		Project Title: Puente Power Project (P3)
<input type="checkbox"/> E-MAIL: <input type="checkbox"/> Telephone:	<input checked="" type="checkbox"/> Meeting Location: Mandalay Generating Station, Oxnard, CA	
NAME: Carol Watson	Date: Nov 19, 2015	Time: 11:30 am
<p>WITH: Energy Commission (CEC) : Anwar Ali, Carol Watson, Marylou Taylor, Jon Hilliard</p> <p>Coastal Commission (CCC): Jonna Engel</p> <p>NRG: Bill Baker, George Piantka, John Mihatov</p> <p>AECOM: Anne Connell, Julie Love</p>		
SUBJECT: Puente Power Project (P3)		
<p>CEC and CCC met onsite with the project owner and consultants for a site review. The purpose of the visit was:</p> <ol style="list-style-type: none"> 1. have the agencies review the project site and work toward assisting the CCC in making a wetlands determination; and 2. have Jon Hilliard meet later offsite with Oxnard City Principal Planner, Chris Williamson <p>The agencies and project owner's staff walked the site reviewing vegetation and discussing other characteristics of the site such as depth to groundwater, the presence of hydric soils or other wetlands indicators, and overall hydrology and topography of the site. We also discussed the historical uses of the property as staging and Edison Canal dredge spoils storage for the Mandalay Generating Station, and how that might have influenced, compacted, or otherwise artificially altered soils and vegetation in the area. The CCC indicated that they will review the project data and survey information, and provide a determination if the site should be categorized as a wetland pursuant to CCC regulations; likely this effort will occur in January.</p>
