critchfield Mechanical, Stone Container Corporation
Address:	1901 Junction Avenue
Direction:	Northeast
Hydrological Gradient:	Up-Gradient
Database Listing:	RCRA-SQG, CUPA Santa Clara, HHSS, CERS HAZ, Emissions, HIST Tank, RCRA Non Gen, UST SWEEPS
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The RCRA database indicated that this site is a registered small quantity generator of hazardous waste and/or non-generator of hazardous waste with no reported violations. The CUPA database indicated that this site is a registered hazardous waste generator and HMBP facility. The HHSS, HIST Tank and UST SWEEPS databases indicated that this site contained a 500-gallon sump, 2,000-gallon tank and 10,000-gallon diesel tank. The CERS database indicated that this site is a registered chemical storage facility with reported violations. The Emissions listing is associated with permitted air emissions with BAAQMD. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during

	Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

ADJOINING PROPERTY DATABASE LISTING

Property Name:	Second Source Medical LLC, Synmetrix Corporation, Bob's Screen & Graphics, Medeologix, Authentic Machining, Fab-9 Corporation
Address:	2200 Zanker Road
Direction:	Northwest
Hydrological Gradient:	Cross-Gradient
Database Listing:	CUPA Santa Clara, HAZ San Jose, Delisted County, CERS HAZ, Emissions, RCRA Non Gen
Substance Involved:	Not provided
Years of Operation:	Not provided
Status:	N/A
Discussion:	The CUPA database indicated that this site is a registered hazardous waste generator and HMBP facility. The HAZ San Jose database indicated that this site is categorized as an auto wrecking/miscellaneous simple facility. No pertinent information was included in the Delisted County database. The CERS database indicated that this site is a registered hazardous waste generator with reported violations. The Emissions listing is associated with permitted air emissions with BAAQMD. The RCRA database indicated that this site is a registered non-generator of hazardous waste with no reported violations. Based on the lack of reported releases or underground storage tanks, and absence of any evidence of hazardous substance spill/release incidents during Partner's onsite assessment, this site is not expected to represent a significant environmental concern. It is unlikely that a regulatory file review for this site would alter the findings of this assessment.

Based on the findings, vapor migration is not considered an environmental concern at this time.

4.2.4 Surrounding Area Listings of Sites of Concern

One or more nearby properties were identified as a Cleanup Sites in the regulatory database report, as discussed below:

SITES OF CONCERN DATABASE LISTING

Property Name:	Former FMC Facility, FMC Corporation Woodlands Equipment Division, Bill Deane Goodyear, Bay Area Equipment Service, Kuma Auto Repair Body and Paint, Bay Stone, AAA Auto Repair Body and Paint, Mien Tay Auto Body Repair, Titan Auto Body and Repair, Miracle Auto Painting, National USA Express and Auto Repair, SK

	Auto Repair and Body Shop, Pacific Bay Recycling Center
Address:	495 East Brokaw Road
Direction:	Northeast
Hydrological Gradient:	Cross-Gradient
Database Listing:	RCRA Non Gen, RCRA-SQG, Cleanup Sites, Deed, CUPA Santa Clara, CDO/CAO, Haz San Jose, HSOL Santa Clara, CERS HAZ, Delisted HAZ, C&D Debris Recycling
Date of Release:	January 1, 1986
Substance Released:	Trichloroethylene (TCE) and vinyl chloride
Media Impacted:	Soil, Soil Vapor, Groundwater
Date of Closure:	N/A
Responsible Party:	Not provided
Substance Involved:	Trichloroethylene (TCE) and vinyl chloride
Years of Operation:	Not provided
Status:	Active
Discussion:	This site is located approximately 125 feet northeast of the subject property. This site is listing as a Cleanup Program Site under the name Former FMC Facility as having soil, soil vapor and groundwater contamination associated with a release of trichloroethylene (TCE) and vinyl chloride that was opened as of January 1, 1986. As of March 1, 2018, the case status is listed as "open – verification monitoring." This property underwent significant remediation of soil (excavation) and in-situ bioremediation. The most recent groundwater monitoring report available for this case in GeoTracker was prepared by Parsons in January 2024. Site maps in the report identified groundwater monitoring wells to the west and southwest of this site, which contained non-detectable levels of PCE and non-detectable and very low levels of TCE and other VOCs during the October 2023 sampling event. Groundwater impacts and migration are well defined and limited at this site. The identified plume of contamination is depicted primarily on this site with no significant migration to adjoining areas. There are no groundwater monitoring wells on the subject property associated with this release case. Based on remedial efforts performed and information indicating no significant migration of contaminants off this site, it is not expected to represent a significant environmental concern.

Based on the findings, vapor migration is not considered an environmental concern at this time.

4.2.5 Unplottable Listings

No unplottable listings of concern are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM Practice E1527-21, Partner requested the following site information from Prologis (User of this report).

USER RESPONSIBILITIES

Item	Provided By User
AAI User Questionnaire	Yes
Title Records, Environmental Liens, and AULs	No
Specialized Knowledge	Yes
Actual Knowledge	Yes
Valuation Reduction for Environmental Issues	Yes
Identification of Key Site Manager	Yes
Reason for Performing Phase I ESA	Yes
Prior Environmental Reports	Yes

5.1 Interviews

5.1.1 Interview with Owner

The owner of the subject property, identified as AMB Property LP, was not available to be interviewed at the time of the assessment.

5.1.2 Interview with Report User

Prologis, report user, was not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the

subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

5.1.3 Interview with Key Site Manager

A key site manager was not provided to be interviewed at the time of this assessment.

5.1.4 Interviews with Past Owners, Operators and Occupants

Interviews with past owners, operators, and occupants were not conducted since information regarding the potential for contamination at the subject property was obtained from other sources.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

Partner was not provided with title records or environmental lien and AUL information for review as part of this assessment.

5.2.2 Specialized Knowledge

The User did not have specialized knowledge of environmental conditions associated with the subject property at the time of the assessment.

5.2.3 Actual Knowledge of the User

The User was not aware of environmental liens and/or AULs encumbering the subject property or in connection with the subject property at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

The User was not aware of any reductions in property value due to environmental issues.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or reasonably ascertainable within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

The following information was provided to Partner for review during the course of this assessment:

***Phase I Site Assessment, Zanker/Charcot Industrial Park, San Jose, California*, prepared by Dames & Moore dated December 8, 1992**

Dames & Moore prepared this report on behalf of AMB Western Properties Fund. The assessment was reportedly performed in accordance with ASTM Standard E1528-00. The assessment consisted of a site reconnaissance, interviews with knowledgeable personnel, review of historical information, and a review of federal, state, and local regulatory databases. Pertinent information contained in this report is summarized below:

- This report included an assessment of five of the eight buildings at the subject property. Seventeen businesses provided an assortment of warehousing, storage and distribution services at the subject property at that time. The majority of the tenants did not store hazardous materials in excess of small quantities of janitorial and maintenance supplies. The total square footage of the buildings was reported as 301,064 SF. A stormwater sump pump was observed in the loading dock of one of the buildings, as this area tends to flood in heavy rains.
- No evidence indicating potential significant on-site environmental impairment was identified during the review of historical information and regulatory agency documents.

- Dames & Moore recommended the disposal of a 55-gallon plastic drum containing solvents observed at Advance Vending & Food at 2140 Zanker Road and recommended better housekeeping at Custom Circuit Supplies and JD & Associates (2152-56 Zanker Road) including the regular removal of sludge in a phosphoric acid tub.
- Dames & Moore did not recommend further investigation of the subject property at that time.

Copies of pertinent pages reviewed are included in Appendix B of this report.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

SITE ASSESSMENT DATA

Site Assessment Performed By:	Christopher M Olsen
Site Assessment Conducted On:	August 20, 2025

Partner was unaccompanied during the site reconnaissance.

No significant environmental concerns were identified during the onsite reconnaissance.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in commercial dumpsters located throughout the subject property. An independent solid waste disposal contractor, San Jose Green Team, removes solid waste from the subject property. Solid waste generated at the subject property includes household-type waste. No evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges on the subject property are directed into the municipal sanitary sewer system. The City of San Jose services the subject property vicinity. No wastewater treatment facilities were observed or reported on the subject property. No septic systems were observed or reported on the subject property.

6.1.3 Stormwater and Surface Water Drainage

Stormwater is removed from the subject property primarily by sheet flow action across the paved surfaces towards stormwater drains located in the paved parking/drive areas on the property and in the public right of way. On-site stormwater drains discharge to municipal owned and maintained storm sewer system. No drywells were identified on the subject property. One stormwater sump pump is present to prevent flooding of a loading dock during heavy rain.

6.1.4 Source of Heating and Cooling

Heating and cooling systems as well as domestic hot water equipment are fueled by electricity and natural gas provided by Pacific Gas and Electric Company. The mechanical system is comprised of rooftop mounted packaged electrical/natural gas HVAC units located on roofs. Hot water is provided by individual natural gas and electric water heaters.

6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater generated at the subject property is disposed by means of the sanitary sewer system. No industrial processes are currently performed at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 *Additional Site Observations*

A railroad spur was observed on the northeast side of the subject property. Railroad spurs represent potential environmental concerns due to the historical application of oils containing polychlorinated biphenyls (PCBs), herbicides, and arsenic for pest and weed control; the potential presence of creosote on the rail ties; the historical practice of using cinders for track fill material; and the potential for accumulation of heavy metals in near surface soils due to the transportation of trains with lead wheel bearings over the course of time. Concentrations of these constituents of concern resulting from the railroad spur would likely be confined to the near surface soils and are not expected to represent a significant environmental health and safety concern to the occupants of the subject property, or a threat to underlying groundwater. Based on these factors, coupled with the non-residential use of the subject property, the presence of the railroad spur on the subject property is not expected to represent an environmental concern.

6.2 Potential Environmental Hazards

6.2.1 *Hazardous Substances and Petroleum Products Used or Stored at the Site*

Partner identified hazardous substances or petroleum products used, stored, and/or generated on the subject property as noted in the following table. The list below is not meant to be a comprehensive list of all hazardous substances used/stored at the subject property. An inventory was not provided for review (see Section 4.1 for CERS chemical reporting for on-site tenants).

HAZARDOUS SUBSTANCES AND/OR PETROLEUM PRODUCTS NOTED ONSITE

Substance	Container Type	Quantity/ Size	Location	Nature of Use	Secondary Containment	Environmental Concern
Propane	Metal cylinders	Multiple	Multiple units	Fuel for forklifts and equipment	No, Yes	No
Isopropyl alcohol	Plastic containers	Multiple 1-gallon containers	EM Solutions (2152)	Cleaning equipment	Yes	No
Solder paste	Metal containers	Multiple	EM Solutions (2152)	Printed circuit board assembly	Yes	No
Printer inks, cleaners and ink waste	55-gallon drum and smaller containers	Multiple	OKI Graphics (2148/2150)	Print shop	Yes	No
Welding gases, refrigerant, various other compressed gases (carbon dioxide, oxygen, etc.)	Metal cylinders	Multiple	Baker Distributing (2138)	Retail sale	No	No

Various oils and waste oils	Drums	55-gallon drums and smaller containers	TKE (2140)	Offsite elevator maintenance, equipment maintenance	Yes	No

The materials were found to be properly labeled and stored at the time of the assessment with no signs of leaks, stains, or spills. Secondary containment is provided, except for several compressed gas cylinders. Based on nature of use, presence of secondary containment, and lack of violations noted in the regulatory database report, these materials are not considered an environmental concern. Small quantities of general maintenance supplies were found to be properly labeled and stored at the time of the assessment with no signs of leaks, stains, or spills. The storage and use of maintenance supplies does not appear to pose a significant threat to the environmental integrity of the subject property at this time.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

6.2.3 Evidence of Releases

No spills, stains, or other indications that a surficial release has occurred at the subject property were observed.

6.2.4 Polychlorinated Biphenyls (PCBs)

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the US EPA. PCBs in electrical equipment are controlled by US EPA regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

TRANSFORMERS AND HYDRAULIC EQUIPMENT

Type of Equipment	Location	Number	PCB Containing	Concern
Pad-Mounted Transformers	Multiple	Six (6)	Unlikely	No
Vaulted Transformers	Northeast of 2118-2138 Zanker	One (1)	Unlikely	No

The on-site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. Six pad-mounted transformers and one (1) vaulted transformer were observed on the subject property. The transformers are not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformers. Partner contacted a customer service representative of Pacific Gas & Electric (INCLUDE Name and Phone Number), who confirmed that they maintain ownership and operational

responsibility for the transformers and that the units do not contain PCBs. Based on the good condition of the equipment, the transformers are not considered an environmental concern.

No other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during Partner's reconnaissance.

6.2.5 Strong, Pungent or Noxious Odors

No strong, pungent or noxious odors were evident during the site reconnaissance.

6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 Drains, Sumps and Clarifiers

No drains, sumps, or clarifiers, other than those associated with storm water removal, were observed on the subject property during the site reconnaissance.

6.2.8 Pits, Ponds and Lagoons

No pits, ponds, or lagoons were observed on the subject property.

6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

6.2.10 Additional Potential Environmental Hazards and Emerging Contaminants

Partner evaluated the current subject property use during the site reconnaissance for potential environmental hazards, including Per- and Polyfluoroalkyl Substances (PFAS) impacts to the subject property. Based on the site observations, likely PFAS impacts to the subject property based on current use were not identified. Based on this information, PFAS are not considered an environmental concern at this time.

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 Non-ASTM Services

6.3.1 Asbestos-Containing Materials (ACMs)

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building that have not been appropriately tested are "presumed asbestos-containing material" (PACM).

A limited, visual survey of areas accessible from ground level for the presence of suspect ACM at the subject property was conducted. The objective of this visual survey was to note the presence and condition of suspect ACM listed by EPA, OSHA, and other regulatory and recognized sources as suspect ACM and/or considered friable or non-friable. Please refer to the table below for identified suspect ACM:

SUSPECT ACMs

Suspect ACM	Location	Friable Yes/No	Physical Condition
Drywall Systems	Building Interior	No	Good

Floor Tiles / Other Flooring Materials	Building Interior	No	Good
Floor Tile Mastic	Building Interior	No	Good
Acoustical Ceiling Panels / Tiles	Building Interior	No	Good
Roofing Materials	Building Exterior	No	Good

Prior to disturbance, Partner recommends a comprehensive asbestos survey of the property be completed to determine the presence, condition, friability and likely future condition of suspect or confirmed ACM. All suspect materials must be handled as ACM according to local, state and federal regulations until the results of sampling and analysis indicate the material is a non-ACM. According to the US EPA, ACM that is intact and in good condition can, in general, be managed safely in-place under an Operations and Maintenance (O&M) Program until removal is dictated by renovation, demolition, or deteriorating material condition.

Partner was not provided building plans or specifications for review, which may have been useful in determining areas likely to have used ACM.

6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm2 (or 5,000 µg/g or 0.5% by weight) or more of lead. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as “Title X,” to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a “hazard,” although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development (HUD) and the US EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978.

Based on the age of the subject property buildings (pre-1978), there is a potential that LBP is present. Interior and exterior painted surfaces were observed in good condition and therefore not expected to represent a "hazard," although the condition of the paint should be monitored and maintained to ensure it does not become deteriorated.

Actual material samples would need to be collected in order to determine if LBP is present.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

EPA RADON ZONES

EPA Zones	Average Predicted Radon Levels	Potential
Zone 1	Exceed 4.0 pCi/L	Highest
Zone 2	Between 2.0 and 4.0 pCi/L	Moderate

Zone 3	Less than 2.0 pCi/L	Low

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Review of the US EPA Map of Radon Zones places the subject property in Zone 2. Based upon the radon zone classification, radon is not considered an environmental concern.

6.3.4 Lead in Drinking Water

LEAD IN DRINKING WATER SUMMARY

Water System Operator:	San Jose Water Company
Source of Drinking Water:	Blend of Hetch Hetchy water (located in the Sierra Nevada Mountains) and treated water from the San Francisco Public Utilities Commission (SFPUC)
Year of Annual Water Quality Report:	2024
Compliance Status:	Water supplied is in compliance with all State and Federal regulations pertaining to drinking water standards for lead.

Water sampling was not conducted to verify water quality.

6.3.5 Microbial Growth

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g.in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

Partner observed accessible, interior areas of the subject property buildings for significant evidence of microbial growth with the exceptions detailed in Section 1.5 of this report; however, this assessment should not be used as a microbial survey or inspection. Additionally, this limited assessment was not designed to assess all areas of potential microbial growth that may be affected by microbial growth on the subject property. Rather, it is intended to give the client an indication as to whether or not conspicuous (based on observed areas) microbial growth is present at the subject property. This evaluation did not include a review of pipe chases, mechanical systems, or areas behind enclosed walls and ceilings.

The following indications of water damage or microbial growth were observed during Partner's visual assessment:

MICROBIAL GROWTH OBSERVATIONS

Location of area affected	Condition
Lockheed Martin (326 Charcot Avenue)	Partner observed an active roof leak with evidence of condensate dripping into plastic bins in the warehouse. No mold was observed in the area of water intrusion.

The source of water intrusion should be addressed to prevent additional damage to building materials and mold growth.

6.3.6 *Wetlands*

The subject property does not appear to be a potential wetland area based on information obtained from the United States Fish and Wildlife Service's Online Wetlands Mapper. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

6.4 Adjoining Property Reconnaissance

The adjoining property reconnaissance consisted of observing the adjoining properties from the subject property premises.

6.4.1 *Hazardous Substances and Petroleum Products Used or Stored at the Site*

The adjoining property to the northeast (Hill Brothers Chemical, 410 Charcot Avenue) is a chemical company with multiple ASTs. Refer to Section 4.2.3 for a discussion of this adjoining property.

6.4.2 *ASTs/USTs for Hazardous Substances or Petroleum Products*

The adjoining property to the northeast (Hill Brothers Chemical, 410 Charcot Avenue) is a chemical company with multiple ASTs. Refer to Section 4.2.3 for a discussion of this adjoining property.

6.4.3 *Evidence of Releases*

No evidence of a release was observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.4 *PCBs*

Several pad-mounted transformers were observed on the adjoining properties. No staining or leakage was observed in the vicinity of the transformers. Based on these observations, the presence of adjoining transformers is not considered an environmental concern.

6.4.5 *Strong, Pungent, or Noxious Odors*

No strong, pungent, or noxious odors were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.6 *Pools of Liquid*

No pools of liquid were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.7 *Drains, Sumps, and Clarifiers*

No drains, sumps, or clarifiers were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.8 *Pits, Ponds, and Lagoons*

No pits, ponds, or lagoons were observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.9 *Stressed Vegetation*

No stressed vegetation was observed on adjoining properties during the limited adjoining property reconnaissance.

6.4.10 Additional Potential Environmental Hazards and Emerging Contaminants

Partner evaluated the current adjoining property use/uses during the site reconnaissance for potential environmental hazards, including PFAS impacts to the subject property. Based on observations made from the subject property borders, likely emerging contaminants or PFAS impacts to the subject property from current adjoining property use/uses were not identified. Based on this information, PFAS are not considered an environmental concern.

No additional environmental hazards were observed on adjoining properties during the limited adjoining property reconnaissance.

7.0 VAPOR ENCROACHMENT CONDITIONS

Partner conducted a limited non-intrusive vapor screening on the subject property to identify, to the extent feasible, the potential for vapor encroachment conditions (VECs) in connection with the subject property. This included consideration of chemicals of concern (COC) that may migrate as vapors into the subsurface of the subject property as a result of contaminated soil and groundwater on or near the property.

This screening utilized readily available data sources previously discussed in this Phase I ESA that includes:

- the physical setting of the subject property (Section 2.4),
- standard historical sources for the subject property, adjoining, and surrounding area (Section 3.0),
- known or potentially contaminated sites as identified from information from regulatory agencies and sites on Federal, State, tribal and local databases (Section 4.0), and
- information from the site reconnaissance (Section 6.0) of the subject property and observations of the surrounding properties.

The results of our data collection, reconnaissance, and analysis are tabulated below:

POTENTIAL FOR VAPOR ENCROACHMENT TO IMPACT THE SUBJECT PROPERTY

Area of Concern	Likely or Known VEC to Subject Property
Subject Property Existing Operations or Conditions (Sections 2.0 and 6.0)	None identified that impact the subject property.
Historical Uses of the Subject Property (Section 3.0)	None identified that impact the subject property.
Adjoining Property Operations or Existing Conditions (Sections 2.3 and 6.4)	None identified that impact the subject property.
Historical Uses of Adjoining Properties or Nearby Properties (Section 3.0)	None identified that impact the subject property.
Regulatory Review of sites identified on Federal, State, tribal and Local Environmental Databases which were located in the AMSD (Section 4.0)	None identified that impact the subject property.

Based on the findings of the limited non-intrusive vapor screening, vapor intrusion is unlikely to be an issue of concern in connection with the existing structures on the subject property. As such, no further assessment is recommended.

8.0 FINDINGS AND CONCLUSIONS

Findings and Opinions

Recognized Environmental Condition

A recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

- Partner did not identify RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A controlled recognized environmental condition (CREC) refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify HRECs during the course of this assessment.

Business Environmental Risk

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice.

- Partner did not identify BERs during the course of this assessment.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, Santa Clara County, California (the “subject property”). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of RECs, CRECs, HRECs, or BERs in connection with the subject property. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

9.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 326-346 Charcot Avenue; 309-391 East Brokaw Road; and 2012-2156 Zanker Road in San Jose, Santa Clara County, California in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

RE: CITY DIRECTORY RESEARCH
326 Charcot Avenue, 309-361 Brokaw Road, and 2140-2054 Zanker Road
SAN JOSE,CA 95131

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
BEG-450 of Charcot Ave
150-500 of E Brokaw Rd
BEG-2250 of Junction Ave
1900-2325 of Zanker Rd

TOPOGRAPHIC MAPS

Project Property:	Brokaw
	326 Charcot Avenue, 309-361 Brokaw Road, and 2140-2054 Zanker Rc
	SAN JOSE CA 95131
Project No:	25-511822.2
Requested By:	Partner Engineering and Science, Inc.
Order No:	25080800946
Date Completed:	August 11, 2025

Environmental Risk Information Services
A division of Glacier Media Inc.
1.866.517.5204 | info@erisinfo.com | erisinfo.com

We have searched USGS collections of current topographic maps and historical topographic maps for the project property. Below is a list of maps found for the project property and adjacent area. Maps are from 7.5 and 15 minute topographic map series, if available.

Year	Map Series
1889	15
1897	15
1899	15
1943	15
1953	15
1961	15
1968	7.5
1973	7.5
1980	7.5
2015	7.5
2018	7.5
2021	7.5

Topographic Map Symbology for the maps may be available in the following documents:

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: PRESIDENT Date: 7/22/04

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OF CIAL NOTICE OF INSPECTION PLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC §25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC §25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC §25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at P.O. Box 28070, San Jose, CA 95159-8070.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

Hazardous Waste Violations

- **Per H&SC, Section 25187.8(g)(1), failure to sign the certification on this Notice of Inspection and return it to this Department is a violation of State law.**
- **Per H&SC, Section 25191, a false statement that compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per H&SC, Section 25187.8(j), this Department has the right to acquire the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

THE OF IAL NOTICE OF INSPECTION I LAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or - for those violations which are impossible to correct within 30 days - propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection. Your description of corrective actions taken, along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection. Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be submitted to HMCD. The pink copy is for your records.

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection, you must submit a written Notice of Disagreement, within 35 days of the inspection date, to the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this Notice of Inspection to dispute violations.

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this Notice of Inspection. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

Hazardous Waste Inventory Information:

The annual permit fee is determined by the total quantity of hazardous waste generated per year. Complete the table below for all hazardous waste inventory *(e.g. used oil, used parts cleaning solvent, used oil filters, waste paint, spent fixer, etc.)*.

Name of Hazardous Waste	Treatment/Disposal Method(s) *(Definitions provided on back of form.)*	Annual Quantity Generated*
WASTE FLUX	☐ Recycled on-site. ☐ Treated on-site. ☑ Shipped off-site for recycling/treatment/disposal.	15 ☒ gal. ☐ lbs.
SOLDER DROSS	☐ Recycled on-site. ☐ Treated on-site. ☑ Shipped off-site for recycling/treatment/disposal.	400 ☐ gal. ☒ lbs.
	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.
	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.
	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.
	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.
	☐ Recycled on-site. ☐ Treated on-site. ☐ Shipped off-site for recycling/treatment/disposal.	☐ gal. ☐ lbs.

* *Solids must be reported in pounds. Liquids may be reported in either pounds or gallons.*

The undersigned hereby applies for a hazardous waste generator permit from the County of Santa Clara. I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves, or begins generating hazardous wastes which are not listed on this application.

Signature of Owner/Operator: Zulqarnain Title: President Date: 8/26/02

Definitions of Treatment/Disposal Methods

Recycled on-site: The facility takes the waste or any constituent of the waste, treated or not, and reuses it on-site or ships it off-site as an Excluded Recyclable Material.

Treated on-site: The facility employs any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of the hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to, energy recovery, material recovery, or reduction in volume *(e.g. pH adjustment, evaporation, precipitation, filtration, distillation, compacting, etc.)*. If, after treatment, the material is reused at the facility, the "Recycled on-site" box in the waste inventory table should be checked.

Shipped off-site for recycling/treatment/disposal: The facility sends the waste, or any hazardous treatment residual, to an off-site permitted treatment, storage, or disposal facility (TSDF).

Note: Depending on how a waste or its constituents are recycled and/or treated, more than one treatment/disposal category may apply. All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities: Do not list medical (i.e. red bag) wastes on this form.

Hazardous Waste Inventory Information

The annual permit fee is determined by the total quantity of hazardous waste generated per year Complete the table below for all hazardous waste inventory *(e g used oil, used parts cleaning solvent used oil filters, waste paint, spent fixer, etc)*

Name of Hazardous Waste	Treatment/Disposal Method(s) *(Definitions provided on back of form.)*	Annual Quantity Generated*
Waste Ink Cans	☐ Recycled on site ☐ Treated on site ☒ Shipped off site for recycling/treatment/disposal	~~less than~~ ~~50~~ ~800 ~~gal~~ ☒ lbs
Solvent / Ink waste	☐ Recycled on-site ☐ Treated on site ☐ Shipped off site for recycling/treatment/disposal	~55 ☒ gal ☐ lbs.
	☐ Recycled on site ☐ Treated on site ☐ Shipped off site for recycling/treatment/disposal	☐ gal ☐ lbs.
	☐ Recycled on site ☐ Treated on-site ☐ Shipped off site for recycling/treatment/disposal	☐ gal ☐ lbs
	☐ Recycled on site ☐ Treated on-site ☐ Shipped off-site for recycling/treatment/disposal	☐ gal ☐ lbs
	☐ Recycled on site ☐ Treated on site ☐ Shipped off site for recycling/treatment/disposal	☐ gal ☐ lbs
	☐ Recycled on site ☐ Treated on site ☐ Shipped off site for recycling/treatment/disposal	☐ gal ☐ lbs.

* *Solids must be reported in pounds Liquids may be reported in either pounds or gallons*

The undersigned hereby applies for a hazardous waste generator permit from the County of Santa Clara I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves or begins generating hazardous wastes which are not listed on this application

Signature of Owner/Operator _____ Title president Date 04 / 19 / 04

Definitions of Treatment/Disposal Methods

Recycled on-site The facility takes the waste or any constituent of the waste treated or not, and reuses it on site or ships it off site as an Excluded Recyclable Material

Treated on site The facility employs any method, technique or process which changes or is designed to change the physical chemical or biological character or composition of the hazardous waste or any material contained therein or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to energy recovery material recovery or reduction in volume *(e g pH adjustment evaporation precipitation filtration, distillation, compacting etc)* If after treatment, the material is reused at the facility the "Recycled on site box in the waste inventory table should be checked

Shipped off site for recycling/treatment/disposal The facility sends the waste or any hazardous treatment residual to an off site permitted treatment, storage or disposal facility (TSDF)

Note Depending on how a waste or its constituents are recycled and/or treated more than one treatment/disposal category may apply All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities Do not list medical (i e red bag) wastes on this form

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection including all violations and any actions that must be taken by the facility to correct the violations All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector

Within five working days of achieving compliance or within 35 days of the inspection whichever comes first you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance Where proposed corrective actions are described you must specify a date by which you expect each violation to be corrected After you have addressed each violation complete the certification box located at the bottom of page 1 of the NOI **Your description of corrective actions taken along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive Suite 300 San Jose CA 95112 2716 The effective date of the certification that any violation has been corrected is the date that it is postmarked

What Does the Information in Each Column Mean?

Violation Code Codes listed in this column identify specific violations of laws regulations or codes which were observed during this inspection Definitions of Violation Codes are listed on the attached Violation Codes document(s)

Summary of Violations, Notice to Comply Observations, and Required Corrective Actions Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected Additionally the inspector may use this space to note any additional observations resulting from the inspection

Corrective Actions Taken This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation Where proposed corrective actions are described you must specify a date by which you expect each violation to be corrected If more space is needed attach additional pages

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1 The yellow copy of each page must be returned to HMCD The pink copy is for your records**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date Address such notices to the attention of the inspector who cited the violation In your Notice of Disagreement you must explain in detail why you believe the violation does not exist If there is sufficient space you may use the 'Corrective Actions Taken column of this NOI to dispute violations

What About Photographs or Samples Taken During the Inspection?

If samples were taken split samples will be given to you upon request Since this NOI was prepared and given to you at the end of the inspection any photographs and sampling or laboratory results associated with the inspection were not yet available A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request Other pertinent information derived from the inspection is attached to this NOI Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation

****

- **Per HSC §§25187.8(b) and 25404 1.2(c) failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law**
- **Per HSC §25404 1.2(c)(2) a false statement that compliance has been achieved is a misdemeanor**
- **Per HSC §25191(b) a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25 000 and/or imprisonment in the county jail for up to one year**
- **Per HSC §§25299(a)(8) and (b)(7) a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5 000**
- **Per HSC §§25187 8(i) HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility**

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1 The yellow copy of each page must be returned to HMCD The pink copy is for your records**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date Address such notices to the attention of the inspector who cited the violation In your Notice of Disagreement you must explain in detail why you believe the violation does not exist If there is sufficient space you may use the Corrective Actions Taken column of this NOI to dispute violations

What About Photographs or Samples Taken During the Inspection?

If samples were taken split samples will be given to you upon request Since this NOI was prepared and given to you at the end of the inspection any photographs and sampling or laboratory results associated with the inspection were not yet available A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request Other pertinent information derived from the inspection is attached to this NOI Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation

******

- **Per HSC §§25187.8(b) and 25404 1.2(c), failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law**
- **Per HSC §25404 1.2(c)(2), a false statement that compliance has been achieved is a misdemeanor**
- **Per HSC §25191(b), a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2 000 or more than $25 000 and/or imprisonment in the county jail for up to one year**
- **Per HSC §§25299(a)(8) and (b)(7) a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5,000**
- **Per HSC §§25187 8(i), HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility**

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (Notice of Inspection) describes the findings made during the inspection including all violations and any actions that must be taken by the facility to correct the violations All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector

Within five working days of achieving compliance or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or for those violations which are impossible to correct within 30 days propose to take in order to bring your facility into compliance Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the Notice of Inspection Your description of corrective actions taken along with your signed certification of the Notice of Inspection and any required supporting documents, will serve as your written response to the inspection Your response must be mailed to the Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive Suite 300 San Jose CA 95112 2716

What Does the Information in Each Column Mean?

Violation Code Codes listed in this column identify specific violations of laws regulations, or codes which were observed during this inspection Definitions of Violation Codes are listed on the attached Violation Codes document(s)

Summary of Violations, Notice to Comply Observations, and Required Corrective Actions Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected Additionally the inspector may use this space to note any additional observations resulting from the inspection

Corrective Actions Taken This column on the Notice of Inspection has been provided so that you can note how you have corrected or propose to correct each violation Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1 The yellow copy of each page must be submitted to HMCD The pink copy is for your records

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this Notice of Inspection you must submit a written Notice of Disagreement, within 35 days of the inspection date to the inspector who cited the violation In your Notice of Disagreement, you must explain in detail why the violation does not exist. If there is sufficient space you may use the "Corrective Actions Taken column of this Notice of Inspection to dispute violations

What About Photographs or Samples Taken During the Inspection?

Since this Notice of Inspection was prepared and given to you at the end of the inspection any photographs and sampling or laboratory results associated with the inspection were not yet available A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request Other pertinent information derived from the inspection is attached to this Notice of Inspection Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation

Emergency Response/Contingency Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC§ 25504(b); 19 CCR §2731; 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste (or more than 1 kilogram of acutely hazardous waste or 100 kilograms of debris resulting from the spill of an acutely hazardous waste) per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a hazardous waste contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). **If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.**

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** A copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e., contractual) emergency services arrangements have been made *(see section 3, below)*.

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☐ Horns/Sirens; ☒ Verbal *(i.e., shouting)*; ☐ Other *(specify* _____

b. ☒ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:

Fire/Police/Ambulance ..... Phone No.: **911**

State Office of Emergency Services ..... Phone No.: **(800) 852-7550**

b. Post-Incident Contacts*:

Certified Unified Program Agency (CUPA) ..... Phone No.: **(408) 615-4960**

Local Hazardous Materials Program ..... Phone No.: **(408) 535-7692**

California EPA Department of Toxic Substances Control ..... Phone No.: **(510) 540-3739**

Cal-OSHA Division of Occupational Safety and Health ..... Phone No.: **(408) 452-7288**

Air Quality Management District ..... Phone No.: **(415) 771-6000**

Regional Water Quality Control Board ..... Phone No.: **(510) 622-2300**

*** Phone numbers for agencies in Unidocs Member Agency geographic jurisdictions are available at www.unidocs.org.**

c. Emergency Resources:

Poison Control Center* ..... Phone No.: **(800 222-1222)**

Nearest Hospital: Name: O'conner Hospital Phone No.: (408) 947 - 2500

Address: 2105 Forest AVE City: San Jose, CA 95128

3. Arrangements With Emergency Responders:

If you have made special (i.e., contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

4. Emergency Procedures:

Emergency Coordinator Responsibilities:

a. Whenever there is an imminent or actual emergency situation such as a explosion, fire, or release, the emergency coordinator *(or his/her designee when the emergency coordinator is on call)* shall:
   i. Identify the character, exact source, amount, and areal extent of any released hazardous materials.
   ii. Assess possible hazards to human health or the environment that may result from the explosion, fire, or release. This assessment must consider both direct and indirect effects *(e.g., the effects of any toxic, irritating, or asphyxiating gases that are generated, the effects of any hazardous surface water run-off from water or chemical agents used to control fire, etc.).*
   iii. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
   iv. Notify appropriate local authorities *(i.e., call 911).*
   v. Notify the State Office of Emergency Services at 1-800-852-7550.
   vi. Monitor for leaks, pressure build-up, gas generation, or ruptures in valves, pipes, or other equipment shut down in response to the incident.
   vii. Take all reasonable measures necessary to ensure that fires, explosions, and releases do not occur, recur, or spread to other hazardous materials at the facility.

b. Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall:
   i. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from a explosion, fire, or release at the facility.
   ii. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.
   iii. Ensure that all emergency equipment is cleaned, fit for its intended use, and available for use.
   iv. Notify the California Environmental Protection Agency's Department of Toxic Substances Control, the local CUPA, and the local fire department's hazardous materials program that the facility is in compliance with requirements b-i and b-ii, above.

Responsibilities of Other Personnel:

On a separate page, list any emergency response functions not covered in the "Emergency Coordinator Responsibilities" section, above. Next to each function, list the job title or name of each person responsible for performing the function. Number the page(s) appropriately.

5. Post-Incident Reporting/Recording:

The time, date, and details of any hazardous materials incident that requires implementation of this plan shall be noted in the facility's operating record.

Within 15 days of any hazardous materials emergency incident or threatened hazardous materials emergency incident that triggers implementation of this plan, a written Emergency Incident Report, including, but not limited to a description of the incident and the facility's response to the incident, must be submitted to the California Environmental Protection Agency's Department of Toxic Substances Control, the local CUPA, and the local fire department's hazardous materials program. The report shall include:

a. Name, address, and telephone number of the facility's owner/operator;
b. Name, address, and telephone number of the facility;
c. Date, time, and type of incident *(e.g., fire, explosion, etc.)*;
d. Name and quantity of material(s) involved;
e. The extent of injuries, if any;
f. An assessment of actual or potential hazards to human health or the environment, where this is applicable;
g. Estimated quantity and disposition of recovered material that resulted from the incident;
h. Cause(es) of the incident;
i. Actions taken in response to the incident;
j. Administrative or engineering controls designed to prevent such incidents in the future.

6. Earthquake Vulnerability: [19 CCR §2731(e)]

As an attachment to this plan, you must identify any areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake-related ground motion.

7. Hazard Mitigation/Prevention/Abatement [19 CCR §2731(c)]

As an attachment to this plan, you must include procedures that provide for mitigation, prevention, or abatement of hazards to persons, property, or the environment. These procedures must be scaled appropriately for the size and nature of the business, the nature of the damage potential of the hazardous materials handled, and the proximity of the business to residential areas and other populations.

Occupancy ID: 43-060-4019-6
Business Name: OKI Graphic, INC
Business Address: 2148 Zanker Rd San Jose, CA 95131
HMBP Date: 11/09/2010

Earthquake Vulnerability

As an attachment to this plan, you must identify any areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake-related ground motion.

Check for structural integrity.
Check containers for release.
Clean up observed spills.

Areas to be checked: Rack, Hazardous Materials

Hazard Mitigation/ Prevention/Abatement

After dealing with the safety of all employees and their accountability and no obvious dangerous conditions are evident entry back into the building will be made and a survey of all parts of the building will be conducted.

These actions may include, but are not limited to, inspection of all Hazardous Material storage areas, verification that existing utilities are functional or nonfunctional, clean up of any observed spills that have escaped secondary containment if equipment and personnel are available to conduct this activity.

Signature of responsible party or representative Yoon Kim

Date 11/09/10

8. Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Locations *	4. Description**
Personal Protective Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators		
	☐ Chemical Monitoring Equipment *(describe)*		
	☐ Chemical Protective Aprons/Coats		
	☒ Chemical Protective Boots		
	☐ Chemical Protective Gloves		
	☐ Chemical Protective Suits *(describe)*		
	☐ Face Shields		
	☐ First Aid Kits/Stations *(describe)*		
	☐ Hard Hats		
	☐ Plumbed Eye Wash Stations		
	☐ Portable Eye Wash Kits *(i.e., bottle type)*		
	☐ Respirator Cartridges *(describe)*		
	☒ Safety Glasses/Splash Goggles		
	☐ Safety Showers		
	☐ Self-Contained Breathing Apparatuses (SCBA)		
	☐ Other *(describe)*

Employee Training Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(c); 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written employee training plan. This plan is a required module of the Hazardous Materials Business Plan (HMBP). A blank plan has been provided below for you to complete and submit if you do not already have such a plan. **If you already have a brief written description of your training program that addresses all subjects covered below, you are not required to complete the blank plan, below, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. *[Note: Items marked with an asterisk (*) are required.]*:

1. **Personnel** are trained in the following procedures:

☒	Internal alarm/notification *
☒	Evacuation/re-entry procedures & assembly point locations*
☐	Emergency incident reporting
☐	External emergency response organization notification
☐	Location(s) and contents of Emergency Response/Contingency Plan
☐	Facility evacuation drills, that are conducted at least *(specify)*: *(e.g., "Quarterly", etc.)*

2. **Chemical Handlers** are additionally trained in the following:

☒	Safe methods for handling and storage of hazardous materials *
☐	Location(s) and proper use of fire and spill control equipment
☐	Spill procedures/emergency procedures
☒	Proper use of personal protective equipment *
☒	Specific hazard(s) of each chemical to which they may be exposed, including routes of exposure *(i.e., inhalation, ingestion, absorption)* *
☒	**Hazardous Waste Handlers/Managers** are trained in all aspects of hazardous waste management specific to their job duties *(e.g., container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.)* *

3. **Emergency Response Team Members** are capable of and engaged in the following:

Complete this section only if you have an in-house emergency response team

☐	Personnel rescue procedures
☐	Shutdown of operations
☐	Liaison with responding agencies
☐	Use, maintenance, and replacement of emergency response equipment
☒	Refresher training, which is provided at least annually *
☐	Emergency response drills, which are conducted at least *(specify)*: yearly *(e.g., "Quarterly", etc.)*

Record Keeping

(Hazardous Materials Business Plan Module) Page ____ of____

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your record keeping procedures is a required module of the Unidocs Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials record keeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. *[Note: Items marked with an asterisk (*) are required.]*:

☒	Current employees' training records *(to be retained until closure of the facility)* *
☒	Former employees' training records *(to be retained at least three years after termination of employment)* *
☒	Training Program(s) *(i.e., written description of introductory and continuing training)* *
☒	Current copy of this Emergency Response/Contingency Plan *
☒	Record of recordable/reportable hazardous material/waste releases *
☒	Record of hazardous material/waste storage area inspections *
☒	Record of hazardous waste tank daily inspections *
☐	Description and documentation of facility emergency response drills

Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.

Note: The following section applies where local agencies require facility owners/operators to perform and document routine facility self-inspections:

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-inspections of your facility must be submitted with your HMBP. *[Exception: Unidocs provides a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the Unidocs form (available at* **www.unidocs.org***), you do not need to attach a copy.]*

Check the appropriate box:

☒	We will use the Unidocs "Hazardous Materials/Waste Storage Area Inspection Form" to document inspections.
☐	We will use our own documents to record inspections. ***(A blank copy of each document used must be attached to this HMBP.)***

FA 256797

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION FORM

For Use by Unidocs Member Agencies or where approved by your Local Jurisdiction
Authority Cited: Health and Safety Code §25503.3(c); 19 CCR §2729.5(c)

To: Agency Name: **Santa Clara County Hazardous Materials Compliance Division (HMCD)**
Agency Mailing Address: **1555 Berger Drive, Suite 300**
San Jose, CA 95112-2716

Pursuant to Section 25503.3(c) of California Health and Safety Code (HSC), the Hazardous Materials Business Plan (HMBP) certification described below is hereby submitted for the following facility:

Facility Name: OKI Graphics, Inc.
Facility Street Address: 2148 Zanker Rd. City: San Jose
Date of Current HMBP: 11/9/10

I certify that: *(Check the appropriate box.)*

☐ I have personally reviewed the Hazardous Materials Business Plan currently on file with your agency and certify that the HMBP is complete and accurate. *(See bottom of page for details.)* If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, I have submitted the following documents with this Certification Form: Unified Program Consolidated Form (UPCF) Business Activities page; UPCF Business Owner/Operator Identification page with current signature and date; Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page for all Extremely Hazardous Substances (EHS) handled at or above their Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.

or

☒ Revisions to the Hazardous Materials Business Plan are necessary. The HMBP as revised is complete and accurate and is being implemented. A copy of the revisions has been electronically submitted or is enclosed with this Certification along with a signed UPCF Business Owner/Operator Identification page and UPCF Business Activities page if the HMBP revision include changes to the Hazardous Materials Inventory Statement.

OWNER/OPERATOR CERTIFICATION: I hereby certify under penalty of law that, based upon my inquiry of those individuals responsible for obtaining the information reported above, I believe that the submitted information is true, accurate, and complete. I understand that a revised HMBP must be submitted within 30 days of any change in this facility's storage or handling of hazardous materials that would require updating of the HMBP.

Name of Owner/Operator *(Print)*: Yoon Kim Title: President
Phone: (408) 451-9294 Signature: [signature] Date: 4/13/2012

By checking the upper box on this form, you are certifying that:

- The information contained in the HMBP most recently submitted is complete, accurate, and up-to-date; **and**
- There has been no change in the quantity of any hazardous material as reported in the most recently submitted Hazardous Materials Inventory forms; **and**
- The facility has not begun handling any hazardous material in a HMBP reportable quantity that is not currently listed in the Hazardous Materials Inventory; **and**
- The most recently submitted HMBP contains the information required by Section 11022 of Title 42 of the United States Code; **and**
- There have been no substantial changes in the facility's operations that would require revision of the current HMBP.

Summary of Violations & Notice to Comply

Program: PR0375051 - HAZARDOUS WASTE GENERATOR - 2205
Inspection Type: ROUTINE INSPECTION-COMPLETED

VC	Class	Violation	Corrective Actions Taken
G020	M	**MARKING OF HAZARDOUS WASTE** Facility failed to properly mark a hazardous waste tank and/or container. ***OBSERVED A 15 G CONTAINER OF SPENT FIXER NOT MARKED.*** Mark all hazardous waste tanks with the words "HAZARDOUS WASTE" and the accumulation start date. Mark all hazardous waste containers and portable tanks with the words "HAZARDOUS WASTE;" the accumulation start date; the name and address of the generator; and the composition, physical state, and hazardous properties of the waste. Additionally, mark used oil containers, aboveground tanks, and fill pipes for underground tanks with the words "USED OIL." [CCR 66262.34(f), 66279.21(b)]	
G031	II	**ACCUMULATION TIME: POINT OF GENERATION** Facility accumulated hazardous waste at the point of generation for longer than the allowed time limit. ***THE 15 G CONTAINER OF SPENT FIXER HAS BEEN ON SITE LONGER THAN 1 YEAR.*** Make arrangements for the immediate removal of the waste. Submit to HMCD a copy of the manifest or consolidated manifest receipt demonstrating that the waste was removed. Ensure that point of generation wastes are not held on-site for longer than one year, or the applicable accumulation time limit (90/180/270 days) after the date the quantity limit was reached, whichever comes first. The quantity limit for each wastestream is 55 gallons for hazardous waste, or 1 quart for acutely/extremely hazardous waste. [CCR 66262.34(e)(1)(B)]	
G430	M	**MANAGEMENT OF CONTAMINATED RAGS** Facility managed hazardous waste as exempt "reusable soiled textile materials" (i.e., contaminated rags), but did not meet requirements for exemption. ***OBSERVED A COUPLE OF RAGS IN THE SINK AREA THAT WERE WET.*** Begin managing the waste as hazardous waste, or meet all of the following: 1) the rags must be sent to an authorized commercial laundry facility, and 2) the rags must not: a) be regulated under RCRA; b) be used to clean up or control a reportable spill or release; c) be contaminated with any hazardous waste added after the original use of the rags; and d) release any free liquids. [HSC 25144.6]

VC	Class	Violation	Corrective Actions Taken
S125		**PROPERTY OWNER NOTIFICATION** Facility failed to notify the property owner in writing that it is subject to and in compliance with Hazardous Materials Business Plan requirements. ***FACILITY FAILED TO NOTIFY THE PROPERTY OWNER.*** Submit this written notification to the property owner. Submit a a copy of the notification to HMCD and keep a copy for your records. A sample notification letter (Form UN-053) is available at www.EHinfo.org/hazmat. [HSC 25503.6]	
S130		**EMERGENCY RESPONSE TRAINING** Facility is subject to the Hazardous Materials Business Plan (HMBP) requirements, but failed to provide employees with required hazardous materials emergency response training. ***EMPLOYEES ARE TRAINED NOT BEING TRAINED AS REQUIRED.*** Provide initial training for new employees and annual training for all employees. The training must cover relevant emergency response procedures for hazardous materials releases and threatened releases, as described in the HMBP. [HSC 25504(c), 19 CCR 2732]	
Comments:			

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 02/28/2013, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. Summary of Violations & Notice to Comply

VC	Class	Violation	Corrective Actions Taken
B125	M	**HMBP FACILITY PROPERTY OWNER NOTIFICATION [1010011]** Operator of a facility located on leased or rented real property failed to notify the property owner in writing that the facility is subject to and in compliance with Hazardous Materials Business Plan (HMBP) requirements. ***Facility has not notified the property owner of HMBP activities on site. A template notification letter will be provided to the facility via email along with this report.*** Comply with all other HMBP violations noted in this inspection report and then provide written notification of compliance to your property owner. Submit a copy of the notification to HMCD and keep a copy for your records. A sample notification letter (Form UN-053) is available at www.sccgov.org/sites/hazmat/programs/hmbp/Pages/home.aspx. [HSC 25505.1]	
B130	II	**HMBP EMERGENCY RESPONSE TRAINING DOCUMENTATION [1020002]** Facility operator failed to provide initial and annual training to all employees in emergency response and safety procedures or failed to document and maintain training records for a minimum of three years. ***Facility conducts training upon employee hire but does not have an annual training. Training is required to be conducted and logged for each employee upon hire and annually thereafter.*** ***Conduct and log a training within 30 days.*** Provide initial training for new employees and annual refresher training for all employees. The training shall cover emergency and safety procedures in the event of a release or threatened release of a hazardous material, as described in the facility's Hazardous Materials Business Plan. Training must be documented electronically or by hard copy. Make a minimum of three years of training records available for inspection by HMCD. [HSC 25505(a)(4), 19 CCR 2658, 19 CCR 2659(b)]	

Comments: On site on 6/12/2024 to perform a routine hazardous materials business plan inspection. Inspection is concluded with issuance of this report.

Facility is a medium sized print shop. Hazardous materials stored on site primarily consist of waste ink and ink containers and gloss coatings.

The following hazardous materials were observed on site above reportable quantity:

- 4 x 55 gallon drums of Procoat AQ gloss coating
- 1 x 55 gallon drum of waste ink.
- 15 x 55 gallon drums of waste ink containers.

The following other elements were checked for compliance as part of this inspection:

- Partial CERS submittal under CERS ID # 10349335.
- Employee training not logged or conducted.
- Property owner not verified.

Action Items/Notes to Facility:

1) Violations are marked in this report. Take the required corrective action within 30 days.

Summary of Violations & Notice to Comply

Program: PR0375051 - HAZARDOUS WASTE GENERATOR - 2205
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
G020	M	**MARKING OF HAZARDOUS WASTE [3030007]** Facility failed to properly mark a hazardous waste tank and/or container. ***The following hazardous waste containers were not sufficiently marked:*** ***- The 15 drums of ink containers were mostly devoid of any labeling. Two drums were found with illegible labels missing all information.*** ***- The 55 gallon drum of waste ink did not have an accumulation start date.*** ***Ensure all hazardous waste containers are properly marked with all required information.*** Mark all hazardous waste tanks with the words "HAZARDOUS WASTE" and the accumulation start date. Mark all hazardous waste containers and portable tanks with the words "HAZARDOUS WASTE;" the accumulation start date; the name and address of the generator; and the composition, physical state, and hazardous properties of the waste. If they contain used oil, mark used oil containers, aboveground tanks, and fill pipes for underground tanks with the words "USED OIL." [CCR 66262.16(b)(6), 66262.17(a)(5), 66279.21(b)]	
G035	II	**ACCUMULATION TIME: POINT OF GENERATION [3030057]** Facility accumulated hazardous waste at the point of generation for longer than the allowed time limit. ***The 55 gallon drum of ink may be treated as point of generation satellite waste, however, the facility stated that it has not been disposed of since 2020. Point of generation waste may be accumulated for up to 365 days.*** ***Dispose of this drum within 30 days.*** Make arrangements for the immediate removal of the waste. Submit to HMCD a copy of the manifest or consolidated manifest receipt demonstrating that the waste was removed. Ensure that point of generation wastes are not held on-site for longer than one year, or the applicable accumulation time limit (90/180/270 days) after the date the quantity limit was reached, whichever comes first. The quantity limit for each wastestream is 55 gallons for hazardous waste, or 1 quart for acutely/extremely hazardous waste. [HSC 25123.3(d)(3), 25200.3.1(b)(4)]	
G200	II	**ACCUMULATION TIME: SQG [3030010]** Facility accumulated hazardous waste on-site for longer than the time allowed for a small quantity generator of hazardous waste (180 days, or 270 days when transported over 200 miles). ***Facility stated that the 15 drums of waste ink containers had been accumulating since 2020. As a small quantity generator all non point of generation satellite waste must be disposed of within 180 days.*** ***Dispose of these drums within 30 days.*** Make arrangements for the immediate removal of the waste. Submit to HMCD a copy of the manifest(s) or consolidated manifest receipt(s) demonstrating that the waste has been removed. Ensure that hazardous wastes are not held on-site for longer than 180 days when transported up to 200 miles, or 270 days when transported over 200 miles. [HSC 25123.3(h)(1), CCR 66262.16(b)]	

Comments: On site on 6/12/2024 to perform a routine hazardous waste generator inspection. Inspection is concluded with issuance of this report.

DocuSign Envelope ID: 256F935F-9D08-4D66-9D19-FEC75AEC822C

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0256797
Facility Name: OKI GRAPHICS, INC
Site Address: 2148 ZANKER RD, SAN JOSE, CA 95131
Inspection Date: 06/13/2024

Summary of Violations & Notice to Comply

Facility is a medium sized print shop. Hazardous waste generated on site primarily consists of waste ink and ink containers.

The following hazardous wastes were observed on site during inspection:

- 15 x 55 gallon drums of waste ink containers
- 1 x 55 gallon drum of waste ink

The following other elements were checked for compliance as part of this inspection.

- No manifests were available for review as the last waste pickup was 2020 or earlier.
- EPA ID# CAL000223057 is active.
- Emergency equipment maintained.
- Emergency contacts posted.
- Shop rags laundered.
- Hazardous waste training adequate.

Action Items/Notes to Facility:

1) Violations are marked in this report.

2) In the 15 drums containing waste ink containers it was found that many containers were empty and do not need to be disposed of as hazardous waste. A container under 5 gallons that contains no pourable residual material may be recycled or thrown away. Ink containers that contain large amounts of dried ink must remain hazardous waste.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/13/2024, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Key to Acronyms and Regulatory Terms

Summary of Violations & Notice to Comply

Program: PR0375051 - HAZARDOUS WASTE GENERATOR - 2205
Inspection Type: ROUTINE INSPECTION-COMPLETED

VC	Class	Violation	Corrective Actions Taken
G020	M	**MARKING OF HAZARDOUS WASTE** Facility failed to properly mark a hazardous waste tank and/or container. ***OBSERVED A 15 G CONTAINER OF SPENT FIXER NOT MARKED.*** Mark all hazardous waste tanks with the words "HAZARDOUS WASTE" and the accumulation start date. Mark all hazardous waste containers and portable tanks with the words "HAZARDOUS WASTE;" the accumulation start date; the name and address of the generator; and the composition, physical state, and hazardous properties of the waste. Additionally, mark used oil containers, aboveground tanks, and fill pipes for underground tanks with the words "USED OIL." [CCR 66262.34(f), 66279.21(b)]	All hazardous waste tanks have been marked with the "HAZARDOUS WASTE" label that contains all required information for that hazardous content.
G031	II	**ACCUMULATION TIME: POINT OF GENERATION** Facility accumulated hazardous waste at the point of generation for longer than the allowed time limit. ***THE 15 G CONTAINER OF SPENT FIXER HAS BEEN ON SITE LONGER THAN 1 YEAR.*** used oil Make arrangements for the immediate removal of the waste. Submit to HMCD a copy of the manifest or consolidated manifest receipt demonstrating that the waste was removed. Ensure that point of generation wastes are not held on-site for longer than one year, or the applicable accumulation time limit (90/180/270 days) after the date the quantity limit was reached, whichever comes first. The quantity limit for each wastestream is 55 gallons for hazardous waste, or 1 quart for acutely/extremely hazardous waste. [CCR 66262.34(e)(1)(B)]	The content of the 15 G container, used oil, has been properly disposed. Trained operators to observe the accumulation time to less than 1 year.
G430	M	**MANAGEMENT OF CONTAMINATED RAGS** Facility managed hazardous waste as exempt "reusable soiled textile materials" (i.e., contaminated rags), but did not meet requirements for exemption. ***OBSERVED A COUPLE OF RAGS IN THE SINK AREA THAT WERE WET.*** Begin managing the waste as hazardous waste, or meet all of the following: 1) the rags must be sent to an authorized commercial laundry facility, and 2) the rags must not: a) be regulated under RCRA; b) be used to clean up or control a reportable spill or release; c) be contaminated with any hazardous waste added after the original use of the rags; and d) release any free liquids. [HSC 25144.6]	Since the rag is not necessary for operation, it has been removed from operating areas. Also, have trained the operators of proper means of handling contaminated rags if such need should ever present itself.

Re: Hazardous Materials Business Plan Notification

Dear Mr. Landlord:

State law (Health and Safety Code §25503.6) requires that the owner/operator of any facility which must establish and implement a Hazardous Materials Business Plan (Business Plan), and is located on leased or rented real property, must provide the owner of the property with written notification that the facility is subject to and in compliance with Business Plan requirement (i.e. H&SC §25503.5).

Please note that a Business Plan has been prepared for the following facility:

Oki Graphics
2148 Zanker Rd.
San Jose, CA 95131

If you would like a copy of the Business Plan, one will be provided to you within five working days after receipt of your request. A copy of this notification letter will be kept at our facility.

If you have any questions, please contact the undersigned.
Sincerely,

Yoon Kim
President

G200	II	**ACCUMULATION TIME: SQG [3030010]** Facility accumulated hazardous waste on-site for longer than the time allowed for a small quantity generator of hazardous waste (180 days, or 270 days when transported over 200 miles). ***Facility stated that the 15 drums of waste ink containers had been accumulating since 2020. As a small quantity generator all non point of generation satellite waste must be disposed of within 180 days.*** ***Dispose of these drums within 30 days.*** Make arrangements for the immediate removal of the waste. Submit to HMCD a copy of the manifest(s) or consolidated manifest receipt(s) demonstrating that the waste has been removed. Ensure that hazardous wastes are not held on-site for longer than 180 days when transported up to 200 miles, or 270 days when transported over 200 miles. [HSC 25123.3(h)(1), CCR 66262.16(b)]	Drum pick it up 8/7/2024

Comments: On site on 6/12/2024 to perform a routine hazardous waste generator inspection. Inspection is concluded with issuance of this report.

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0256797
Facility Name: OKI GRAPHICS, INC
Site Address: 2148 ZANKER RD, SAN JOSE, CA 95131
Inspection Date: 06/13/2024

Summary of Violations & Notice to Comply

Facility is a medium sized print shop. Hazardous waste generated on site primarily consists of waste ink and ink containers.

The following hazardous wastes were observed on site during inspection:

- 15 x 55 gallon drums of waste ink containers
- 1 x 55 gallon drum of waste ink

The following other elements were checked for compliance as part of this inspection.

- No manifests were available for review as the last waste pickup was 2020 or earlier.
- EPA ID# CAL000223057 is active.
- Emergency equipment maintained.
- Emergency contacts posted.
- Shop rags laundered.
- Hazardous waste training adequate.

Action Items/Notes to Facility:

1) Violations are marked in this report. DS YK

2) In the 15 drums containing waste ink containers it was found that many containers were empty and do not need to be disposed of as hazardous waste. A container under 5 gallons that contains no pourable residual material may be recycled or thrown away. Ink containers that contain large amounts of dried ink must remain hazardous waste.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 07/13/2024, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Key to Acronyms and Regulatory Terms

XX CCR	California Code of Regulations, Title XX
XX CFR	Code of Federal Regulations, Title XX
Class	Violation classification: I = Class I violation, II = Class II violation, M = Minor violation, C = Corrected minor violation [HSC §25110.8.5, HSC §25117.6, CCR §66260.10]

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

Subject: New Permit Fees Due for facility at 345 E Brokaw Rd in San Jose

Dear Mr. Yu:

A new Generator Permit Application signed by you on October 29, 2008 was received by our Department and processed. The attach invoice reflect the permit fees dues for operating for period 1/1/09 to 12/31/09 for a total of $400.00.

We are therefore requesting that permit fees be paid to us **within 30 days** of enclosed invoice for the permit charge period noted above.

The City of San Jose will begin billing your facility for continued operation as a Generator of Hazardous Waste under Single Billing starting December 1, 2009.

If you feel that we may be in error please contact Marlena Dufresne at (408) 918-1980 or the undersigned at (408) 918-1984.

Sincerely,

Nicole Pullman

The undersigned hereby applies for a Hazardous Waste Generator Permit from the County of Santa Clara. I hereby certify that the submitted information is true, accurate, and complete. I understand that a new application will be required if this facility changes ownership, moves, or begins generating hazardous wastes which are not listed on this application.

Signature of Owner/Operator: _____ Title: President Date: 10/29/2008

Definitions of Treatment/Disposal Methods

Recycled on-site: The facility takes the waste or any constituent of the waste, treated or not, and reuses it on-site or ships it off-site as an Excluded Recyclable Material.

Treated on-site: The facility employs any method, technique, or process which changes or is designed to change the physical, chemical, or biological character or composition of the hazardous waste or any material contained therein, or removes or reduces its harmful properties or characteristics for any purpose including, but not limited to, energy recovery, material recovery, or reduction in volume *(e.g., pH adjustment, evaporation, precipitation, filtration, distillation, compacting, etc.)*. If, after treatment, the material is reused at the facility, the "Recycled on-site" box in the waste inventory table should be checked.

Shipped off-site for recycling/treatment/disposal: The facility sends the waste, or any hazardous treatment residual, to an off-site permitted treatment, storage, or disposal facility (TSDF).

Note: Depending on how a waste or its constituents are recycled and/or treated, more than one treatment/disposal category may apply. All applicable boxes in column 2 of the waste inventory table should be checked.
Note to medical facilities: Do not list medical (i.e,. red bag) wastes on this form.

VIOLATIONS: Codes noted below in the "Violation Codes" column represent specific violations of State law and/or local Ordinance. These codes are defined in the attached Violation Codes document(s). Time granted for correction of violations does not preclude any enforcement action by this Department or other agencies.
This facility may be subject to reinspection at any time. Consent to Inspect Given By: Steven Kim

Violation Codes	Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions	Corrective Actions Taken
A000	Currently this facility is generating and storing hazardous waste with an active EPA ID# CAL000315654 but is not permited with our office for the hazardous waste. This facility was located at, 894 Commercial St. San Jose, CA and moved to this location about 2 years ago. A copy of the HMBP was obtained for our records. Once fees are paid to our Agency a hazardous waste generator permit will be issue to you.	
G011	Observed waste paper towels contaminated with electro polish solution (contains phosphoric : sulfuric acid) inside a trash can inside the facility.	

All violations must be corrected within 30 days of the inspection date unless noted otherwise, above. Section 25404.1.2(c)(1) of California Health and Safety Code (HSC) requires that you write a brief description of the corrective actions you have taken to bring this facility into compliance and submit it to HMCD within 5 days of achieving compliance, or within 35 days of the inspection date, whichever comes first. ***(Note: Detailed instructions on actions you must take are printed on the reverse side of this page.)***

Received by: Sammy Yu Inspected by: Edward Ortiz Entered by: _____

Certification: I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator: _____ Title: _____ Date: ___/___/___

FACILITY SENDS YELLOW COPY TO AGENCY, KEEPS PINK COPY.

THE OFFICIAL NOTICE OF INSPECTION EXPLAINED

This Official Notice of Inspection (NOI) describes the findings made during the inspection, including all violations and any actions that must be taken by the facility to correct the violations. All violations must be corrected within 30 days of the inspection date unless noted otherwise by the inspector.

Within five working days of achieving compliance, or within 35 days of the inspection, whichever comes first, you must submit a written response which describes the corrective actions you have taken or — for those violations which are impossible to correct within 30 days — propose to take in order to bring your facility into compliance. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. After you have addressed each violation, complete the certification box located at the bottom of page 1 of the NOI. **Your description of corrective actions taken, along with your signed certification of the NOI and any required supporting documents, will serve as your written response to this Notice to Comply.** Your response must be mailed to Santa Clara County Hazardous Materials Compliance Division (HMCD) at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716. The effective date of the certification that any violation has been corrected is the date that it is postmarked.

What Does the Information in Each Column Mean?

Violation Code: Codes listed in this column identify specific violations of laws, regulations, or codes which were observed during this inspection. Definitions of Violation Codes are listed on the attached Violation Codes document(s).

Summary of Violations, Notice to Comply, Observations, and Required Corrective Actions: Information noted in this column describes the circumstances of any violations noted in the first column and describes how the violations may be corrected. Additionally, the inspector may use this space to note any additional observations resulting from the inspection.

Corrective Actions Taken: This column on the NOI has been provided so that you can note how you have corrected or propose to correct each violation. Where proposed corrective actions are described, you must specify a date by which you expect each violation to be corrected. If more space is needed, attach additional pages.

Why Were Two Copies of the Notice of Inspection Given to Me?

You have been given two copies so you will have a copy for your own records after you submit your written response to HMCD. **Do not separate the copies until you have described all of your corrective actions and signed the certification box on page 1. The yellow copy of each page must be returned to HMCD. The pink copy is for your records.**

What if I Disagree With a Violation Noted on the Notice of Inspection?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, you must explain in detail why you believe the violation does not exist. If there is sufficient space, you may use the "Corrective Actions Taken" column of this NOI to dispute violations.

What About Photographs or Samples Taken During the Inspection?

If samples were taken, split samples will be given to you upon request. Since this NOI was prepared and given to you at the end of the inspection, any photographs and sampling or laboratory results associated with the inspection were not yet available. A copy of any photographs and/or analytical results from sampling taken during this inspection will be provided to you upon written request. Other pertinent information derived from the inspection is attached to this NOI. Photographs and sample results may be withheld in the event of a criminal investigation or other ongoing investigation.

****

- **Per HSC §§25187.8(b) and 25404.1.2(c), failure to sign the certification on this Notice to Comply and return it to HMCD is a violation of State law.**
- ***Per HSC §25404.1.2(c)(2), a false statement that compliance has been achieved is a misdemeanor.***
- **Per HSC §25191(b), a false statement that hazardous waste compliance has been achieved is a violation of State law punishable by a fine of not less than $2,000 or more than $25,000 and/or imprisonment in the county jail for up to one year.**
- **Per HSC §§25299(a)(8) and (b)(7), a false statement that underground storage tank compliance has been achieved is a violation of State law punishable by a fine of not less than $500 or more than $5,000.**
- **Per HSC §§25187.8(i), HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility.**

CERS LEAD USER AUTHORIZATION FORM

cers.calepa.ca.gov

For use in all areas of Santa Clara County other than in the cities of Gilroy, Santa Clara, and Sunnyvale

BUSINESS OWNER NAME [Legal name of individual(s),partnership, corporation, LLC, or LLP]			**OWNER PHONE**
SourceHOV			(866) 321-5854
OWNER MAILING ADDRESS	**CITY**	**STATE**	**ZIP CODE**
2701 E. Grauwyler Road	Irving	TX	75061

The California Environmental Reporting System (CERS) allows for business owners to control the level of authority for each user who has access to the business' electronic data. Each higher level includes the authority of all lower levels. Authority levels are (from lowest to highest): Viewer (can only view data); Editor (can change data); Approver (can officially submit data to regulator); Lead User (can add and delete users and change user authority levels).

Read the following and initial each of the boxes:

Initial

☒ **I am either the owner of the business that operates the facilities listed on this form, or an in-house employee authorized by the owner or senior corporate/agency management to certify electronic data submittals via the California Environmental Reporting System (CERS).**

☒ **I am aware that Lead Users have the ability to add or remove access rights of other users in my organization, including me, and I understand that Santa Clara County recommends that contractors and consultants be given Editor rights and not Approver or Lead User rights.**

SIGNATURE	**NAME OF SIGNER (print)**	**DATE SIGNED**
Jeff Cimorelli	Jeff Cimorelli	9/17/2015

TITLE OF SIGNER	**PHONE NUMBER OF SIGNER**	**E-MAIL ADDRESS OF SIGNER**
Director of Operations	(408) 436-1701	jeffcimorelli@srcp.com

For signer: I want *(select one)* ☒ Lead User access; ☐ Approver access; ☐ None

The following persons are hereby authorized, with the permission levels indicated, to access records for the facilities identified on the following page. Lead Users will be responsible for approving any other authorized users on my behalf. ***It is strongly recommended that businesses have at least two Lead Users.***

NAME OF AUTHORIZED USER	**TITLE**
Martin Fernandez	Warehouse Manager
EMAIL ADDRESS	**PHONE NUMBER**
martinfernandez@srcp.com	(408) 436-1701

USER ACCESS LEVEL ☐ Viewer ☐ Editor ☐ Approver ☐ Lead User	

If you operate more than one facility within Santa Clara County CUPA jurisdiction that is required to electronically report, select one option and list the facilities below.

☐ We would like the ability to manage users and user privileges for each facility separately. Please do not transfer any facility records to a common CERS Business.

☐ We would like the ability to manage a single common list of users and user privilege for all facilities. If separate, please transfer all of the following facilities to the following CERS Business:

BUSINESS NAME (as shown in CERS): SOURCECORP

HEADQUARTERS (City, State): San Jose, CA

Provide the information below or check the following box and attach a list of sites included in this authorization. ☐ List of sites attached

Emergency Response/Contingency Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(b); Title 22, Div. 4.5, Ch. 12, Art. 3 CCR

All facilities that handle hazardous materials in specified quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Within Santa Clara County, hospitals and police agencies have delegated receipt of these plans to the local agencies administering Hazardous Materials Business Plans, so additional copies need not be submitted. However, a copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e. contractual) emergency services arrangements have been made** *(see section 3, below).*

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☒ Horns/Sirens; ☒ Verbal *(i.e. shouting)*; ☒ Other *(specify)* **PA System**

b. ☒ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:

Fire/Police/Ambulance	**Phone No. 911**
State Office of Emergency Services	**Phone No. (800) 852-7550**

b. Post-Incident Contacts*:

Fire Department Hazardous Materials Program	**Phone No.: (408) 277-4659** 918-3400
Santa Clara County Hazardous Materials Compliance Division	**Phone No. (408) 918-3400**
California EPA Department of Toxic Substances Control	**Phone No. (510) 540-3739**
Cal-OSHA Division of Occupational Safety and Health	**Phone No. (408) 452-7288**
Air Quality Management District	**Phone No. (415) 771-6000**
Regional Water Quality Control Board	**Phone No. (510) 622-2300**

** These telephone numbers are provided as a general aid to emergency notification. Be advised that additional agencies may be required to be notified.*

c. Emergency Resources:

Poison Control Center	**Phone No. (800) 876-4766**
Nearest Hospital: Name: San Jose Medical Center	**Phone No.: (408) 998-3212**
Address: 675 E. Santa Clara St.	**City: San Jose**

3. Arrangements With Emergency Responders:

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

Haz Mat Clean-up - ACT 689 E. Brokaw Rd 95112 (408) 487 9222

7. Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] and the Hazardous Materials Storage Ordinance require that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Locations *	4. Description**
Personal Protective Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators

* *Use the map and grid numbers from the Storage Map prepared earlier for your HMBP.*

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

43-060-430717

Employee Training Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(c); Title 22, Div. 4.5, Ch. 12, Art. 3 CCR

All facilities that handle hazardous materials must have a written employee training plan. This plan is a required module of the Hazardous Materials Business Plan (HMBP). A blank plan has been provided below for you to complete and submit if you do not already have such a plan. If you already have a brief written description of your training program that addresses all subjects covered below, you are not required to complete the blank plan, below, but you must include a copy of your existing document as part of your HMBP.

Check all boxes that apply. *[Note: Items marked with an asterisk (*) are required.]*:

1. **Personnel** are trained in the following procedures:

☒	Internal alarm/notification *
☒	Evacuation/re-entry procedures & assembly point locations*
☐	Emergency incident reporting
☐	External emergency response organization notification
☐	Location(s) and contents of Emergency Response/Contingency Plan
☒	Facility evacuation drills, that are conducted at least *(specify)* Annually *(e.g. "Quarterly", etc.)*

2. **Chemical Handlers** are additionally trained in the following:

☒	Safe methods for handling and storage of hazardous materials *
☐	Location(s) and proper use of fire and spill control equipment
☐	Spill procedures/emergency procedures
☒	Proper use of personal protective equipment *
☒	Specific hazard(s) of each chemical to which they may be exposed, including routes of exposure *(i.e. inhalation, ingestion, absorption)* *
☐	**Hazardous Waste Handlers/Managers** are trained in all aspects of hazardous waste management specific to their job duties *(e.g. container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.)* *

3. **Emergency Response Team Members** are capable of and engaged in the following:

☐	Personnel rescue procedures
☒	Shutdown of operations
☒	Liaison with responding agencies
☒	Use, maintenance, and replacement of emergency response equipment
☒	Refresher training, which is provided at least annually *
☐	Emergency response drills, which are conducted at least *(specify)* _____ *(e.g. "Quarterly", etc.)*

43-060-430717

Record Keeping

(Hazardous Materials Business Plan Module)

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your recordkeeping procedures is a required module of the Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials recordkeeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. *[Note: Items marked with an asterisk (*) are required.]*:

☒	Current employees' training records *(to be retained until closure of the facility)* *
☒	Former employees' training records *(to be retained at least three years after termination of employment)* *
☒	Training Program(s) *(i.e. written description of introductory and continuing training)* *
☒	Current copy of this Emergency Response/Contingency Plan *
☒	Record of recordable/reportable hazardous material/waste releases *
☒	Record of hazardous material/waste storage area inspections *
☒	Record of hazardous waste tank daily inspections *
☐	Description and documentation of facility emergency response drills

Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-inspections of your facility must be submitted with your HMBP. *(Exception: Available from your local agency is a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the example provided, you do not need to attach a copy.)*

Check the appropriate box:

☒	We will use the Unidocs "Hazardous Materials/Waste Storage Area Inspection Form" to document inspections.
☐	We will use our own documents to record inspections. ***(A blank copy of each document used must be attached to this HMBP.)***

43-060 -430717

Aboveground Separation, Containment, and Monitoring Plan
(Appendix to Hazardous Materials Business Plan)

Complete one column for each aboveground storage area shown on the Hazardous Materials Business Plan Storage Map(s). Write the appropriate location code in the box provided at the top of each column, then moving down the column, check all boxes which apply to that location. Make additional copies of this page if needed.

Emergency Response/Contingency Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC§ 25504(b); 19 CCR §2731; 22 CCR §66262.34(a)(4) Page ____ of ____

All facilities that handle hazardous materials in HMBP quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste (or more than 1 kilogram of acutely hazardous waste or 100 kilograms of debris resulting from the spill of an acutely hazardous waste) per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a hazardous waste contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). **If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.**

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** A copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e., contractual) emergency services arrangements have been made *(see section 3, below)*.

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☒ Horns/Sirens; ☒ Verbal *(i.e., shouting)*; ☒ Other *(specify* PA System

b. ☒ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts:*

Fire/Police/Ambulance ..... Phone No.: **911**

California Emergency Management Agency ..... Phone No.: **(800) 852-7550**

b. Post-Incident Contacts:*

Santa Clara County CUPA ..... Phone No.: **(408) 918-3400**

Local Hazardous Materials Program ..... Phone No.: **(408) 918-3400**

California Department of Toxic Substances Control (DTSC) ..... Phone No.: **(510) 540-3739**

Cal/OSHA Division of Occupational Safety and Health ..... Phone No.: **(510) 794-2521**

Air Quality Management District ..... Phone No.: **(415) 771-6000**

Regional Water Quality Control Board ..... Phone No.: ( )

*** Phone numbers for agencies in Unidocs Member Agency geographic jurisdictions are available at www.unidocs.org.**

c. Emergency Resources:

Poison Control Center* ..... Phone No.: **(800) 876-4766**

Nearest Hospital: Name: _____ Phone No.: ( )

Address: _____ City: _____

3. Arrangements With Emergency Responders:

If you have made special (i.e., contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

_____

_____

_____

_____

_____

4. Emergency Procedures:

Emergency Coordinator Responsibilities:

a. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the emergency coordinator *(or his/her designee when the emergency coordinator is on call)* shall:
   i. Identify the character, exact source, amount, and areal extent of any released hazardous materials.
   ii. Assess possible hazards to human health or the environment that may result from the explosion, fire, or release. This assessment must consider both direct and indirect effects *(e.g., the effects of any toxic, irritating, or asphyxiating gases that are generated, the effects of any hazardous surface water run-off from water or chemical agents used to control fire, etc.)*.
   iii. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
   iv. Notify appropriate local authorities *(i.e., call 911)*.
   v. Notify the California Emergency Management Agency at (800) 852-7550.
   vi. Monitor for leaks, pressure build-up, gas generation, or ruptures in valves, pipes, or other equipment shut down in response to the incident.
   vii. Take all reasonable measures necessary to ensure that fires, explosions, and releases do not occur, recur, or spread to other hazardous materials at the facility.

b. Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall:
   i. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at the facility.
   ii. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.
   iii. Ensure that all emergency equipment is cleaned, fit for its intended use, and available for use.
   iv. Notify the California Department of Toxic Substances Control, the local CUPA, and the local fire department's hazardous materials program that the facility is in compliance with requirements b-i and b-ii, above.

Responsibilities of Other Personnel:

On a separate page, list any emergency response functions not covered in the "Emergency Coordinator Responsibilities" section, above. Next to each function, list the job title or name of each person responsible for performing the function. Number the page(s) appropriately.

5. Post-Incident Reporting/Recording:

The time, date, and details of any hazardous materials incident that requires implementation of this plan shall be noted in the facility's operating record.

Within 15 days of any hazardous materials emergency incident or threatened hazardous materials emergency incident that triggers implementation of this plan, a written Emergency Incident Report, including, but not limited to a description of the incident and the facility's response to the incident, must be submitted to the California Department of Toxic Substances Control, the local CUPA, and the local fire department's hazardous materials program. The report shall include:

a. Name, address, and telephone number of the facility's owner/operator;
b. Name, address, and telephone number of the facility;
c. Date, time, and type of incident *(e.g., fire, explosion, etc.)*;
d. Name and quantity of material(s) involved;
e. The extent of injuries, if any;
f. An assessment of actual or potential hazards to human health or the environment, where this is applicable;
g. Estimated quantity and disposition of recovered material that resulted from the incident;
h. Cause(es) of the incident;
i. Actions taken in response to the incident;
j. Administrative or engineering controls designed to prevent such incidents in the future.

6. Earthquake Vulnerability: [19 CCR §2731(e)]

As an attachment to this plan, you must identify any areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake-related ground motion.

7. Hazard Mitigation/Prevention/Abatement [19 CCR §2731(e)]

As an attachment to this plan, you must include procedures that provide for mitigation, prevention, or abatement of hazards to persons, property, or the environment. These procedures must be scaled appropriately for the size and nature of the business, the nature of the damage potential of the hazardous materials handled, and the proximity of the business to residential areas and other populations.

8. Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Locations *	4. Description**
Personal Protective Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators

* *Use the map and grid numbers from the Storage Map prepared for your HMBP.*

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

Employee Training Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(c); 22 CCR §66262.34(a)(4)

All facilities that handle hazardous materials in HMBP quantities must have a written employee training plan. This plan is a required module of the Hazardous Materials Business Plan (HMBP). A blank plan has been provided below for you to complete and submit if you do not already have such a plan. **If you already have a brief written description of your training program that addresses all subjects covered below, you are not required to complete the blank plan, below, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. *[Note: Items marked with an asterisk (*) are required.]*:

1. **Personnel** are trained in the following procedures:

☒	Internal alarm/notification *
☒	Evacuation/re-entry procedures & assembly point locations*
☐	Emergency incident reporting
☐	External emergency response organization notification
☐	Location(s) and contents of Emergency Response/Contingency Plan
☐	Facility evacuation drills, that are conducted at least *(specify)*: *(e.g., "Quarterly", etc.)*

2. **Chemical Handlers** are additionally trained in the following:

☒	Safe methods for handling and storage of hazardous materials *
☐	Location(s) and proper use of fire and spill control equipment
☐	Spill procedures/emergency procedures
☒	Proper use of personal protective equipment *
☒	Specific hazard(s) of each chemical to which they may be exposed, including routes of exposure *(i.e., inhalation, ingestion, absorption)* *
☐	**Hazardous Waste Handlers/Managers** are trained in all aspects of hazardous waste management specific to their job duties *(e.g., container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.)* *

3. **Emergency Response Team Members** are capable of and engaged in the following:

Complete this section only if you have an in-house emergency response team

☐	Personnel rescue procedures
☐	Shutdown of operations
☐	Liaison with responding agencies
☐	Use, maintenance, and replacement of emergency response equipment
☐	Refresher training, which is provided at least annually *
☐	Emergency response drills, which are conducted at least *(specify)*: *(e.g., "Quarterly", etc.)*

HAZARDOUS MATERIALS BUSINESS PLAN CERTIFICATION FORM

For Use by Unidocs Member Agencies or where approved by your Local Jurisdiction
Authority Cited: Health and Safety Code §25503.3(c); 19 CCR §2729.5(c)

RECEIVED BY: SANTA CLARA CO. ENV. HEALTH DEPT. OF ENVIRONMENTAL HEALTH

2011 AUG 29 PM 12:04

To: Agency Name: **Santa Clara County Hazardous Materials Compliance Division (HMCD)**

Agency Mailing Address: **1555 Berger Drive, Suite 300**
San Jose, CA 95112-2716

Pursuant to Section 25503.3(c) of California Health and Safety Code (HSC), the Hazardous Materials Business Plan (HMBP) certification described below is hereby submitted for the following facility:

Facility Name: Source Corp Delivrex

Facility Street Address: 2054 Zanker Rd. City: San Jose

Date of Current HMBP: _____

I certify that: *(Check the appropriate box.)*

☐ I have personally reviewed the Hazardous Materials Business Plan currently on file with your agency and certify that the HMBP is complete and accurate. *(See bottom of page for details.)* If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, I have submitted the following documents with this Certification Form: Unified Program Consolidated Form (UPCF) Business Activities page; UPCF Business Owner/Operator Identification page with current signature and date; Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page for all Extremely Hazardous Substances (EHS) handled at or above their Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.

or

☐ Revisions to the Hazardous Materials Business Plan are necessary. The HMBP as revised is complete and accurate and is being implemented. A copy of the revisions has been electronically submitted or is enclosed with this Certification along with a signed UPCF Business Owner/Operator Identification page and UPCF Business Activities page if the HMBP revision include changes to the Hazardous Materials Inventory Statement.

OWNER/OPERATOR CERTIFICATION: I hereby certify under penalty of law that, based upon my inquiry of those individuals responsible for obtaining the information reported above, I believe that the submitted information is true, accurate, and complete. I understand that a revised HMBP must be submitted within 30 days of any change in this facility's storage or handling of hazardous materials that would require updating of the HMBP.

Name of Owner/Operator *(Print)*: Damon Bushaw Title: Senior Systems manager

Phone: (408) 436-1701 ext 116 Signature: _____ Date: 8/25/11

By checking the upper box on this form, you are certifying that:

- The information contained in the HMBP most recently submitted is complete, accurate, and up-to-date; **and**
- There has been no change in the quantity of any hazardous material as reported in the most recently submitted Hazardous Materials Inventory forms; **and**
- The facility has not begun handling any hazardous material in a HMBP reportable quantity that is not currently listed in the Hazardous Materials Inventory; **and**
- The most recently submitted HMBP contains the information required by Section 11022 of Title 42 of the United States Code; **and**
- There have been no substantial changes in the facility's operations that would require revision of the current HMBP.

Comments:

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 10/16/2015, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

Certification of Compliance

I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator **Date**

Printed Name of Owner/Operator **Title**

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Program: CO0141454 - HAZARDOUS WASTE GENERATOR - 2200
Inspection Type: COMPLAINT INSPECTION-COMPLETED

Comments / Observations

THE INSPECTION COMMENCED AT THE DUMPSTER, THE AREA ADJACENT TO THE DUMPSTER WAS EVIDENTLY STAINED WITH WHAT APPEARED TO BE USED OIL.

CLOSER INSPECTION REVEALED USED OIL AROUND AND BELOW THE DUMPSTER. THERE WAS A PILE OF SATURATED ABSORBENT BELOW THE DUMPSTER SPIGOT AND FRESH PADS ADJACENT TO THE SPILL.

THE CONTENTS OF THE DUMPSTER DIDN'T REVEAL SATURATED RAGS AT THE TIME OF THE INSPECTION.

THE FACILITY HAS BEEN INFORMED TO CEASE THE DUMPING OF SATURATED RAGS OF USED OIL IN THE DUMPSTER. SATURATED RAGS ARE TO BE COLLECTED AND MANAGED AS HAZARDOUS WASTE OILY SOLIDS.

THE FACILITY GENERATES HAZARDOUS WASTE AND STORES MATERIALS SUBJECT TO THE HAZARDOUS MATERIALS BUSINESS PLAN DISCLOSURE REQUIREMENTS BUT DOES NOT POSSES COUNTY PERMITS. AN OFFICIAL NOTICE OF INSPECTION HAS BEEN GENERATED TO DOCUMENT FINDINGS PERTAINING TO HAZARDOUS WASTE AND HAZARDOUS MATERIALS BUSINESS PLAN PROGRAM.

Summary of Violations & Notice to Comply

Program: PR0423075 - HAZARDOUS MATERIALS BUSINESS PLAN - BP02
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
H100	II	**HMBP NOT SUBMITTED [1010002]** Facility operator failed to complete and electronically submit initially, annually or triennially, a Hazardous Materials Business Plan (HMBP) when storing or handling hazardous materials at or above HMBP reporting thresholds. ***Facility's last CERS submittal was completed on 2/22/2021. CERS is required to be submitted annually and is currently 1,168 days overdue. Submit a complete and accurate CERS submittal within 30 days and resubmit annually thereafter.*** Electronically submit an HMBP through the California Environmental Reporting System (https://cers.calepa.ca.gov). Be sure to submit all of the elements that comprise a complete HMBP (i.e., Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans). [HSC 25505, 25508 (a)(1)]	

Comments: On site on 5/1/2025 to perform a routine hazardous materials business plan inspection. Inspection is concluded with issuance of this report.

Facility is a smaller sized commercial shop for elevator mechanics. Hazardous materials stored on site is primarily new and used hydraulic fluid.

The following hazardous materials were observed on site above reportable quantity during inspection:

- 7 x 55 gallon drums of used hydraulic fluid.
- ~ 40 x 5 gallon buckets of new hydraulic oil.
- 1 x 230 cfu acetylene cylinder.
- 1 x 8 gallon cylinder of propane.

The following other elements were checked for compliance as part of this inspection:

- CERS submittal under CERS ID# dated 2/22/2021
- Facility emergency response training conducted and logged.
- Property owner notification verified.

Action Items/Notes to Facility:

1) A violation is marked in this report. Take the required corrective actions within 30 days.

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0281595

Inspection Date: 05/05/2025

Summary of Violations & Notice to Comply

Program: PR0423074 - HAZARDOUS WASTE GENERATOR - 2205
Inspection Type: ROUTINE INSPECTION

VC	Class	Violation	Corrective Actions Taken
G020	M	**MARKING OF HAZARDOUS WASTE [3030007]** Facility failed to properly mark a hazardous waste tank and/or container. ***The 7 x 55 gallon drums of used hydraulic oil were devoid of proper hazardous waste labels. Ensure all hazardous waste containers are labeled with all required information.*** Mark all hazardous waste tanks with the words "HAZARDOUS WASTE" and the accumulation start date. Mark all hazardous waste containers and portable tanks with the words "HAZARDOUS WASTE;" the accumulation start date; the name and address of the generator; and the composition, physical state, and hazardous properties of the waste. IF they contain used oil, mark used oil containers, aboveground tanks, and fill pipes for underground tanks with the words "USED OIL." For tanks, a log, monitoring equipment, or other records may be used to demonstrate waste is disposed within the required time frame. [CCR 66262.16(b)(4), 66262.17(a)(5); 66279.21(b)]	
G023	M	**CONTAINER OPEN [3030017]** Facility failed to keep a hazardous waste container closed at a time when it was not necessary to add or remove waste. ***Observed one trash bag full of oil saturated rags that are stated to be hazardous waste. The bag is incapable of being closed and all hazardous waste containers are required to be closed unless actively adding or removing contents. Ensure the rags are stored in a container that can be closed.*** Tightly close all hazardous waste containers. Ensure that they remain closed, except when it is necessary to add or remove waste. Containers are considered closed when all lids, gaskets, and locking rings are in place and secured. [CCR 66262.16(b)(2)(C)1, 66262.17(a)(1)(D)1, 66262.15(a)(4)]	
G043	M	**MANIFEST RETENTION [3010010]** Facility failed to retain the original and/or treatment/storage/disposal facility (TSDF) -signed copy of a Uniform Hazardous Waste Manifest. ***Facility was unable to provide manifests during inspection. Ensure three years of hazardous waste manifest are readily available for inspection.*** Obtain a copy of each missing manifest or demonstrate access to the Federal electronic e-manifest system. Paper copies: Keep the original manifest copy until you receive the TSDF-signed copy of that manifest. Keep the TSDF-signed copy for 3 years from the date of waste shipment. Electronic copies: Maintain access to the e-manifest system at https://rcrainfo.epa.gov/rcrainfoprod/action/secured/login [CCR 66262.40(a)]	
G220	M	**TRAINING: SQG [3020001]** Personnel are not adequately trained on managing hazardous waste. ***Based on observed practices facility staff have inadequate waste handler training. Ensure all employees are trained on and implement compliant hazardous waste management practices.*** Provide training to ensure that all personnel are thoroughly familiar with proper waste handling and emergency response procedures relevant to their responsibilities during normal facility operations and emergencies. [CCR 66262.16(b)(7)]

G403	II	**MANAGEMENT OF CONTAMINATED CONTAINERS [3030058]** Facility improperly treated, managed, or disposed of a hazardous materials container that was not empty because it still contained a pourable or scrapeable quantity of hazardous material that upon disposal meets the definition of a hazardous waste. ***Observed one 2.5 gallon plastic carboy in the trash that contained pourable amounts of hydraulic oil. Additionally there are ~15 five gallon buckets containing pourable amounts of waste hydraulic oil crowding the hazardous waste area. Facility is advised to drain all containers fully and then recycle/trash the fully empty containers or mange each container as an individual hazardous waste container.*** Thoroughly empty hazardous material/waste containers prior to treating, managing, or disposing of them, when allowed under empty container management standards. Containers 5 gallons or less in size may generally be placed in the trash once emptied. If a container cannot be emptied, manage it per standard hazardous waste requirements. [CCR 66261.7(b)]	
G612	M	**CONTAINER REQUIREMENTS: UNIVERSAL WASTE [3030]** Facility failed to contain Universal Waste in a manner that prevents breakage and the release of Universal Waste or waste residues. ***Observed discarded electronic universal waste in several locations throughout the shop not in any containers. Ensure all universal waste is properly containerized and managed properly.*** Properly contain the waste, as required for the type of Universal Waste. Container requirements are summarized in the Universal Waste Management Requirements document (HMCD-108) available at www.ehinfo.org/hazmat. [CCR 66273.33, 66273.33.5, HSC 25201.16(f)-(g)]	

Comments: On site on 5/1/2025 to perform a routine hazardous waste generator inspection. Inspection is concluded with issuance of this report.

Facility is a smaller sized commercial shop for elevator mechanics. Hazardous waste generated on site is primarily used hydraulic fluid.

The following hazardous wastes were observed on site during inspection:

- ~15 x 5 gallon buckets of used hydraulic fluid.
- 7 x 55 gallon drums of used hydraulic fluid.
- 1 x 55 gallon drum of waste oily solids.
- 1 x contractor sized trash bag of waste oily rags.

The following other elements were checked for compliance as part of this inspection:

- EPA ID# CAL000330184 is active.
- Waste manifests not on site for review.
- Spill kit on site and fire extinguishers maintained.
- Emergency postings verified.
- Scrap metal recycled.
- Employee training inadequate.

Action Items/Notes to Facility:

OFFICIAL NOTICE OF INSPECTION

Facility ID: FA0281595
Facility Name: THYSSENKRUPP ELEVATOR CO
Site Address: 2140 ZANKER RD, SAN JOSE, CA 95131

Inspection Date: 05/05/2025

Summary of Violations & Notice to Comply

1) Violations are marked in this report take the required corrective actions within 30 days.

Immediately correct any violation designated as a Class I or Class II violation. Correct all other violations no later than 06/04/2025, unless otherwise noted by the inspector.

Using the space provided, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed. Within 5 days of achieving compliance or within 35 days of the inspection date, whichever comes first, sign the certification statement below and return a copy of this report to HMCD. Time granted for correction of violations does not preclude any enforcement action by HMCD or other agencies. This facility may be subject to reinspection at any time. [Authority: HSC 25185(c), 25187.8, 25404.1.2(c)]

Signed by: Jason Hungate 70AB2778F7CB44E... 5/9/2025

Received By: Jason Hungate

Inspected By: EE0010574 - TRISTAN DUBOIS
CA UST Inspector #9717503, Exp. 07/17/2026

Certification of Compliance

I certify under penalty of perjury that this facility has complied with directives specified in this Notice to Comply.

Signature of Owner/Operator | **Date**

Printed Name of Owner/Operator | **Title**

Docusign Envelope ID: 67BB5F5B-1CD4-4B39-8128-42AF906D4B89

OFFICIAL NOTICE OF INSPECTION - SUPPLEMENTAL INFORMATION

This Official Notice of Inspection (NOI) documents the results of an inspection by HMCD, including a list of alleged violations, evidence in support of the alleged violations, corrective actions that must be taken by the facility, and general observations.

What am I supposed to do upon receiving a NOI?

- Correct the violations within 30 days of the inspection date, unless otherwise noted.
- In the "Corrective Actions Taken" column, write a brief description of the actions taken by the facility to correct each violation. Attach additional pages if more space is needed.
- Certify that the facility has returned to compliance by signing and dating the certification statement at the end of the report.
- Make a photocopy of the NOI and any attachments for your records.
- Within 5 days of achieving compliance or 35 days of the inspection date, whichever comes first, return the original copy of the report and any attachments to HMCD at 1555 Berger Drive, Suite 300, San Jose, CA 95112-2716 or via e-mail to the inspector noted on the "Inspected By" line of the report.

What if there are violations that cannot be corrected within 30 days?

For each violation that cannot be corrected within 30 days, submit a written Compliance Plan describing the corrective actions you propose to take and the date by which the actions will be completed. State law grants up to 30 days to correct minor violations without penalty. Minor violations that are uncorrected after 30 days, and class I and II violations may be subject to enforcement action. To lessen the possibility of enforcement action, correct all violations as soon as possible.

What if I disagree with a violation on the NOI?

If you disagree with any violation listed in this NOI, you must submit a written Notice of Disagreement to HMCD within 30 days of the inspection date. Address such notices to the attention of the inspector who cited the violation. In your Notice of Disagreement, explain in detail why you believe the alleged violation was incorrectly cited.

What about photographs or samples taken during the inspection?

A co-located sample will be given to you upon request if adequate sample volume is available. Photographs and sample analytical results will not generally be available until after the inspection has been concluded. A copy of photographs and/or analytical results will be provided to you upon written request. Photographs and sample analytical results may be withheld in the event of a criminal investigation or other ongoing investigation.

Key to Acronyms and Regulatory Terms

XX CCR	California Code of Regulations, Title XX
XX CFR	Code of Federal Regulations, Title XX
Class	Violation classification: I = Class I violation, II = Class II violation, M = Minor violation, C = Corrected minor violation [HSC §25110.8.5, HSC §25117.6, CCR §66260.10]
CERS	California Environmental Reporting System (cers.calepa.ca.gov)
DTSC	California Department of Toxic Substances Control
EPA	U.S. Environmental Protection Agency
HMCD	County of Santa Clara, Department of Environmental Health, Hazardous Materials Compliance Division
HSC	California Health and Safety Code
RCRA	Resource Conservation and Recovery Act
SCCO	Santa Clara County Ordinance Code
TSDF	Hazardous waste treatment, storage or disposal facility
UST	Underground storage tank
VC	HMCD violation code

Warning:

- It is a violation of State law to make a false statement that a facility has returned to compliance [HSC §25404.1.2(c)(2)].
- Making a false statement regarding a hazardous waste violation is punishable by a fine of not less than $2,000 or more than $50,000 and/or imprisonment in the county jail for up to one year [HSC §25191(b)].
- Making a false statement regarding an underground storage tank violation is punishable by a fine of not less than $500 or more than $5,000 [HSC §§25299(a)(8), 25299(b)(7)].
- HMCD has the right to require the submittal of reasonable and necessary documentation in support of any claim of compliance made by your facility [HSC §25187.8(i), 25289(b)].

Attn: Socorro Guzman

Subject: **Official Notice of Inspection**
Facility ID FA02581595

Dear Ms. Guzman:

Thank you for the time and guidance you have given to our operation. This has been a great learning process. Please find our official response to your inspection. If we have overlooked or misunderstood anything please do not hesitate to let us know.

G00 – HAZERDOUSE WASTE GENERATOR PERMIT: It was determined we did not require a Hazardous Waste Generator Permit. We have attached our HMBP on the website as required.

G001 – EPA ID NUMBER: EPA number CAL000330184 has been reinstated.

G011 – ILLEGAL DISPOSAL OF HAZARDOUS WASTE: Items noted have been resolved. We do have a saturated rag and oil absorbent waster container. The dumpster has been replaced and although not a requirement we hired and environmental company to clean area. We will be building a fence around the dumpster area to keep the scavengers and dumpers from the area, which have created much of the issues.

G020 – MARKING OF HAZARDOUS WASTE: All containers have been marked and labeled according to the requirements.

G052 – CONSOLIDATED MANIFESTING: RECEIPT RETENTION: Copies of the Consolidated Manifest are attached. All future records will be kept on file.

G101 – CONTAINERS AREA INSPECTIONS: Weekly inspections are being performed. Documentation of same is posted by the containers.

G110 – MAINTENANCE AND OPERATION FACILITY: The area has been cleaned and procedures are being followed.

G211 – EMERGENCY INFORMATION POSTED: SQG: Emergency information is posted on Safety bulletin board.

G220 – TRAINING: SQG: Employees have been trained and will continue to be trained at a minimum of an annual basis. Training included but was not limited to the following:

- Proper handling and labeling of used oil. Mechanics have been notified that when brining used oil into our facility the container shall be on containment and container labeled accordingly.
- Proper labeling of containers handling hazardous waste.
- Proper disposal of waste. In particular the oil saturated rags and absorbent.
- Staff members have been notified the requirements for retaining oil manifest for a period of 3 years. Records can be found in with the Safety files.
- Handling of solid waste. A container has been established for solid waste and labeled accordingly.
- Weekly inspection requirements and posting of same.

B100 – HMBP NOT SUBMITTED: We attached in CERS Hazardous Material Business Plan, Site Map showing location hazardous material inventory and Emergency Preparedness Plan.

B126 – HMBP COPY FOR PROPERTY OWNER: Notification was submitted in writing to the landlord on March 22, 2016.

After your review of this information if you have any questions or desire additional information please do not hesitate to contact us.

Sincerely,

Kay Donovan
Branch Manager
