Meeting Location:

NAME: Gerry Bemis and Jacquelyn Record

DATE: 10-12-15

TIME: 11:30 am

WITH: Tom Andrews with Sierra Research

SUBJECT: Puente Power Project

COMMENTS:

Energy Commission staff spoke with Tom Andrews from Sierra Research regarding the new information the applicant will be submitting as updates to the project turbine design and efficiency data. This is new information that the applicant and Sierra Research obtained from General Electric (GE) in the past few days. The applicant plans on submitting additional performance and hourly emission rate data from GE and will perform modified modeling that would directly affect tables and data throughout the AFC.

Tom Andrews anticipates submitting the package, with updated tables and discussion, to both the Ventura County Air Pollution Control District (VCAPCD) and Energy Commission "within a few weeks" (about the week of October 26th).
