**Courtesy Notice of Upstream Ownership**

Dear Ms. Remy Obad,

In October of 2013, NRG Energy, Inc. and NRG Energy Holdings Inc. (a wholly owned subsidiary of NRG Energy, Inc.) entered into an asset purchase agreement with Edison Mission Energy (EME) which provided for the acquisition of substantially all of the assets of EME, including Walnut Creek Energy, LLC by NRG Energy Holdings Inc., upon Bankruptcy Court confirmation and consummation of an EME Chapter 11 plan of reorganization. The sale transaction closed on April 1, 2014. It is important to note that this acquisition does not affect direct ownership of the Walnut Creek Energy Park. The operational control entity, parent company and direct owner of the Walnut Creek Energy Park will remain Walnut Creek Energy, LLC. Additionally, Walnut Creek Energy, LLC will continue to maintain responsibility for compliance with all California Energy Commission conditions of certifications. For these reasons, a petition to change ownership is not necessary; the direct ownership of WCEP remains unchanged.

If you have any questions or need further information, please do not hesitate to contact me at (760) 710-2156

Sincerely,

George L. Piantka, PE  
Director, Environmental Services
