Memo

To: Bottle Rock Geothermal Power Plant Amendment Parties and Interested Public

From: Paul Kramer, Hearing Officer

Subject: Exhibit List Adjustments

Parties, thank you for your timely filings of your prehearing statements.

A few documents were identified by more than one party as an exhibit. As our e-filing system only allows a single exhibit number for each document, we had to choose one of the offered exhibit numbers. We favored the party that was the originator of the document. Thus the Petition to Amend was given the number suggested by the applicant, staff's analysis and responses to comment staff's number, etc. (The same result would occur under our pre-e-filing practice where duplicate exhibits would be rejected or withdrawn. Now we're eliminating the duplicates a little earlier as we assign the numbers in the system.)

The net result is that the following exhibit numbers were reassigned due to duplicate designations:

PROPOSED EXHIBIT NUMBER	ASSIGNED EXHIBIT NUMBER
--------------------------------	--------------------------------

400	1
401	7
402	100
403	101
404	15

Please take a minute to look at the exhibit list and verify that your exhibit candidates are there, perhaps credited to someone else. You can find the list on the project page on our web site. Here is the direct link to the list:
