**Subject:** Re: Puente Power Project Petition to Intervene

Good morning Mr. Renaud:

Petitioners are still in the process of developing the scope of their participation and so are reluctant to omit anything from our potential consideration prior to even being granted intervenor status. Of the list you sent, the issues we intend to pursue include: project description; project alternatives; compliance and closure; GHG emissions; air quality; hazardous materials management; waste management; biological resources; soil and water resources; land use; socioeconomics; visual resources.

I hope that this information is helpful, please let me know if you have additional questions.

**Subject:** Puente Power Project Petition to Intervene

Dear Mr. Segee:

I am in receipt of the Petition to Intervene you submitted recently. I have provided a list below of all the topic areas that the Energy Commission must analyze in power plant siting cases.

To assist the Committee in understanding how the Environmental Coalition, Environmental Defense Center, and Sierra Club, Los Padres Chapter (Petitioners) would participate in the Puente Power Project application for certification process, please reply with a list showing which topic areas apply to the issues that Petitioners intend to pursue. Please feel free to contact me if you need further information as to which topic areas would cover specific issues.
