We should plan for the possibility that the other parties or the Committee will have questions for her. Could she be available by telephone? Or could your other witness(es) address the issues in her absence? You can mention this in your prehearing conference statement.

Mr. Kramer:

Thank you. CDFW intends to file a Prehearing Conference Statement on March 8, 2016.

I will forward your email to our region regarding subscribing to the list serve for this project after this current proceeding concludes, and will ask them to evaluate other projects they might want to receive notice regarding.

Do you see a problem with having the CDFW witness who answered the questions regarding the threatened and endangered species in the area only submit written testimony?

Thank you again for your assistance.
