Comments to Docket Number 15-AAER-06

I'm writing to oppose the proposed action outlined in Docket Number 15-AAER-6. The proposed action represents a government overreach that restricts consumer choice and prevents the people of California from enjoy the freedom to choose the products that best suit our needs. California consumers don't need a nanny state to mandate what they can and cannot buy. If a product like a halogen lamp delivers the light output and color that I prefer, what business is it of the government to restrict my choice. If you want to reduce energy consumption, raise the gas tax or electricity rates and let the market, and the people, decide.
