Subject: Re: Puente Power Project - CUPA Question..

Good afternoon Brett,

Yes< Oxnard is it's own CUPA for all 6 of the programs. The CUPA is a division of the Fire Department. My direct line is 805-385-8364 should you have any questions.

Steve

Afternoon Steve,

My name is Brett and I work at the California Energy Commission in the Siting, Transmission, and Environmental Protection Division. I'm currently working on the Puente Power Project that NRG submitted to the Commission to replace the existing Mandalay Generating Station. I had a quick question that I wanted to run by you since I'm working on the Hazardous Materials Management analysis for the Puente Power Project.

Does Oxnard have its own CUPA independent of Ventura County and what do you call yourselves so that I can reference the name correctly in my analysis?

If you have any questions, please let me know.

Regards,

Brett Fooks | Mechanical Engineer
