April 24, 2015

Dear Librarian:

**DOCUMENT HANDLING FOR THE PUENTE POWER PROJECT (15-AFC-01)**

On April 15, 2015, the California Energy Commission received an Application for Certification (AFC) from NRG Oxnard Energy Center, LLC, to construct, own and operate the Puente Power Project (P3). P3 would be sited on approximately 3 acres of previously disturbed vacant brownfield land located on the northern portion of the existing 36-acre Mandalay Generating Station (MGS) site at 393 North Harbor Boulevard in Oxnard, Ventura County, California.

The P3 is under the Energy Commission's siting authority. The Commission's power plant certification process examines engineering, public health and safety, and environmental aspects of power plant proposals and provides analyses pursuant to the California Environmental Quality Act (CEQA). When issuing a license, the Energy Commission is the lead state agency under CEQA and through its certified regulatory program produces several environmental and decision documents rather than an Environmental Impact Report.

The Energy Commission's siting process is open to the public and incorporates the input of the public as well as local, state, and federal agencies. To facilitate public participation in our review process, the Energy Commission has sent copies of the AFC to libraries in Oxnard, Eureka, San Francisco, Sacramento, Fresno, Los Angeles, and San Diego.

Please make the enclosed AFC available for those who may wish to be informed about the project. We request that you not allow the AFC to be removed from the library. To increase accessibility of the document, we ask, if possible, that you cross reference it as a general reference work under the title and author categories, as well as under such subjects as "Energy Commission," "electricity," "energy/generation," "power plant siting," or any other relevant subject.

Thank you for your cooperation. If you have any questions, please contact Jon Hilliard, Energy Commission Project Manager, at (916) 654-3936 or by e-mail at [jon.hilliard@energy.ca.gov](mailto:jon.hilliard@energy.ca.gov) or Alexis Surita, Project Assistant, at (916) 651-9106 or by email at [alexis.surita@energy.ca.gov](mailto:alexis.surita@energy.ca.gov).

Sincerely,
