STATE OF CALIFORNIA

Energy Resources Conservation
and Development Commission

In the Matter of:) Docket No. 82-AFC-2
) (P800-83-011)
 Kern River Cogeneration Company's)
 Kern River Cogeneration Project) Order Approving Change to
) the Project Design to Add a
) Maintenance Shop.
 _____)

Kern River Cogeneration Company (KRCC) submitted a request to the California Energy Commission (CEC) to change the project design as approved in the Commission Decision for the Kern River Cogeneration Project.

KRCC notified the CEC that they wish to construct a maintenance shop at the power plant site. The new shop will be approximately 30 feet by 80 feet (2400 square feet) and will be constructed on an existing vacant area between the gas turbine generators and the water treatment facility. The area is currently covered with gravel.

The shop will be used for general maintenance and repairs on items such as electrical and gas turbine components. The shop will also be used for storage.

Staff has reviewed the information submitted by KRCC and finds the change is acceptable and meets the overall intent of the Commission's decision for the Kern River Cogeneration Project.

STAFF RECOMMENDATION

Staff has concluded that the proposed amendment is noncontroversial in nature, and recommends Commission approval for the following reasons:

- 0 The proposed change is consistent with the overall intent of the Kern River Cogeneration project Decision;
- 0 The proposed change will be beneficial;
- 0 Staff has not received any negative comments from interested parties notified of the proposed change;
- 0 KRCC and CEC staff are in agreement with the proposed change;
- 0 The proposed change is based on information which was not reasonably or readily available to the parties prior to Commission certification; and,

0 There are no new or additional unmitigated environmental impacts associated with this change.

CONCLUSION AND ORDER

The California Energy Commission hereby adopts staff's recommendation and findings as its own. The Commission Orders that the Kern River Cogeneration project design be modified to include the maintenance shop. No changes to the Conditions of Certification are needed.

AGENDA

BUSINESS MEETING

General Information is available from the SECRETARIAT 916-654-4987

The PUBLIC ADVISER is available to coordinate public presentations at the Business Meeting 800-822-6228 or 916-654-4489

Wednesday, July 28, 1993
1516 Ninth Street
Hearing Room A, First Floor
Sacramento, CA
10 a.m.

(Wheelchair Accessible)

THE COMMISSION WILL CONSIDER THE FOLLOWING ITEMS:

1. **LOCAL JURISDICTION ACCOUNT LOANS.** Possible approval of two loans: (1) \$93,000 to the City of Fullerton, and (2) \$59,925 to the City of Martinez for energy efficiency improvements. Contact: Daryl Mills, 654-5070. (10 minutes)
 2. **SMALL SCHOOL DISTRICT PROGRAM.** Possible approval of a loan of \$53,404 to Arcata School District for energy efficiency improvements. Contact: Don Kazama, 654-5072. (10 minutes)
 3. **CONSENT CALENDAR**
 - a. **KERN RIVER COGENERATION COMPANY.** Possible approval of a request to change the project design by adding a maintenance shop at the power plant site.
 - b. **ARGUS COGENERATION EXPANSION (ACE) PROJECT.** Possible approval of a request to delete the cooling tower sulfate emission limit. Testing has shown that sulfates are controlled through permit limits.
 - c. **BAF ENERGY, INC.** Possible approval of a proposal to use No. 2 fuel oil to train new operators and to perform maintenance on the auxiliary boiler's oil firing system at the American I facility.
 - d. **COMMISSION COSPONSORSHIP.** Possible approval of cosponsorship of the Northern California Power Agency Energy Expo, September 23-24, 1993, in Monterey, California. The Commission will lend its name and will be provided with a complimentary exhibit booth.
 4. Approval of Minutes of June 9, 1993
 5. Commission Policy Committees' Reports
- A discussion may be held on pending legislation. The Commission may take a position on bills as they are reviewed.
6. General Counsel's Report

Closed session may be held on pending or proposed litigation. [Authority: Government Code, Sections 11126(q)(1) and (3).]

Subject : ITEM FOR THE JULY 28, 1993 BUSINESS MEETING CONSENT CALENDAR - KERN RIVER COGENERATION COMPANY AMENDMENT TO COMMISSION DECISION 82-AFC-2

Kern River Cogeneration Company(KRCC) has requested an amendment to Commission Decision 82-AFC-2 to add a maintenance building at the power plant site. The new building will be approximately 30 feet by 80 feet (2400 square feet) and will be located between the gas turbine generators and the water treatment facility. The building will be used for general repairs and maintenance on electrical and gas turbine components.

The proposed building will require no changes to the existing Conditions of Certification.

Attached for your information is a staff issue memo regarding the proposed change to the steam pipeline. We have submitted an agenda package to the Secretariat for Executive Office approval and have requested that the item be placed on the July 28, 1993 Business Meeting Consent Calendar.

We will notify you of any changes made to this package prior to the Business Meeting.

Please let Terry Maderos (654-5191) of my staff know by Tuesday, July 20, 1993 if you would like a briefing on this proposed amendment.

Subject : ITEM FOR THE JULY 28, 1993 BUSINESS MEETING CONSENT CALENDAR -
REQUEST TO AMEND THE DECISION FOR THE KERN RIVER COGENERATION PROJECT
82-AFC-2

ITEM SUMMARY

Kern River Cogeneration Company (KRCC) has requested an amendment to Commission Decision 82-AFC-2 to construct a maintenance shop at the power plant site.

The new building is approximately 30 feet by 80 feet (2400 square feet) and is located on the power plant site, between the turbine generator and the water treatment facility. The building will be used as a general repair facility for electrical and gas turbine components. The building will also be used for storage of spare parts.

The proposed maintenance building will require no changes to the conditions of certification.

PROJECT MANAGER

Terry Maderos, EFS & EPD/Compliance (654-5191)

STAFF POSITION

Staff supports the proposed addition of the maintenance shop and recommends adoption of the change to the project design.

CEQA COMPLIANCE

The CEC's power plant NOI-AFC process is a California Environmental Quality Act (CEQA) "Certified Regulatory Program" as set out in Public Resources Code Section 21080.5. This means that the CEC's NOI-AFC process is the functional equivalent of the EIR process.

Under CEQA and the Commission's functionally equivalent program, an additional document is not required unless substantial changes are proposed which would require major revisions of the original CEQA document, or substantial changes occur in the circumstances under which the project is being undertaken. (See Public Resources Code

B. B. Blevins
July 19, 1993
Page 2

Section 21166; Title 14, California Code of Regulations Sections 15162-15164.)

Staff concludes that the proposed changes in this matter do not affect the original conclusions in the Decision, and will not result in any additional significant environmental impacts. Therefore, no subsequent or supplemental CEQA-equivalent document is required.

ORAL PRESENTATION

The Compliance Project Manager will be available to answer any questions that may arise.

BUSINESS MEETING PARTICIPANTS

Compliance Project Manager.

COMMISSION ACTION REQUESTED

Staff recommends Commission adoption of the Order to change the project design by adding the proposed maintenance building for the following reasons:

- 0 The proposed change is consistent with the overall intent of the Kern River Cogeneration project Decision;
- 0 The proposed change will be beneficial;
- 0 Staff has not received any negative comments from interested parties notified of the proposed change;
- 0 KRCC and CEC staff are in agreement with the proposed change;
- 0 The proposed change is based on information which was not reasonably or readily available to the parties prior to Commission certification; and,
- 0 There are no new or additional unmitigated environmental impacts associated with this change.
