## **Better assortment of LED Bulbs**

I think LED's are great! It gives our customers option when it comes to how bright (lumens) they want their lamp to give. With LED's its easier to do that. I noticed a lot of the consumers now with the proper education regarding LED's are surprised what a great bulb these are. Most of them are switching from regular incandescent bulbs to LED.

I only hope that we have a wider assortment of outdoor LED bulbs in the store. Also, a more compact directional LED bulbs.
