Energy Commission staff, including Jeff Juarez, Scott Polaske, Amanda Stennick, and Carol Watson, and Project Manager Jon Hilliard, conducted a conference call today with Chris Williamson, Principal Planner with the City of Oxnard Planning Division.

Staff requested the conference call for the purpose of gathering additional environmental and land use information about the six alternative project sites/areas recommended by the City of Oxnard as alternative project sites to the proposed Puente Power Project. This information is to be used in staff's consideration of off-site project alternatives.

The city's alternative project sites were first presented to staff at the Environmental Scoping Meeting and Informational Hearing on August 27, 2015, in Oxnard, CA. Since then, the city has presented a sixth alternative site/area for staff to consider.
