Subject: 14-ALT-01, 2015-2016 Investment Plan Update

Categories: Ready to Docket

California Energy Commission

DOCKETED

14-ALT-01

TN 74504

FEB 11 2015

The following updates should be made to the Workforce Development section of the current 2015-2016 draft investment plan:

1. Under the category of examples of workforce training grants, the ETP/California and Nevada Labor Management Cooperation Trust, should be referenced as the **ETP/ IBEW-NECA California and Nevada Labor Management Cooperation Trust**. There should be a reference made to this project being operated by IBEW-NECA.
2. Under the category of examples of workforce training, the ETP grants award to the CA Labor Federation to work with metro transit authorities should be included in the list of sample projects. Not only is it one of the most successful uses of AB 118 workforce funds, it is also a model example for other transit authorities, and should be listed as a prime example for the use of these funds. Here is the description that should be included:
 - **ETP/California Labor Federation (\$999,349):** To fund joint labor-management training programs in public transit that provide advanced technology training for 1,352 bus and rail technicians and mechanics working with energy-efficient and green transportation vehicles and equipment. The transit partners on this project included: Los Angeles County Metropolitan Transportation Authority and Amalgamated Transit Union Local 1277; Santa Clara Valley Transportation Authority and Amalgamated Transit Union Local 265; Sacramento Regional Transit District (SACRT) and the International Brotherhood of Electrical Workers Local 1245 and the American Federation of State, County and Municipal Employees Local 146.

Anne McMonigle, member of the AB 118 Advisory Committee.
