Re: Puente Power Project (15-AFC-01) Sarvey Data Request Set # 1

Dear Mr. Chillemi:

Pursuant to Title 20, California Code of Regulations, Section 1716(a), Robert Sarvey requests the information specified in the enclosed data requests. The information requested is necessary to: 1) more fully understand the project, 2) assess whether the facility will be constructed and operated in compliance with applicable regulations, 3) assess whether the project will result in significant environmental impacts, 4) assess whether the facilities will be constructed and operated in a safe, efficient and reliable manner, and 5) assess potential mitigation measures'

Written responses to the enclosed data requests are due on or before April 4, 2016. If you are unable to provide the information requested, need additional time, or object to providing the requested information, please send a written notice to Robert Sarvey and the Commission within 20 days of receipt of this notice. The notification must contain the reasons for the inability to provide the information or the grounds for any objections. If you have any questions regarding the enclosed data requests, please call me at (209) 835-7162

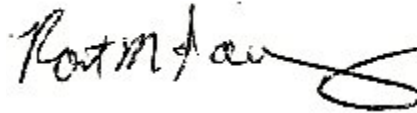

## Background

When the Puente Power Plant is not in operation it still requires electricity to keep the balance of the plant operable. This is traditionally called parasitic load.

Data Request # 1: What is the parasitic load of the Puente Power Plant.

Data Request # 2: Please provide NRG's expected number of hours that the plant will be operating.
