Docket Number:	15-AFC-01
Project Title:	Puente Power Project
TN #:	205897
Document Title:	Francisco Ferreyra Comments on Opposing the Power Plant
Description:	N/A
Filer:	Patty Paul
Organization:	Francisco Ferreyra
Submitter Role:	Public
Submission Date:	8/28/2015 1:52:25 PM
Docketed Date:	8/28/2015

My name is Francisco, I'm an Onnard College student and have been a resident of the City of Onnard for as long as I could breathe. Now the quality of the air that I breathe is being threatened yet again. This time the culprit is NRC and their proposed power plant on my community's beach.

beautiful =

Francisco Ferreyra

Onnard resident

I stand by my City Council members, assembly members, State Senator, and congresswoman in opposing the power plant. In fact I'll go even further and say that fossil fuels should stay in the ground. I believe climate disruption is the greatest civil rights issue of our time, and if this proposal passes it will directly contribute to climate disruption. I think we should move towards more renewable sources of energy.

Once again, as an Onnard citizen, and humanitarian, I oppose this power plant.

Thank you for your time.
